*Toxic Demography* Jennifer D. Sciubba, Michael S. Teitelbaum, Charles J. Stille Professor of History Emeritus Jay Winter, 2025-11-19 Population politics has taken many forms throughout history. In *Toxic Demography*, Jennifer D. Sciubba, Michael S. Teitelbaum, and Jay Winter explore the deep entanglement of population dynamics with identity, modernization, nationalism, and populism. Focusing on the United States, Europe, and Asia, the authors examine the demographic dimensions of political conflict and the societal changes driven by aging populations and decreasing fertility rates. These regions, at the forefront of unprecedented demographic transitions, reveal how population trends have been co-opted to serve political agendas that transform population debates into battlegrounds for broader ideological struggles.

*Children's Right to Identity, Selfhood and International Family Law* Marilyn Freeman, Nicola Taylor, 2025-05-14 This pioneering book explores the child's right to identity, and the concept of selfhood, in both domestic and cross-border contexts. It highlights life events and transformations that children and young people often experience in the field of international family law and related areas which may impact on their identity, and considers the legal protections available to them. The book analyses the psychological and sociocultural factors that contribute to identity formation and discusses how this can sometimes be damaged or disrupted by significant life experiences and adversities. How the law can be used to best protect children at risk of interrupted or maladjusted identity development is also addressed.

**Daughters of the Bamboo Grove** Barbara Demick, 2025-05-20 The heartrending story of twin sisters torn apart by China's one-child policy and the rise of international adoption—from the author of the National Book Award finalist *Nothing to Envy* “Excellent . . . entrancing and disturbing . . . [Demick] is one of our finest chroniclers of East Asia. . . . [Her] characters are richly drawn, and her stories, often reported over a span of years, deliver a rare emotional wallop.”—The New York Times On a warm day in September 2000, a woman named Zanhua gave birth to twin girls in a small hut behind her brother's home in China's Hunan province. The twins, Fangfang and Shuangjie, were welcome additions to her family but also not her first children. Living under the shadow of China's notorious one-child policy, Zanhua and her husband decided to leave one twin in the care of relatives, hoping each toddler on their own might stay under the radar. But, in 2002, Fangfang was violently snatched away. The family worried they would never see her again, but they didn't imagine she could be sent as far as the United States. She might as well have been sent to another world. Following stories she wrote as the Beijing

bureau chief for the Los Angeles Times, Barbara Demick embarks on a journey that encompasses the origins, shocking cruelty, and long-term impact of China's one-child rule; the rise of international adoption and the religious currents that buoyed it; and the exceedingly rare phenomenon of twin separation. Today, Esther—formerly Fangfang—lives in Texas, and Demick brings to vivid life the Christian family that felt called to adopt her, unaware that she had been kidnapped. Through Demick's indefatigable reporting, will the long-lost sisters finally reunite—and will they feel whole again? A remarkable window into the volatile, constantly changing China of the last half century and the long-reaching legacy of the country's most infamous law, *Daughters of the Bamboo Grove* is also the moving story of two sisters torn apart by the forces of history and brought together again by their families' determination and one reporter's dogged work.

**The Adoption Plan** Jack Neubauer, 2025-03-18 During the tumultuous years of World War II and the Cold War, new global humanitarian ideas and practices coalesced around the cause of saving the children in China. How did China's children become archetypal victims who ignited a new global humanitarian imagination? And who would prevail in the transnational contest to control the vast quantities of aid flowing into China on their behalf? *The Adoption Plan* offers a new history of the rise of global humanitarianism that places the recipients, administrators, and critics of humanitarian aid in China at the center of the story. Analyzing how the "adoption plan" for international child sponsorship became one of the most popular fundraising strategies for humanitarian work in China and across the world, Jack Neubauer explores how the globalization of humanitarian aid was linked to new practices of global intimacy that enabled donors to build personal relationships with Chinese children across geographic and cultural divides. Drawing on hundreds of letters written by Chinese children to foreign sponsors and extensive research in Chinese archives, Neubauer shows how China's Nationalist and Communist parties mobilized the emotional bonds between children and sponsors to secure international support for their competing political projects. By the 1950s, child sponsorship and international adoption had become the most hotly contested humanitarian programs in Cold War East Asia. Upending the conventional view of humanitarianism as a tool of Western influence, *The Adoption Plan* demonstrates that it was often the Chinese recipients of aid who were best able to control its material and ideological uses.

**Capitalism** Sven Beckert, 2025-11-25 A landmark event years in the making, a brilliant global narrative that unravels the defining story of the past thousand years of human history. No other phenomenon has shaped human history as decisively as capitalism. It structures how we live and work, how we think about ourselves and others, how we organize our politics. Sven Beckert, author of the Bancroft Prize-winning *Empire of Cotton*, places the story of capitalism within the largest conceivable geographical and historical framework, tracing its history during the past millennium and across the world. An epic achievement, his book takes us into merchant businesses in Aden and car factories in Turin, onto the terrifyingly violent sugar plantations in Barbados, and within the world of women workers in textile factories in today's Cambodia. Capitalism,

argues Beckert, was born global. Emerging from trading communities across Asia, Africa, and Europe, capitalism's radical recasting of economic life rooted itself only gradually. But then it burst onto the world scene, as a powerful alliance between European states and merchants propelled them, and their economic logic, across the oceans. This, Beckert shows, was modern capitalism's big bang, and one of its epicenters was the slave labor camps of the Caribbean. This system, with its hierarchies that haunt us still, provided the liftoff for the radical transformations of the Industrial Revolution. Fueled by vast productivity increases along with coal and oil, capitalism pulled down old ways of life to crown itself the defining force of the modern world. This epic drama, shaped by state-backed institutions and imperial expansion, corresponded at no point to an idealized dream of free markets. Drawing on archives on six continents, Capitalism locates important modes of agency, resistance, innovation, and ruthless coercion everywhere in the world, opening the aperture from heads of state to rural cultivators. Beckert shows that despite the dependence on expansion, there always have been, and are still, areas of human life that the capitalist revolution has yet to reach. By chronicling capitalism's global history, Beckert exposes the reality of the system that now seems simply "natural." It is said that people can more easily imagine the end of the world than the end of capitalism. If there is one ultimate lesson in this extraordinary book, it's how to leave that behind. Though cloaked in a false timelessness and universality, capitalism is, in reality, a recent human invention. Sven Beckert doesn't merely tote up capitalism's debits and credits. He shows us how to look through and beyond it to imagine a different and larger world.
