

Capital Punishment In Russia

William English Walling

The Death Penalty in Russia Aleksandr Solomonovich Mikhlin, 1999 In the twentieth century few societies have vacillated between extremes on the death penalty as has Russia. Dr Mikhlin's study is an invaluable contribution to this debate, offering statistics, official and unofficial, on the death penalty which inform the discussion, but more importantly, he addresses issues which have been largely ignored.

Crime and Punishment in Russia Jonathan Daly, 2018-02-22 Crime and Punishment in Russia surveys the evolution of criminal justice in Russia during a span of more than 300 years, from the early modern era to the present day. Maps, organizational charts, a list of important dates, and a glossary help the reader to navigate key institutional, legal, political, and cultural developments in this evolution. The book approaches Russia both on its own terms and in light of changes in Europe and the wider West, to which Russia's rulers and educated elites continuously looked for legal models and inspiration. It examines the weak advancement of the rule of the law over the period and analyzes the contrasts and seeming contradictions of a society in which capital punishment was sharply restricted in the mid-1700s, while penal and administrative exile remained heavily applied until 1917 and even beyond. Daly also provides concise political, social, and economic contextual detail, showing how the story of crime and punishment fits into the broader narrative of modern Russian history. This is an important and useful book for all students of modern Russian history as well as of the history of crime and punishment in modern Europe.

Death Penalty in Russia Aleksandr Solomonovich Mikhlin, 1999-04-19 Number of Records of Conviction

A Year in Russia Maurice Baring, 1907

Crime and Punishment in Early Modern Russia Nancy Kollmann, 2012-10-11 This is a magisterial account of the day-to-day practice of Russian criminal justice in the seventeenth and early eighteenth centuries. Nancy Kollmann contrasts Russian written law with its pragmatic application by local judges, arguing that this combination of formal law and legal institutions with informal, flexible practice contributed to the country's social and political stability. She also places Russian developments in the broader context of early modern European state-building strategies of governance and legal practice. She compares Russia's rituals of execution to the 'spectacles of suffering' of contemporary European capital punishment and uncovers the dramatic ways in which even the tsar himself, complying with Moscow's ideologies of legitimacy, bent to the

moral economy of the crowd in moments of uprising. Throughout, the book assesses how criminal legal practice used violence strategically, administering horrific punishments in some cases and in others accommodating with local communities and popular concepts of justice.

The Law of Homicide and of Capital Punishment Great Britain. Parliament. House of Commons,1878

Human Rights in Russia and Eastern Europe Ferdinand J.M. Feldbrugge,William B. Simons,2021-10-18 The introduction of a market economy in the countries of Central and Eastern Europe required an enormous legislative effort, in order to create the regulatory framework for a vast array of new economic activities. The resulting statutory materials in turn gave rise to numerous books and articles, by domestic lawyers from the countries concerned, as well as by foreign scholars. By comparison, the other part of the legal diptych - the establishment of the rule of law - has received less attention from academic commentators. The purpose of this volume is to correct the balance to some extent, especially by looking at various aspects of legal reform through the prism of human rights. The legal implementation of a respect for human rights turns out to be an even more comprehensive and pervasive enterprise than creating the legal framework for a market economy. A number of important areas of law are highlighted in this volume; the emphasis is, although not exclusively, on the Russian Federation.

La Follette's Weekly Magazine ,1909

Law and Legal System of the Russian Federation - Sixth Edition Peter B. Maggs,Olga Schwartz,William Burnham,2015-01-01 This book is a detailed treatment of the Russian legal system written especially for English-speaking law students and lawyers. While it is designed primarily as a casebook, extended discussions of the law, numerous citations to original Russian sources, and detailed suggestions for finding these sources on the Internet also make it useful as a reference for scholars specializing in Russian studies and for lawyers who know Russian but not Russian law. The authors have decades of experience following the Russian legal system, with one concentrating on human rights, court procedure, and criminal law and procedure, the other on civil, commercial, and tax law. Chapters cover key aspects of the Russian legal system, including sources of law, the judicial system, the legal profession, constitutional law, individual rights, civil and commercial law, civil procedure, private international law, foreign investment law, criminal procedure, administrative law, and tax law. The book covers major changes in Russian law since the previous edition was published, including more reliance on judicial precedent, increasing the independence of criminal investigators from prosecutors, dealing with abuse of the legal

system by corrupt officials to steal businesses from their rightful owners, and closing loopholes in the tax system. The new edition also chronicles the continuing struggle of the European Court of Human Rights and activist Russian lawyers to push Russian law toward international standards.
