**Brock Dethier**

*Legends and Lyrics* Paul Hamilton Hayne, 1872

*American Meditative Lyrics* Theodore Whitefield Hunt, 1896

*Nordic Childhoods 1700–1960* Reidar Aasgaard, Marcia Bunge, Merethe Roos, 2017-08-04 This volume strengthens interest and research in the fields of both Childhood Studies and Nordic Studies by exploring conceptions of children and childhood in the Nordic countries (Denmark, Finland, Iceland, Norway, and Sweden). Although some books have been written about the history of childhood in these countries, few are multidisciplinary, focus on this region as a whole, or are available in English. This volume contains essays by scholars from the fields of literature, history, theology, religious studies, intellectual history, cultural studies, Scandinavian studies, education, music, and art history. Contributors study the history of childhood in a wide variety of sources, such as folk and fairy tales, legal codes, religious texts, essays on education, letters, sermons, speeches, hymns, paintings, novels, and school essays written by children themselves. They also examine texts intended specifically for children, including text books, catechisms, newspapers, songbooks, and children's literature. By bringing together scholars from multiple disciplines who raise distinctive questions about childhood and take into account a wide range of sources, the book offers a fresh and substantive contribution to the history of childhood in the Nordic countries between 1700 and 1960. The volume also helps readers trace the historical roots of the internationally recognized practices and policies regarding child welfare within the Nordic countries today and prompts readers from any country to reflect on their own conceptions of and commitments to children.

*Lyric, Meaning, and Audience in the Oral Tradition of Northern Europe* Thomas Andrew DuBois, 2006 DuBois draws on sets of lyric songs from England, Wales, Scotland, Ireland, Norway, Sweden, and Finland to explore the question of meaning in folklore, especially the role of traditional audiences in appraising and understanding nonnarrative songs.

**Sabato Rodia's Towers in Watts** Luisa Del Giudice, 2021-05-20 A rich array of perspectives on the creative work of the eccentric immigrant laborer who created one of the most mysterious landmarks of Los Angeles. —Donna Gabaccia, Professor of History, University of Minnesota The Watts Towers, wondrous objects of art and architecture, were created over the course of three decades by a determined, single-minded artist, Sabato Rodia, an Italian immigrant laborer who wanted to do something big. Now a National Historic Landmark and internationally renowned destination, the Watts Towers in Los

Angeles are both a personal artistic expression and a collective symbol of Nuestro Pueblo—Our Town/Our People. Featuring fresh and innovative examinations, Sabato Rodia's *Towers in Watts* revisits the man and his towers. In 1919, Rodia purchased a triangular plot of land in a multiethnic, working-class, semi-rural district. He set to work on an unusual building project in his own yard. By night, Rodia dreamed and excogitated, and by day he built. He experimented with form, color, texture, cement mixtures, and construction techniques. He built, tore down, and rebuilt. As an artist completely possessed by his work, he was often derided as an incomprehensible crazy man. Providing a multifaceted, holistic understanding of Rodia, the towers, and the cultural/social/physical environment within which the towers and their maker can be understood, this book compiles essays from twenty authors, offering perspectives from the arts, the communities involved in the preservation and interpretation of the towers, and the academy. Most of the contributions originated at two interdisciplinary conferences held in Los Angeles and in Italy, and the collection as a whole is a well-rounded tribute to one man's tenacious labor of love. A portion of royalties will go to support the work of the Watts Towers Arts Center.

Singing Poets Dimitris Papanikolaou, Dēmētrēs Papanikolaou, 2007 This book shows how the model of singing poets becomes then an organizing principle for a system of national popular music. It responds to the growing call for the teaching of the textual networks of popular music within the domains of literary and cultural studies.

**Twenty-One Genres and How to Write Them** Brock Dethier, 2013-04-15 In this classroom-tested approach to writing, Brock Dethier teaches readers how to analyze and write twenty-one genres that students are likely to encounter in college and beyond. This practical, student-friendly, task-oriented text confidently guides writers through step-by-step processes, reducing the anxiety commonly associated with writing tasks. In the first section, Dethier efficiently presents each genre, providing models; a description of the genres' purpose, context, and discourse; and suggestions for writing activities or "moves" that writers can use to get words on the page and accomplish their writing tasks. The second section explains these moves, over two hundred of them, in chapters ranging from "Solve Your Process Problems" and "Discover" to "Revise" and "Present." Applicable to any writing task or genre, these moves help students overcome writing blocks and develop a piece of writing from the first glimmers of an idea to its presentation. This approach to managing the complexity and challenge of writing in college strives to be useful, flexible, eclectic, and brief—a valuable resource for students learning to negotiate unfamiliar writing situations.

**Youth Voices, Public Spaces, and Civic Engagement** Stuart Greene, Kevin Burke, Maria McKenna, 2016-02-26 This collection of original research explores ways that educators can create participatory spaces that foster civic engagement, critical thinking, and authentic literacy practices for adolescent youth in urban contexts. Casting youth as vital social actors, contributors shed light on the ways in which urban youth develop a clearer sense of agency within the structural forces of racial segregation and economic development that would otherwise marginalize and silence their voices and begin to see familiar spaces with reimagined possibilities for socially just educational practices.
