Father of All Louise Pubols, 2010-01-04 “This deeply researched, engagingly presented, and immensely valuable book demolishes longstanding myths about Mexican California as a colorful, custom-bound world apart. In place of this fantasy past, Louise Pubols offers a history of the de la Guerras that reveals a family and a society caught up in, yet not wholly overcome by, the global economic and political developments of the first half of the nineteenth century.”—Stephen Aron, Professor of History at the University of California, Los Angeles, and Executive Director of the Institute for the Study of the American West at the Autry National Center “The Father of All combines first-rate historical analysis with in-depth archival research. Don José de la Guerra and his extended family are fascinating historical personages, and their encounters with other Californio elites provide a compelling story, but Pubols takes us to a higher level of understanding by demonstrating the crucial role of extended family ties in the economic and political history of California during the Mexican Period. Pubols provides a convincing argument that family ties kept the prevalent political unrest from breaking out into more violent civil conflict.”—Dr. Jarrell C. Jackman, Executive Director, Santa Barbara Trust for Historic Preservation

Social Patterns in Pre-classic Mesoamerica David C. Grove, 1999 This volume is both a summation of work that has been carried out over a long period of time and a signpost pointing the way for future studies. Issues regarding gender, social identity, and landscape archaeology are present, as are the analysis of mortuary practices, questions of social hierarchy, and conjunctive studies of art and society that are in the best tradition of scholarship at Dumbarton Oaks.

Wearing Culture Heather Orr, Matthew Looper, 2013-12-15 Wearing Culture connects scholars of divergent geographical areas and academic fields—from archaeologists and anthropologists to art historians—to show the significance of articles of regalia and of dressing and ornamenting people and objects among the Formative period cultures of ancient Mesoamerica and Central America. Documenting the elaborate practices of costume, adornment, and body modification in

Panama, Costa Rica, Nicaragua, Honduras, Oaxaca, the Soconusco region of southern Mesoamerica, the Gulf Coast Olmec region (Olman), and the Maya lowlands, this book demonstrates that adornment was used as a tool for communicating status, social relationships, power, gender, sexuality, behavior, and political, ritual, and religious identities. Despite considerable formal and technological variation in clothing and ornamentation, the early indigenous cultures of these regions shared numerous practices, attitudes, and aesthetic interests. Contributors address technological development, manufacturing materials and methods, nonfabric ornamentation, symbolic dimensions, representational strategies, and clothing as evidence of interregional sociopolitical exchange. Focusing on an important period of cultural and artistic development through the lens of costuming and adornment, *Wearing Culture* will be of interest to scholars of pre-Hispanic and pre-Columbian studies.

The Oxford Handbook of the Olmecs Christopher A. Pool, University Research Professor in Anthropology Christopher A. Pool, Carl J. Wendt, 2025-12-22 The Oxford Handbook of the Olmecs provides an up-to-date overview of research on this most elaborate of Mesoamerica's foundational cultures (ca. 1450-400 BCE). In 50 original chapters, it presents articles that discuss the theoretical and social significance of Olmec research, as well as empirical summaries of recent archaeological, art-historical, archaeometric, and environmental research. It also presents topical perspectives on Olmec economy, society, polity, and belief, in addition to forward-looking articles that reconsider the place of the Olmecs in Mesoamerican studies and anthropological archaeology.
