M Lipman

The Book of the Hopi Frank Waters, 1977-06-30 The secrets of the Hopi road of life revealed for the first time in written form In this strange and wonderful book, thirty elders of the ancient Hopi tribe of Northern Arizona—a people who regard themselves as the first inhabitants of America—freely reveal the Hopi worldview for the first time in written form. The Hopi kept this view a secret for countless centuries, and anthropologists have long struggled to understand it. Now they record their myths and legends, and the meaning of their religious rituals and ceremonies as a gift to future generations. Here is a reassertion of a rhythm of life we have disastrously tried to ignore and instincts we have tragically repressed, and a reminder that we must attune ourselves to the need for inner change if we are to avert a cataclysmic rupture between our minds and hearts.

Hopi History in Stone Wesley Bernardini, 2009 Accompanying DVD-ROM contains figures and databases from Arizona State Museum Archaeological Series 200.

Indigenous Languages and the Promise of Archives Adrianna Link, Abigail Shelton, Patrick Spero, 2021-05 The collection explores new applications of the American Philosophical Society's library materials as scholars seek to partner on collaborative projects, often through the application of digital technologies, that assist ongoing efforts at cultural and linguistic revitalization movements within Native communities.

Language Planning and Policy in Native America T. L. McCarty, 2013 Comprehensive in scope yet full of ethnographic detail, this book examines the history of language policy by and for Native Americans, and contemporary language revitalization initiatives. Offering a critical-theory view and emphasizing the perspectives of revitalizers themselves, the book explores innovative language regeneration projects, the role of Indigenous youth in language reclamation, and prospects for Native American language and culture continuance.

The Languages and Linguistics of Indigenous North America Carmen Dagostino, Marianne Mithun, Keren Rice, 2023-09-05 This handbook provides broad coverage of the languages indigenous to North America, with special focus on typologically interesting features and areal characteristics, surveys of current work, and topics of particular importance to communities. The volume is divided into two major parts: subfields of linguistics and family sketches. The subfields include those that are customarily addressed in discussions of North American languages (sounds and sound structure, words,

sentences), as well as many that have received somewhat less attention until recently (tone, prosody, sociolinguistic variation, directives, information structure, discourse, meaning, language over space and time, conversation structure, evidentiality, pragmatics, verbal art, first and second language acquisition, archives, evolving notions of fieldwork). Family sketches cover major language families and isolates and highlight topics of special value to communities engaged in work on language maintenance, documentation, and revitalization.

Haze in the Grand Canyon National Research Council, Division on Earth and Life Studies, Commission on Geosciences, Environment and Resources, Board on Atmospheric Sciences and Climate, Board on Environmental Studies and Toxicology, Committee on Haze in National Parks and Wilderness Areas, 1990-02-01 This book presents working principles for assessing the relative importance of anthropogenic emission sources that contribute to haze in U.S. national parks and wilderness areas and discusses various alternative source control methods. Haze in the Grand Canyon evaluates and recommends strategies for improving critical scientific and technical gaps in the information and databases on haze. It examines such topics as methods for determining individual source contributions, regional and seasonal factors that affect haze, strategies for improving air quality models, the interactive role of photochemical oxidants, and scientific and technological considerations in choosing emission control measures.

Honoring Richard Ruiz and his Work on Language Planning and Bilingual Education Nancy H. Hornberger, 2016-11-21 Richard Ruiz has inspired generations of scholars in language planning and multilingual education with his unique orientations to language as a problem, a right and a resource. This volume attests to the far-reaching impact of his thinking and teaching, bringing together a selection of his published and unpublished writings on language planning orientations, bilingual and language minority education, language threat and endangerment, voice and empowerment, and even language fun, accompanied by contributions from colleagues and former students reflecting and expanding on Ruiz' ground-breaking work. This book will be of great interest to both undergraduate and postgraduate students in language planning and multilingual education, Indigenous and minority education, as well as to junior and senior researchers in those fields.

The Handbook of Computer Networks, LANs, MANs, WANs, the Internet, and Global, Cellular, and Wireless Networks Hossein Bidgoli, 2007-12-10 A comprehensive look at computer networking, from LANs to wireless networks In this second volume of The Handbook of Computer Networks, readers will get a complete overview of the types of computer networks that are most relevant to real-world applications. River Resource Management in the Grand Canyon National Research Council, Division on Earth and Life

Studies, Commission on Geosciences, Environment and Resources, Committee to Review the Glen Canyon Environmental Studies, 1996-01-29 Federal management of water is undergoing a change that involves a drastic reduction in the number of new water projects and an increase in emphasis on the quality of water management. This book summarizes and analyzes environmental research conducted in the lower Colorado River below the Glen Canyon Dam under the leadership of the Bureau of Reclamation. It reviews alternative dam operations to mitigate impacts in the lower Colorado riverine environment and the strengths and weaknesses of large federal agencies dealing with broad environmental issues and hydropower production. While many problems remain to be solved, the Bureau of Reclamation through the Glen Canyon area. The lessons of GCES are transferable to other locations and could be the basis for a new era in the management of western waters.

The State of the Native Nations Eric C. Henson, 2008 Media filters and personal preconceptions can make it hard to get a clear view of present-day Indian America. The reality is that the 500+ Native nations in the United States confront many of the same day-to-day challenges that are faced by other nations and communities--raising children with strong identities, practicing religion, providing economic sustenance, strengthening culture, managing business and governmental affairs, and protecting public health and safety--but they are doing so from foundations built on their distinct histories, cultures, and circumstances. *The State of the Native Nations: Conditions under U.S. Policies of Self-Determination* chronicles the efforts, obstacles, and accomplishments that are shaping Indian Country under contemporary federal policies and responsive tribal strategies of self-determination. In *The State of the Native Nations*, The Harvard Project on American Indian Economic Development brings together scholars and Native leaders to produce the most comprehensive, cohesive interdisciplinary study available on current conditions and trends in Indian Country. Broad in scope and thematically organized, the volume

features twenty-three chapters covering issues ranging from tribal governance, land and natural resources, and economic and social development, to arts and culture, the large off-reservation Native population, and federal Indian policy. Fourteen accompanying essays bring to life the personal perspectives of noted national leaders in Native affairs. The result is invaluable insight into the universal challenges of creating resilient, sustained, and self-determined communities. Features . Balances first-person accounts and field findings with extensive and up-to-date data and facts . Emphasizes the critical issues of Native self-determination and nation-building . Puts contemporary issues in their historical and policy contexts . Integrates case studies that highlight successful examples of the practice of Native nation self-determination

Ecological Restoration of Southwestern Ponderosa Pine Forests Peter Friederici, Northern Arizona University. Ecological Restoration Institute, 2003-05-16 Brings together the writings of practitioners and thinkers from a variety of fields--including forestry, biology, philosophy, ecology, political science, archaeology, botany, and geography--to synthesize what is known about ecological restoration in ponderosa pine forests and to consider the factors involved in developing and implementing a successful restoration effort.
