Veracruz 1867, el Dunquerque mexicano Juan Alberto Díaz Wiechers,2022-10-04 El 19 de junio de 1867 murieron fusilados en el Cerro de las Campanas de Querétaro, el Emperador Maximiliano I de México y sus leales generales Miguel Miramón y Tomás Mejía. Tras esto se inició un largo proceso para repatriar desde México a Austria tanto el cadáver de Maximiliano como los restos dispersos de su derrotado ejército. Para ello, el Emperador Francisco José I de Austria, hermano de Maximiliano, envió a México a su vicealmirante Wilhelm von Tegetthoff, junto con las fragatas Novara y Elisabeth. Finalmente, tras múltiples vicisitudes y contratiempos, el cadáver del difunto Emperador mexicano fue recuperado y devuelto a Viena, donde hoy descansa en la Cripta Imperial de los Habsburgo. Paralelamente, sus derrotados soldados, arribando en diversas etapas a Veracruz y en penosas condiciones humanas, fueron, muy eficientemente, aprovisionados y reembarcados hacia Europa. Se trata de un capítulo prácticamente desconocido de la Historia de México, que envuelve a infinidad de personas, en su gran mayoría -aunque no todos- comerciantes alemanes residentes en México, quienes, bien en vida de Maximiliano, o bien habiendo ya éste fallecido, desempeñaron fundamentales funciones que los hicieron acreedores del eterno y más profundo agradecimiento del gobierno imperial austriaco. El 26 de enero de 1868, el Emperador Francisco José concedió importantes condecoraciones a un grupo selecto de hombres, “en reconocimiento, en parte por los servicios personalmente prestados al inmortalizado Emperador Maximiliano, en parte por las meritorias gestiones para la repatriación de la disuelta Legión Mexicana Austriaca, y además por el solícito apoyo otorgado a Mi vicealmirante von Tegetthoff durante su difícil misión...”. Uno de los principales galardonados fue el muy joven comerciante bremense residente en Veracruz Heinrich Ludwig Wiechers, bisabuelo del autor de estas líneas. La condecoración que le otorgó el Emperador Francisco José, la Orden de la Corona de Hierro de Tercera Clase, existe todavía en perfectas condiciones en poder de sus descendientes; una fotografía de ella es la que se acompaña en la portada de este libro. Partiendo de la investigación sobre la vida de H.L. Wiechers nos fue posible, entonces, desentrañar todo este capítulo de la Historia de México y adentrarnos en la vida de todos quienes se hicieron merecedores del agradecimiento imperial. Todos ellos hombres muy valientes, cuya vida y obra merece ser relatada.

Entendiendo mejor a las personas H. Arne Maus,2022-03-04 En su libro, H. Arne Maus explica los elementos constitutivos del pensar y cómo se pueden entender mejor a las personas. Aprenda porqué las personas hacen lo que hacen. Experimente la diferencia entre gerentes y directivos, y cómo pueden identificarse los perfiles necesarios para cada uno de estos roles. Más allá de esto, Arne Maus nos muestra la influencia de las Intenciones cognitivas, y cuánto se gana, si se las tiene en cuenta a la hora de decidir sobre una nueva incorporación. El objetivo es el de encontrar la persona correcta para el trabajo correcto: eso aumenta la eficiencia del puesto de trabajo, y al mismo tiempo la satisfacción laboral dentro de las

culturas empresariales, ya sea a nivel de la empresa, de un área determinada o de un equipo de trabajo. Reconozca la diferencia entre Motivación y Compromiso. Este libro le muestra porqué la motivación sola no alcanza. Hoy podemos medir el grado de compromiso dentro de una organización y a qué tipo de productividad lleva. Con ello también mostramos las palancas para la mejora del compromiso y la productividad. El autor es el desarrollador del Identity Compass. En su trabajo puso el acento en la medición de las intenciones cognitivas. A través de la identificación de dichas intenciones, ya sean de gerentes, de directivos, trabajadores o incluso de clientes, una empresa puede medir los factores de motivación y de desmotivación, y encontrar nuevos caminos para crear condiciones ideales de trabajo para sus empleados. Esto no solamente aumenta la eficiencia en el puesto de trabajo, sino que también le hace posible a la empresa, encontrar vías inteligentes para la reducción de sus costos de personal. Este libro también ayuda a coaches y formadores a llevar a sus clientes y participantes de manera más intensa y efectiva a un éxito duradero.

Análisis químico cuantitativo Daniel C. Harris,2001 Este libro proporciona una excelente comprensión de los principios de la química analítica y de cómo éstos se aplican a la química y a las disciplinas relacionadas con ella, especialmente a las ciencias de la vida y ambientales. Los temas se tratan de una manera rigurosa, amena e interesante, con suficiente profundidad para cursos avanzados de química, pero, a su vez, el autor utiliza intencionadamente un lenguaje sencillo y claro que puede ser entendido por todos aquellos estudiantes cuyo interés principal no sea la química.

Maus I y II (Spanish Edition) Art Spiegelman, 2015-06-23 Maus es la biografía de Vladek Spiegelman, un judío polaco superviviente de los campos de exterminio nazis, contada a través de su hijo Art, un dibujante de cómics que quiere dejar memoria de la aterradora persecución que sufrieron millones de personas en la Europa sometida por Hitler y de las consecuencias de este sufrimiento en la vida cotidiana de las generaciones posteriores. Apartándose de las formas de literatura creadas hasta la publicación de Maus, Art Spiegelman se aproxima al tema del Holocausto de un modo absolutamente renovador, y para ello relata la experiencia de su propia familia en forma de memoria gráfica, utilizando todos los recursos estilísticos y narrativos tradicionales de este género y, a la vez, inventando otros nuevos. ENGLISH DESCRIPTION A story of a Jewish survivor of Hitler's Europe and his son, a cartoonist who tries to come to terms with his father's story and history itself. Its form, the cartoon (the Nazis are cats, the Jews mice), succeeds perfectly in shocking us out of any lingering sense of familiarity with the events described, approaching, as it does, the unspeakable through the diminutive. Genuinely tragic and comic by turns, it attains a complexity of theme and a precision of thought new to comics and rare in any medium. Mausties together two powerful stories: Vladek's harrowing take of survival against all odds, delineating the paradox of family life in the death camps, and the author's account of his tortured relationship with his aging father. At every level this is the ultimate survivor's tale—and that too of the children who somehow survive even the survivors
