

Que Son Los Comportamientos Sociales

Juan Martín Figini

Teoría De Los Sistemas Sociales Juan Martín Figini, 2017-03-24 La teoría de los sistemas sociales está basada en el conocimiento de los sistemas mentales. Esta particularidad se debe a la necesidad imperiosa de explicar los fenómenos sociales de la forma más rigurosa y completa posible. Todas las manifestaciones humanas colectivas a nivel de los pensamientos, emociones, comportamientos y resultados son la propiedad emergente del sistema mental colectivo, responsable de decodificar los estímulos internos y/o externos de la comunidad bajo estudio. En este sentido, todos los pensamientos colectivos y las emociones colectivas, que generan y guían a todos los comportamientos y las relaciones sociales, son una secuencia causal que se inicia en el sistema mental social, específicamente en el subsistema de creencias colectivo de la comunidad protagonista. A lo largo de este modelo podrán leer, estudiar e investigar diversos tipos de fenómenos sociales y notar que una de las variables explicativas más relevantes son las asociaciones de creencias colectivas que definen la particular personalidad del sistema social y, en consecuencia, el orden social emergente.

Comportamiento social de la fauna nativa de Chile Luis A. Ebensperger, Antonieta Labra, 2021-01-30 El comportamiento social representa un aspecto central de la conducta de los animales que se manifiesta a través del contacto físico y del uso de diversas señales de comunicación (ej., químicas, auditivas, visuales), lo que modula, entre otras, las interacciones asociadas al acceso a recursos críticos como alimento, apareamiento o refugio para evitar depredadores, y posibilitan grados variables de cuidado de las crías y distintas formas de cooperación. El comportamiento social ha enfatizado el uso de unas pocas especies de laboratorio, así como especies silvestres de regiones distintas de Chile y otras regiones vecinas. Este libro explora los estudios realizados en especies menos conocidas, como algunos vertebrados e invertebrados nativos de Chile, los cuales tienen un alto potencial para contribuir directamente a un desarrollo integrativo de la teoría existente. En los capítulos de este libro se aborda la diversidad de elementos del comportamiento social examinados y cómo dichos elementos difieren o se asemejan a aquellos de otras especies ya estudiadas. Además, se entrega organizadamente información hasta ahora dispersa sobre variados atributos del comportamiento social de especies nativas de Chile. Se enfatiza la necesidad e importancia de desarrollar aún más el estudio científico del comportamiento social en especies nativas. El presente volumen busca educar a un público no especializado sobre la singularidad y el valor científico del comportamiento social que caracteriza a la fauna nativa de este país. Además, se espera incentivar a estudiantes en

formación e investigadores de disciplinas afines a considerar modelos sociales locales y explorar nuevos organismos de estudio para abordar problemáticas novedosas e integrativas.

Fundamentos sociales del comportamiento humano José Luis Álvaro Estramiana,2003 El objetivo principal de esta obra es presentar un análisis de la conducta humana entendida como acción social. Los seres humanos no reaccionan pasivamente a las influencias del medio, sino que interpretan y construyen la realidad social en la que viven. Pero, al mismo tiempo, las personas somos un producto de dicha realidad social, por lo cual nuestro comportamiento debe ser entendido como parte de nuestras relaciones sociales que se dan en un contexto histórico y cultural. En la dinámica entre individuo y sociedad como realidades inseparables se han ido constituyendo las ciencias sociales y más específicamente la Psicología social como un área de conocimiento derivada fundamentalmente de la Sociología y la Psicología. Este libro puede ser de utilidad para estudiantes de Psicología, Psicología social y Sociología especialmente, así como para aquellos lectores interesados en las ciencias sociales en general. Los autores del mismo son todos ellos profesores de Psicología social y Sociología con una amplia experiencia editorial.
