John Mauceri,Alec Baldwin

Leonard Bernstein and the Overture to Candide Douglas K. Dement,1994

Why You Like It Nolan Gasser,2019-04-30 From the chief architect of the Pandora Radio's Music Genome Project comes a definitive and groundbreaking examination of why we respond to music the way we do. Everyone loves music. But what is it that makes music so universally beloved and have such a powerful effect on us? In this sweeping and authoritative book, Dr. Nolan Gasser—a composer, pianist, and musicologist, and the chief architect of the Music Genome Project, which powers Pandora Radio—breaks down what musical taste is, where it comes from, and what our favorite songs say about us. Dr. Gasser delves into the science, psychology, and sociology that explains why humans love music so much; how our brains process music; and why you may love Queen but your best friend loves Kiss. He sheds light on why babies can clap along to rhythmic patterns and reveals the reason behind why different cultures around the globe identify the same kinds of music as happy, sad, or scary. Using easy-to-follow notated musical scores, Dr. Gasser teaches music fans how to become engaged listeners and provides them with the tools to enhance their musical preferences. He takes readers under the hood of their favorite genres—pop, rock, jazz, hip hop, electronica, world music, and classical—and covers songs from Taylor Swift to Led Zeppelin to Kendrick Lamar to Bill Evans to Beethoven, and through their work, Dr. Gasser introduces the musical concepts behind why you hum along, tap your foot, and feel deeply. *Why You Like It* will teach you how to follow the musical discourse happening within a song and thereby empower your musical taste, so you will never hear music the same way again.

For the Love of Classical Music John Mauceri,Alec Baldwin,2019-12-03 A Vintage Shorts Original Selection In an illuminating and probing conversation with renowned actor, producer, comedian and philanthropist Alec Baldwin, John Mauceri reflects on the enduring appeal of classical music, how he learned to lead an orchestra, his upbringing and how he became the acclaimed conductor and musical director he is today. Covering such varied topics like the personal and cultural significance of different composers' pieces and the singular experience of hearing music performed live, this intimate and inviting dialogue opens a window onto the extraordinary mind of a masterful conductor and an illustrious devotee of life on the stage. An ebook short.
