That's My Truck! I Think? Stephan R. Hutchinson,2008-05-28 A young man just out of the military buys a big rig truck and goes out over the road to earn his living without first properly investigating the trucking industry. Normally, this means failure but this resourceful individual knows how to fight, and fight them he does. This includes crooked truck brokers, dispatchers, and shippers and receivers alike who are plain unethical. Will he survive?

Not My Own Gail Steeves,2019-11-05 “Other people’s actions can leave you picking up the pieces, years after they occur.” In *Not My Own*, Gail Steeves shares a raw perspective of what it’s like to become one of the “other people.” You know, those good people that bad things happen to. Gail Steeves is one of them. It all started with the shocking murder, suicide of her older brother in 1990. Life is short, and no one is immune from loss or tragedy. Even unexpected and tragic loss. Gail Steeves shares how to go on after tragedy and the importance of looking after your mental health. Bad things do happen to good people, and I’m one of them. The struggles are very real. Life happens, and sometimes not in the way we choose. Through *Not My Own*, readers will see that all is not lost when you lose a loved one. These pages offer hope and support for those trying to find a new normal after those closest to us are gone, highlighting how it is possible to navigate our way in a world without them. *Not My Own* offers an honest, inside look into what it’s like to try and move on after tragedy. It shows that, as humans, we have amazing potential to grow and heal. We are not alone in this journey. Everyone has a story, and through shared experiences, we can create hope and light for each other.

Rumor has it that Candie's to blame for the broken engagement between her twin sister Sarah and her close friend Nick. But how can she be the other woman without even knowing it? With the family business, her reputation, and her relationship with Sarah on the line, Candie needs an insta-boyfriend to put a lid on the gossip, pronto. Raise a Smarter Child by Kindergarten David Perlmutter, M.D., Carol Colman, 2008-03-11 Nature didn't finish your child's brain at birth. It's up to you to maximize your child's mental skills without causing additional stress. Acclaimed neurologist and bestselling author of Grain Brain, David Perlmutter, MD, offers these valuable tools: Simple games to reinforce memory pathways in the brain Information on common household products and children's toys that contain brain-damaging neurotoxins The right foods and supplements to boost intelligence and turn on your child's smart genes How to turn the television, the computer, and video games into educational tools Proven ways to reduce the risk of your child developing ADD and ADHD Between birth and age five, your child has up to thirty IQ points at stake. Scientists now know that the human brain is undergoing a constant and dramatic transformation in the first years of life. During this peak time of development, every activity and experience leaves an indelible mark on your baby's brain, for better or worse. The right kind of stimulation and nutrition will create connections in the brain that promote intelligence and raise IQ. The wrong kinds of activities and foods can stifle intellectual development, destroy brain cells, and leave your child more vulnerable to learning or behavior problems down the road. So, what can you do during the first five years to ensure that your child is primed to excel? The good news is that raising a smarter child is easier than you think. It doesn't require making an investment in expensive equipment or high priced tutors. It's as simple as playing the right games, serving the right foods, and maintaining a brain-enhancing environment in your home by eliminating common household toxins. In Raise a Smarter Child by Kindergarten by Dr. David Perlmutter, you'll learn easy and highly effective strategies that can vastly improve your child's brain power and reduce his or her chances of developing ADD and ADHD. For example, you can: Stimulate Memory: Changing a component on the over-the-crib mobile every week makes the baby compare what was there before to what's there now, reinforcing memory pathways in the brain that are critical for learning. Spread out those shots: Schedule more frequent trips to the pediatrician for vaccinations, so that fewer shots are administered at once. Flooding the immune system with a cocktail of

different vaccines can damage the nervous system. Get rid of toxins: Protecting a child from neurotoxins found in foods, toys and even baby bottles can help preserve precious IQ points. Inside, Dr. Perlmutter provides a scientifically backed food and supplement plan for children and nursing mothers and details the many brain-building activities that you can do with your child. In addition, he reveals the numerous toys and household products that contain harmful, brain-damaging toxins and shows how to identify and combat common childhood problems like ADD and food allergies that may affect your child's development. Your job over the first five years is to help your child build the best brain possible. With Dr. Perlmutter's help, you can mine the countless opportunities you have each day to make your child smarter, happier and better prepared to excel.

Not My Man To Keep Devlin Ash, 2025-04-07 Jake I'm a man of my word, I like to keep my private life private, and my biggest vice is the need to be in control. But a casual encounter at a bar turned my life upside down when I met HER. This woman's stunning beauty and soulful brown eyes had a captivating effect on me, awakening a powerful longing to possess her. We spent the weekend as strangers, satisfying each other's needs, and our parting needed no explanations. But fate intervenes, thrusting her back into my life, forcing me to make tough choices. Choices I never thought I'd have to make, and promises I thought I'd never break. Julia Escaping to a ranch in Bitter Root, Montana, for a temporary nanny job, seemed like the perfect way to press reset after a bitter divorce. Before embarking on my new job, I pamper myself with a three-day weekend at Bozeman resort, and that's where I meet HIM. A drink at a bar ignites a weekend of intense passion with a ruggedly handsome stranger—no names exchanged, no expectations, and no regrets. It's everything I needed to feel alive again. With the memory of the enigmatic stranger playing on repeat, I embrace my role as a nanny and instantly feel a sense of belonging on the ranch. But fate intervenes and I'm forced to confront HIM and the shame of my promiscuous behavior. I have two choices: run home to Chicago or stay and act as if nothing happened between us. I might be living the perfect life, with the perfect man, but his heart belongs elsewhere.
