**Anti-Black Literacy Laws and Policies** Arlette Ingram Willis, 2023-05-30 A COUNTERNARRATIVE This groundbreaking book uncovers how anti-Black racism has informed and perpetuated anti-literacy laws, policies, and customs from the colonial period to the present day. As a counternarrative of the history of Black literacy in the United States, the book's historical lens reveals the interlocking political and social structures that have repeatedly failed to support equity in literacy for Black students. Arlette Ingram Willis walks readers through the impact of anti-Black racism's impact on literacy education by identifying and documenting the unacknowledged history of Black literacy education, one that is inextricably bound up with a history of White supremacy. Willis analyzes, exposes, illuminates, and interrogates incontrovertible historical evidence of the social, political, and legal efforts to deny equal literacy access. The chapters cover an in-depth evolution of the role of White supremacy and the harm it causes in forestalling Black readers' progress; a critical examination of empirical research and underlying ideological assumptions that resulted in limiting literacy access; and a review of federal and state documents that restricted reading access for Black people. Willis interweaves historical vignettes throughout the text as antidotes to whitewashing the history of literacy among Black people in the United States and offers recommendations on ways forward to dismantle racist reading research and laws. By centering the narrative on the experiences of Black people in the United States, Willis shifts the conversation and provides an uncompromising focus on not only the historical impact of such laws and policies but also their connections to present-day laws and policies. A definitive history of the instructional and legal structures that have harmed generations of Black people, this text is essential for scholars, students, and policymakers in literacy education, reading research, history of education, and social justice education.

**School Nursing** Janice Selekman, Robin Adair Shannon, Catherine F Yonkaitis, 2019-07-01 Produced in cooperation with the National Association of School Nurses, this text includes comprehensive coverage of the multiple facets of school nursing—from the foundations of practice and the roles and functions of a school nurse through episodic and chronic illness and behavioral issues, to legal issues and leading and managing within school settings. Written and edited by school nurses and pediatric experts, it features real-world-tested, best practices based on evidence and experience. There's content here that you won't find in other books, such as health assessments, individualized health plan development, mental health

conditions including adolescent depression, contemporary legal issues, and current policy statements essential to school nursing.

The Joy of Coaching Rebecca Frazier, 2020-08-06 The secrets of coaching excellence are already inside you Successful coaching has long been seen as a mental exercise—in order to do right by the teachers you serve, you put theory into practice, establish orderly processes, analyze data effectively, and implement externally mandated reforms. The truth, though, is that truly great coaches derive their success not just from what they do, but also from who they are. This groundbreaking book, based on research from an innovative mixed-methods study, provides a holistic approach to coaching that honors both mind and heart. As you explore the most important characteristics of the best instructional coaches—caring, authenticity, trustworthiness, flexibility, and more—you'll develop and hone those same characteristics in yourself. Features include: · A framework and structure for developing the characteristics of effective instructional coaches · Comprehensive analysis of each characteristic · Examples and stories of effective coaching in action · Activities, exercises, and action points · Resources for encouragement and renewal School coaches have the power to make a real difference in the lives and futures of teachers and students. By balancing your outward competencies with the inspirational application of your own inward growth, you'll bring new joy—and success—into your coaching relationships.

**Re-engaging Young People in Education** Martin Mills, Glenda McGregor, 2013-12-17 Many young people failed by the school system are those who face a range of social and economic challenges due to multiple forms of injustice. This book provides an insight into the educational practices that work to re-engage young people who have become disenchanted with traditional schooling. It examines the lives of students and workers who participate in education sites on the fringes of mainstream education, and includes a rich tapestry of personal experiences from those who have been failed by their schooling experiences. The book draws upon research of international relevance conducted in a range of 'Flexible Learning Centres' and 'democratic schools' in Australia and the UK; it suggests that improving the retention levels of young people in formal education will require schooling practices to change. Students who have become disengaged from mainstream schooling do re-engage in the learning process of many alternative schools, indicating that teaching practices and forms of organisation which work in alternative sites can also provide lessons for mainstream schooling, thereby encouraging a more socially just education system. Included in the book: contexts of contemporary schooling who chooses flexible learning centres and why democratic schools: students and teachers working together teaching in 'the margins' case studies: 'oppositional alternatives'. All young people have the capacity to learn and to enjoy learning; they do not 'fail school', rather, schools fail them. The teachers, workers and students who have shared their stories provide significant insights into how we might change this situation, and the book will be invaluable reading for postgraduates and researchers in the fields of education, the sociology of education, school reform and social work.

**Faculty Service-Learning Guidebook** Christine M. Cress, Stephanie T. Stokamer, Thomas J. Van Cleave, Joyce P. Kaufman, 2023-07-03 This is a practical guide to designing, teaching, and coordinating service-learning courses, and for developing reciprocal community partnerships and community-based research through a lens of equity that addresses the endemic racial, social, economic, and environmental disparities across society. The text provides a comprehensive framework for developing both in-person and on-line service-learning, with a chapter on virtual delivery of courses that integrates the principles and practices described throughout the book. The authors uniquely integrate the how-to of conducting service-learning with the theoretical foundations to enact effective, equitable, and inclusive community engagement. Given this moment of enormous social inequality and divisiveness, the authors offer a new definition and set of educational principles that they characterize as Equity-Centered Community Engagement Excellence. These principles serve to guide academic and community engagement that is democratic, recognizes the voice and expertise of community partners, addresses the power imbalances between communities and academic institutions, and develops an educational experience that is potentially transformative and promotes civic responsibility. Informed by the literature of critical service-learning, critical race theory, intercultural communication theory, and social-constructivism, this book attempts to deconstruct the assumption of the preeminence of academic knowledge to reconstruct a new operational paradigm of equity-centeredness that validates community capacity to guide faculty in their redesign of service-learning curriculum, activities, collaborations, and scholarship. It is based on the principles of: Student Agency (demonstrated as enhanced skills, knowledge, and motivation) Community Efficacy (recognition of community assets and capacity-building) Scholarly Advocacy (leveraging evidence-based research-based for equity-centered learning, serving, and social justice). The authors offer examples of syllabi, lessons and assignments, reflection questions, evaluation rubrics, as well as an array of teaching tips that illustrate strategies for use in the classroom and in the field. The book is addressed to faculty embarking on service-learning and to seasoned scholar practitioners looking for innovative ideas, as well as to campus administrators who coordinate community outreach or college student volunteer services, offering guidance on leveraging resources and fiscal support from external stakeholders. It is also designed to serve as a resource for professional development workshops and faculty scholar learning communities. It offers a rich compendium of ideas and examples from which faculty and practitioners can select exercises and elements to incorporate or adapt for their courses, whether designing short-term engagements or extended service-learning programs.

**Service-Learning** Shane Lavery, Dianne Chambers, Glenda Cain, Chris Forlin, 2017-11-28 This book investigates the role of Service Learning in supporting inclusive practice. Specifically, it explores the process of Service Learning and the intersection with inclusion in classroom and community.

**Service-Learning and Social Justice Education** Dan Butin, 2023-04-14 This volume offers a crucial resource for those

interested and involved in linking schools and higher education with communities to foster justice-oriented curriculum and instruction. Noted scholars explore the connections, limits, and possibilities between service-learning and social justice education. Exemplary models, unexpected hurdles, and synthesis of justice-oriented research are some of the important topics explored. This is a critical addition to the literature for teachers, teacher educators, and scholars committed to community-based teaching and learning that truly grapples with and engages issues of diversity, democracy, and civic activism.

*Libraries Empowering Society through Digital Literacy* Heather Todd, Prudence W. Dalrymple, Luisa Marquardt, Ning Zou, 2025-11-03 High-speed connectivity, massive growth in social media, the ubiquity of mobile devices, and the emergence of artificial intelligence have led to information confusion, chaos and complexity. The ability for everyone to create, find, evaluate, use and apply information effectively is critical to successful personal, societal and global outcomes. Libraries and librarians must adapt their services and instructional approaches to engage with digital natives, immigrants and refugees to ensure all gain the competencies required by digital citizens. What constitutes digital literacy and how can we do it better? This book explores concepts, frameworks, and practices in digital literacy to foster adoption of initiatives to extend digital literacy to all.
