Lecture Tutorials for Introductory Astronomy Jeff Adams, Edward E. Prather, Tim Slater, Timothy F. Slater, Jack Dostal, 2004-03 Lecture-Tutorials for Introductory Astronomy, which was developed by the Conceptual Astronomy and Physics Education Research (CAPER) Team, is a collection of classroom-tested activities designed for the large-lecture introductory astronomy class, although it is suitable for any astronomy class. The Lecture-Tutorials are short, structured activities designed for students to complete while working in pairs. Each activity targets one or more specific learning objectives based on research on student difficulties in astronomy. Most activities can be completed in 10 to 15 minutes. The instructor's guide provides, for each activity, the recommended prerequisite knowledge, the learning goals for the activity, a pre-activity assessment question, an answer key, suggestions for implementation, and follow-up questions to be used for class discussion or homework.

Lecture Tutorials for Introductory Astronomy Edward E. Prather, Timothy F. Slater, Jeffrey P. Adams, 2008 Funded by the National Science Foundation, Lecture-Tutorials for Introductory Astronomy is designed to help make large lecture-format courses more interactive with easy-to-implement student activities that can be integrated into existing course structures. The Second Edition of the Lecture-Tutorials for Introductory Astronomy contains nine new activities that focus on planetary science, system related topics, and the interactions of Light and matter. These new activities have been created using the same rigorous class-test development process that was used for the highly successful first edition. Each of the 38 Lecture-Tutorials, presented in a classroom-ready format, challenges students with a series of carefully designed questions that spark classroom discussion, engage students in critical reasoning, and require no equipment. Measurements in Evaluating Science Education Amy J. Catalano,Michael A. Marino,2020-05-06 Measurements in Evaluating Science Education is a comprehensive, intuitive guide to many of the key instruments created to assess science education environments, learning, and instruction. Nearly 70 different surveys, tests, scales, and other metrics are organized according to the qualities the measures attempt to gauge, such as attitudes toward science, beliefs and misconceptions, self-efficacy, and content knowledge. Summaries of each instrument, usage information, developmental history and validation, and reported psychometric properties make this an essential reference for anyone interested in understanding science education assessment.

FIFTEEN CRITICAL INSIGHTS FOR BUSINESS OWNERS OVER FIFTY Leander Jackie Grogan, 2021-01-30 A comprehensive guide for Over-50 entrepreneurs starting a business in 2021, even if they've never owned a business before. In a knowledge-based economy, KNOWLEDGE is the indispensable ingredient that transcends all industries to separate winners from losers. Fifteen Critical Insights For Business Owners Over Fifty is knowledge on steroids. Let's be honest. The new normal in the workplace started long before COVID-19. Mass downsizing started in the late '90s. Over 91,500 factories and six million US manufacturing jobs were lost to globalization and outsourcing. According to Forbes, 39,200 brick-and-mortar stores shut down. AI robots are now collecting bridge tolls, cleaning hotel floors, driving trucks, performing medical analysis, and picking stocks on Wall Street. Humans have been told to go home. Over-50 workers know the score. They (along with their big salaries, health benefits, and retirement packages) are at the top of the list to go home too. What is the solution? What can over-50 wage-earners do? The solution is simple: Find an unmet need. Meet the unmet need. Get paid for meeting the unmet need. Although the solution is simple, the execution is highly complex, full of pitfalls and booby traps, and according to the SBA, plagued by a failure rate of roughly 60%. Without the proper guidance, chances are, you're going to fail. **FIFTEEN CRITICAL INSIGHTS FOR BUSINESS OWNERS OVER FIFTY** is the game-changer that gives you a fighting chance. In this book you discover: How you, as a long-time wage-earner, must **FIRST** transform your mind. (Everything, absolutely everything having to do with decoupling from petty corporate politics and boss-pleasing activities, starts inside your head.) How your perceived disadvantages associated with age are really powerful advantages over younger competitors. (SBA stats say you have the upper hand.) How your subconscious is a brilliant, beautiful mechanism for failure. (For the sake of your success, happiness, wholeness, and healing, your subconscious will tell you a lie.) How your most trustworthy advisors have misled you about debt. How the entire marketplace is **NOT** open to your exploration. (Your work experiences, personality traits, and core competencies prohibit many market opportunities that others might find compatible.) How centuries of human evolution may cause your spouse to rebel against your entrepreneurial inclinations. How treating people the way Steve Jobs treated people will drive your new business into the ground. Truth is Knowledge that Empowers You... Columbus didn't discover America. There were no weapons of mass destruction. There are more than eight planets in our solar system. **AND...** You are **NOT** too old, too cash-strapped, too technology-deficient to start a successful business. Time to reset for the new normal. Let's **GO!!!** If you want critical, game-changing insight to start your business, click the add to cart button now.
