Voices of Wisdom: Charles de Gaulle Quotes Sara Tabandeh, Welcome to the Voices of Wisdom series, a curated collection of timeless quotes from some of the most influential and inspiring figures in history. Words have the power to inspire, to challenge, and to change the world. Throughout the ages, great minds have distilled their wisdom, experiences, and insights into memorable sayings that continue to resonate with us today. This series is more than just a compilation of quotes; it is a journey through the thoughts and philosophies of individuals who have left an indelible mark on humanity. From philosophers and poets to scientists and leaders, these quotes reflect the diverse spectrum of human thought and endeavor. Each volume in this series is dedicated to a specific theme or area of life, making it easy for you to find the inspiration you need at any moment. Whether you seek motivation, reflection, or simply a new perspective, you will find it within these pages. As you read through these quotes, may you find the wisdom to navigate your own path, the courage to face your challenges, and the inspiration to make a positive impact on the world around you. Let these voices from the past and present guide you towards a brighter future.

They Never Said It Paul F. Boller Jr., John George, 1990-06-14 Abraham Lincoln never said, You cannot fool all the people all the time. Thomas Jefferson never said, That government is best which governs least. And Horace Greeley never said, Go west, young man. In *They Never Said It*, Paul F. Boller, Jr. and John George examine hundreds of misquotations, incorrect

attributions, and blatant fabrications, outlining the origins of the quotes and revealing why we should consign them to the historical trashcan. Many of the misquotes are quite harmless. Some are inadvertent misquotes that have become popular (Shakespeare actually said, The best part of valor is discretion), others, the inventions of reporters embellishing a story (Franklin Roosevelt never opened a speech to a DAR group with the salutation, My fellow immigrants). But some of the quotes, such as Charles Darwin's supposed deathbed recantation of evolution, falsify the historical record with their blatant dishonesty. And other chillingly vicious ones, filled with virulent racial and religious prejudices, completely distort the views of the person supposedly quoted and spread distrust and hatred among the gullible. These include the forged remarks attributed to Benjamin Franklin that Jews should be excluded from America and the fabricated condemnation of Catholics attributed to Lincoln. An entertaining and thought-provoking book, *They Never Said It* covers a great deal of history and sets it right. Going beyond a mere catalog of popular misconceptions, Boller and George reveal how rightists and leftists, and atheists and evangelists all have at times twisted and even invented the words of eminent figures to promote their own ends. The ultimate debunking reference, it perfectly complements handbooks of quotations.

The Quote Verifier Ralph Keyes, 2007-04-01 Our language is full of hundreds of quotations that are often cited but seldom confirmed. Ralph Keyes's *The Quote Verifier* considers not only classic misquotes such as Nice guys finish last, and Play it again, Sam, but more surprising ones such as Ain't I a woman? and Golf is a good walk spoiled, as well as the origins of popular sayings such as The opera ain't over till the fat lady sings, No one washes a rented car, and Make my day. Keyes's in-depth research routinely confounds widespread assumptions about who said what, where, and when. Organized in easy-to-access dictionary form, *The Quote Verifier* also contains special sections highlighting commonly misquoted people and genres, such as Yogi Berra and Oscar Wilde, famous last words, and misremembered movie lines. An invaluable resource for not just those with a professional need to quote accurately, but anyone at all who is interested in the roots of words and phrases, *The Quote Verifier* is not only a fascinating piece of literary sleuthing, but also a great read.

Super Searchers Do Business Mary Ellen Bates, 1999 Bates, who does the same sort of work, interviews 11 researchers who use the Internet and online services to find critical business information. They reveal how they choose sources, evaluate search results, and tackle projects. The collection launches a series treating online research in different subject areas. Maxime Weygand Barnett Singer, 2008-06-02 During the armistice proceedings and at the Peace Conference after World War I, French General Maxime Weygand served as chief aid to Marshal Foch. Called out of retirement in the late 1930s, Weygand again served his country during World War II, becoming commander in chief of the French Army. His call for enhanced French unity, military preparedness, and adaptation to a new kind of war dominated by tank mobility might have saved France the humiliating defeat in 1940 at the hand of the Nazis, had it been heeded. Weygand's recognition of the

Nazi threat earned him the respect of Winston Churchill and Franklin Roosevelt. Weygand's Vichy Resistance led to his imprisonment from late 1942 through the end of the war. French archival sources, available oral testimony and Weygand's private papers contribute to a fascinating biography of one of World War II's unsung heroes.

Contemporary Thought and Politics Ernest Gellner,1974 Gellner's political philosophy in these volumes combines the down-to-earth realism of political sociology with a rational treatment of the normative issues of traditional political thought. In these essays Gellner strives to understand the religions of nationalism, communism and democracy, returning again and again to the basic values of the liberal: social tolerance, rational criticism, human decency and justice.
