Terry Pratchett's Ethical Worlds Kristin Noone,Emily Lavin Leveret,2020-08-05 Terry Pratchett's writing celebrates the possibilities opened up by inventiveness and imagination. It constructs an ethical stance that values informed and self-aware choices, knowledge of the world in which one makes those choices, the importance of play and humor in crafting a compassionate worldview, and acts of continuous self-examination and creation. This collection of essays uses inventiveness and creation as a thematic core to combine normally disparate themes, such as science fiction studies, the effect of

collaborative writing and shared authorship, steampunk aesthetics, productive modes of ownership, intertextuality, neomedievalism and colonialism, adaptations into other media, linguistics and rhetorics, and coming of age as an act of free will.

Biology and Manners Regina Yung Lee, Una McCormack, 2020-06-17 This volume of essays continues the establishment of Lois McMaster Bujold as an important author of contemporary science fiction and fantasy. It argues persuasively that Bujold's corpus spans the distance between two full arcs of US feminism, and has anticipated or responded to several of its current concerns in ways that invite or even require theoretical exploration. The fourteen essays collected here provide wide-ranging scholarly analyses of Bujold's work and worlds so far, covering not only the science fiction and fantasy series, but taking into account the wealth of ancillary material inspired by her works, such as fan fiction and role-playing games. Examining the major series through a range of perspectives, including feminist readings, queer theory, and disability studies, this volume aims to establish beyond doubt the seriousness of intent behind Bujold's various artistic projects and provide a set of rich readings of this engaging, experimental, playful, and popular author.

The New Peplum Nicholas Diak, 2018-01-12 Peplum or sword-and-sandal films--an Italian genre of the late 1950s through the 1960s--featured ancient Greek, Roman and Biblical stories with gladiators, mythological monsters and legendary quests. The new wave of historic epics, known as neo-pepla, is distinctly different, embracing new technologies and storytelling techniques to create an immersive experience unattainable in the earlier films. This collection of new essays explores the neo-peplum phenomenon through a range of topics, including comic book adaptations like Hercules, the expansion of genre boundaries in Jupiter Ascending and John Carter, depictions of Romans and slaves in Spartacus, and The Eagle and Centurion as metaphors for America's involvement in the Iraq War.

Blood of Wolves Loren L. Coleman, 2005 An exile and outcast from his clan, Kern, a young warrior known as the Wolf-Eye, holds the fate of all Cimmeria in his hand when he discovers that it is his destiny to lead the powers of good against the devastating power of Grimnir, the living god of the Vanir, and his hordes of invaders, in the first volume in a new trilogy set in the world of Conan. Original.

The character was created by writer Robert E. Howard in 1932 via a series of fantasy stories published in Weird Tales magazine. Conan the Character: Conan is a Cimmerian. From Robert E. Howard's writings (The Hyborian Age among others) it is known that the Cimmerians were based on the Celts or Gaels. He was born on a battlefield and is the son of a village blacksmith. Conan matured quickly as a youth and, by age fifteen, he was already a respected warrior who had participated in the destruction of the Aquilonian outpost of Venarium. He roamed throughout the Hyborian Age nations as a thief, outlaw, mercenary, and pirate. As he grew older, he began commanding larger units of men and escalating his ambitions. In his forties, he seized the crown of the tyrannical king of Aquilonia, the most powerful kingdom of the Hyborian Age, having strangled the previous ruler on the steps of the throne. largely to protect his own survival or for personal gain.
