**Popular Biopolitics and Populism at Europe's Eastern Margins** Andrey Makarychev, 2022-03-16 In this groundbreaking book, Andrey Makarychev approaches populism through a critical biopolitical lens and shows that populist narratives are grounded intrinsically in corporeality, sexuality, health, bodily life and religious practices. The author demonstrates that populism is a phenomenon deeply rooted in mass culture. He compares three countries -- Estonia, Ukraine and Russia--that all share post-Soviet experiences offering a broad spectrum of populist discourses. The three case studies display the interconnection between biopower and populism through references to culture, media, art, theatrical performances and literature, raising new questions and directions for understanding traditional accounts of populism. This work was supported by European Union's Horizon 2020 research and innovation programme under grant agreement No. 822682: Populist rebellion against modernity in 21st-century Eastern Europe: neo-traditionalism and neo-feudalism - POPREBEL.

**Bulletproof** Jack Posobiec, Joshua Lisc, 2024-10-22 From New York Times Bestselling Authors of Unhumans, Jack Posobiec and Joshua Lisc The Unanswered Questions of the Most Consequential Summer in American Political History We the people of the United States have questions. And we deserve answers. Bulletproof: The Truth about the Assassination Attempts on Donald Trump is the first complete preliminary investigative report on the attempted assassination of President

Donald J. Trump that occurred on July 13, 2024, at 6:11 p.m. Eastern Daylight Time in Butler, PA, USA. Bulletproof reconstructs a minute-by-minute parallel timeline of each step of that fateful July day for President Trump, law enforcement agencies, and the would-be assassin and digs deeper than the official narrative, asking uncomfortable questions about how this event occurred and going deeper than mainstream media ever will. In addition, Bulletproof breaks new and exclusive stories from an independent private investigator team commissioned by the authors into the hidden life of shooter Thomas Matthew Crooks, and also breaks new ground, digging into the best-kept-secret details of how the failed “hit” on Trump dominoed into a palace coup of a sitting US president. Posobiec and Lisec bring the receipts. Bulletproof is also first to cover the assassination attempt that occurred two months later on September 15, 2020, at 1:30 p.m. EDT at Trump International Golf Club in West Palm Beach, FL, USA. The book curates what is known about the would-be shooter, Ryan Wesley Routh, and his complex ties to shadowy foreign fighter operations. May this public record serve the American people and those of the world who seek answers, question narratives, and hold all perpetrators accountable for their sins. Truth and justice will prevail.

BOOMERS AND BROKENNESS Karen Kellock, 2022-01-02 When boomers were sickest look what they produced by that BS: prisons and brokenness. Narcissistic Hollywood culture is divorced from reality: violent, decadent and empty seeking to make us just as nasty. You learned lessons from trudging in the mud but they didn't--they even think democrats are good. Don't minimize betrayal trauma: someone you thought you knew is really a cad into girlie pictures too. Cover design by Karen Kellock, Inside page by Blaze Goldburst

**A Future for the News** Jim A. Kuypers, 2023-11-15 A Future for the News: What's Wrong with Mainstream News Media in America and How to Fix It investigates and offers solutions to significant problems with the productive functioning of the mainstream news media. Criticism of the mainstream news media is almost a national pastime in America, and widespread polling shows credibility ratings of journalists among the lowest of any institution in America, almost as low as that of Congress. The institution of news media faces a plummeting morale of journalists; loss of readership; loss of viewers to competing, non-traditional venues for news; and so on. Moving from these problems to realistic solutions, this book serves as an instruction manual of sorts, with each chapter offering a pathway of improvement. This collection brings together academics and news industry professionals with individual chapters taking a specific area of concern and making a case for particular solutions to the problems presented. Solutions range from ones designed for individual reporters to consider, to those that target newsrooms, the institution of journalism, and news consuming audiences. Together they aim to help a beleaguered institution restore itself as a fully functioning asset of the American Republic.
