**High-Frequency Financial Econometrics** Yacine Aït-Sahalia, Jean Jacod, 2014-07-21 A comprehensive introduction to the statistical and econometric methods for analyzing high-frequency financial data High-frequency trading is an algorithm-based computerized trading practice that allows firms to trade stocks in milliseconds. Over the last fifteen years, the use of statistical and econometric methods for analyzing high-frequency financial data has grown exponentially. This growth has been driven by the increasing availability of such data, the technological advancements that make high-frequency trading strategies possible, and the need of practitioners to analyze these data. This comprehensive book introduces readers to these emerging methods and tools of analysis. Yacine Aït-Sahalia and Jean Jacod cover the mathematical foundations of stochastic processes, describe the primary characteristics of high-frequency financial data, and present the asymptotic concepts that their analysis relies on. Aït-Sahalia and Jacod also deal with estimation of the volatility portion of the model, including methods that are robust to market microstructure noise, and address estimation and testing questions involving the jump part of the model. As they demonstrate, the practical importance and relevance of jumps in financial data are universally recognized, but only recently have econometric methods become available to rigorously analyze jump processes. Aït-Sahalia and Jacod approach high-frequency econometrics with a distinct focus on the financial side of matters while maintaining technical rigor, which makes this book invaluable to researchers and practitioners alike.

**Time and Difference in Rabbinic Judaism** Sarit Kattan Gribetz, 2022-08-09 How the rabbis of late antiquity used time to define the boundaries of Jewish identity The rabbinic corpus begins with a question—"when?"—and is brimming with discussions about time and the relationship between people, God, and the hour. *Time and Difference in Rabbinic Judaism* explores the rhythms of time that animated the rabbinic world of late antiquity, revealing how rabbis conceptualized time as a way of constructing difference between themselves and imperial Rome, Jews and Christians, men and women, and human and divine. In each chapter, Sarit Kattan Gribetz explores a unique aspect of rabbinic discourse on time. She shows how the ancient rabbinic texts artfully subvert Roman imperialism by offering rabbinic time as an alternative to Roman time. She examines rabbinic discourse about the Sabbath, demonstrating how the weekly day of rest marked Jewish time from Christian time. Gribetz looks at gendered daily rituals, showing how rabbis created men's time and women's time by

mandating certain rituals for men and others for women. She delves into rabbinic writings that reflect on how God spends time and how God's use of time relates to human beings, merging divine time with human time. Finally, she traces the legacies of rabbinic constructions of time in the medieval and modern periods. *Time and Difference in Rabbinic Judaism* sheds new light on the central role that time played in the construction of Jewish identity, subjectivity, and theology during this transformative period in the history of Judaism.

Dear Drew Julie Bonetti, 2020-09-14 What happens when you put together Jane Austen, Drew Barrymore, a writer from Boston and the old fashioned art of letter writing? It's a fun recipe, where you get to eavesdrop on every refreshing, creative, thought-provoking and at times unusual line and you will never look at things the same way again! If you are a Jane Austen fan, a Drew Barrymore fan or even a fan of bringing back the old fashioned art of letter writing then you will enjoy this fun tale. It's a different portrait of an artist, perhaps even the way Jane Austen was meant to be experienced and extolled! Julie Bonetti is an author and podcaster who lives just outside of Boston, writes and talks about energy and shares her explorations about energy and relationships.
