Concept of Creation in Islam Maria Yaseen, 2020-07 In this series of books, we're basically going to discuss the story of creation and history, as we know it and then, what's been given to us of that, which will come on the day of judgment. We will discuss the signs of the day of judgment and that which comes afterwards, paradise and Hellfire and so on, so forth. This book is going to start off with the creation of everything. The creation of the heavens and the earth, the creation of angels, jinn, animals, humans, paradise, and Hellfire, when they were all first created. In essence we're going to cover everything that we can. The lives of the Prophets AS, getting into the life of the Prophet SAW and then we're going to go century by century and discuss some of the major contributions and developments of that century in Muslim history until our time, Insha'Allah and then we'll move on to the end. Now, when we're studying these topics, we will be discussing the benefits, without getting into the very specific details that are irrelevant to us. So, when we talk about the creation of the throne, when we talk about the creation of the pen, when we talk about the creation of Al-Lawh Al-Mahfooz i.e. the preserved tablet, the heavens and the earth, the angels, Adam AS and so on so forth, we're going to only discuss the benefits.

Torah Through a Muslim's View Wisnu Tanggap Prabowo, This book critically examines what is regarded as the Torah by

the People of the Book, using the Qur'an as a benchmark and standard of comparison. It explores the parallels, differences, and elements absent in both scriptures. The book reveals that not all content within the Torah is invalid, though a significant portion has undergone alteration and distortion (tahrif and tabdil). Such an intertextual study does not serve as a gateway to legitimizing religious pluralism; on the contrary, it reaffirms the concept of *wihdah ad-din* (the unity of religion) as indicated in the Qur'an and the Sunnah. - Prof. Dr. H. Muhammad Galib Mattola, MA., (lecturer at UIN Alauddin Makassar and a member of the Indonesian Ulema Council (MUI) South Sulawesi) This book discusses the importance of understanding the Torah through the lens of the Qur'an and the Hadith of the Prophet, aiming to achieve a correct understanding of the previous scriptures. Islam views religion as one-the guidance of Allah to humanity through His messengers, with Muhammad as the seal of the prophets. Therefore, understanding the previous scriptures is crucial in the context of Islam, to comprehend the continuity of divine revelation and to affirm the truth of faith. - Arif Wibowo (Social and Religious Cultural Analyst, Ki Ageng Henis Da'wah Laboratory) - Pustaka Al-Kautsar Publisher - Dilarang keras mem-PDF-kan, mendownload, dan memfotokopi buku-buku Pustaka Al-Kautsar. An Introduction to Religious and Theological Studies, Second Edition Cyril Orji, 2021-01-07 An Introduction to Religious and Theological Studies walks students through topical issues to be encountered in the study of the Abrahamic religions: Judaism, Christianity, and Islam as these religions encounter other religions in the context of the wider ecumenism. The text is written from a Christian point of view and aims at helping students understand that to be Christian is to be ecumenical. African Traditional Religions (ATRs) has been included in this survey to provide background for the religious traditions and cultures of peoples of Africa as Christianity moves inexorably southward. The book has been written with undergraduate general education students in mind--including meeting the needs of those in seminaries and theological institutes.

Terracene Salar Mameni, 2023-08-04 In *Terracene* Salar Mameni historicizes the popularization of the scientific notion of the Anthropocene alongside the emergence of the global war on terror. Mameni theorizes the Terracene as an epoch marked by a convergence of racialized militarism and environmental destruction. Both the Anthropocene and the war on terror centered the antagonist figures of the *Anthropos* and the terrorist as responsible for epochal changes in the new geological and geopolitical world orders. In response, Mameni shows how the Terracene requires radically new engagements with *terra* (the earth), whose intelligence resides in matters such as oil and phenomena like earthquakes and fires. Drawing on the work of artists whose practices interrogate histories of settler-colonial and imperial interests in land and resources in Iran, Iraq,

Yemen, Kuwait, Syria, Palestine, and other regions most affected by the war on terror, Mamani offers speculative paths into the aesthetics of the Terracene.
