Cultures of Growth Mary C. Murphy, 2024-03-12 'Required reading for anyone who has wondered how to create a culture that supports innovation, risk-taking, integrity and inclusion. I simply loved this book!' ANGELA DUCKWORTH, bestselling author of *Grit* In her multi-million-copy bestseller *Mindset* Carol Dweck coined the terms 'fixed' and 'growth'

mindset, transforming our view of individual success. In a fixed mindset, talent and intelligence are viewed as predetermined traits, while in a growth mindset, talent and intelligence can be nurtured. In *Cultures of Growth*, award-winning social psychologist Mary C. Murphy argues that mindset transcends individuals. Drawing on compelling examples from her work with Fortune 500 companies, startups and schools, she shows how we can all create a growth mindset culture. Murphy's original decade-long research reveals that organisations and teams more geared toward growth inspire deeper learning, spark collaboration, spur innovation, and build trust necessary for risk-taking and inclusion. They are also less likely to cheat, cut corners, or steal each other's ideas. And they're more likely to achieve top results. In these cultures, great ideas come from people from all backgrounds and at all levels - not just those anointed as brilliant or talented. In a world where success seems reserved for a chosen few, *Cultures of Growth* unveils a radically different approach to creating organisations that inspire learning, growth, and success at all levels.

Firefighter Emotional Wellness Jada Hudson, 2022-03-15 *Firefighter Emotional Wellness: Reconnecting with Yourself and Others* is a training exercise for your heart and mind. It's an excellent, evidence-based self-help book with boots on the ground sharing interviews with firefighters and how they adapt. "You are looking at a critical part of your success as a first responder and human being, and it doesn't mean that you will have perfect understanding right away - or ever, but what it means is you will begin to find tools that help you grapple with what you have seen." - Jada Hudson What others are saying "By sharing personal stories of her clients' emotional wellness struggles, Jada Hudson takes away the stigma of talking about things like depression, anxiety, addiction, suicidal ideation," said Dr. Thomas E. Joiner, an academic psychologist, author and professor of psychology, Florida State University. "Firefighter Emotional Wellness: Reconnecting with Yourself and Others is a must-read for every academy recruit, newlywed, leader, retiree, spouse, and individual who wants to become or remain emotionally well." "Jada Hudson's years of critically important work with counseling first responders has come full circle in this book. Her insight, guidance and examination of the issues facing the men and women on the front lines is both remarkable and humbling. This book should be a must read for any first responder or medical professional." - Dr. Robert Langman, Northwestern Medicine, Chicago "I highly recommend this book for first responders, peer support programs, chaplains and clinicians," said Dr. Joel Fay, who teaches intervention, case law, PTSD, Suicide by Cop and Self Care for Sacramento PD CIT. "Jada Hudson brings a considerable wealth of information regarding the mental health and treatment of first responders. She covers a broad range of topics including PTSD, suicide, stress and trauma, resiliency, and treatment. She shares her professional knowledge and writes from her personal experience and the book is richer for it." "Jada Hudson draws upon her personal and professional experience as well as research and theory in writing *Firefighter Emotional Wellness*, a book that is timely and important," says Dr. Stanley McCracken, author, and lecturer (ret.), The University of Chicago. "Just as first responders drill to prepare them for the physical demands of their jobs, reading this book should be

considered a preparation for the emotional demands they will face.”

Biohackers Magazine , First impressions seem to always get the better of us. Quick judgments about others, ourselves, and our communities never seem to cease making their presence known in our minds. Psychologically, these initial assumptions and impressions that our mind receives are tactics our mind uses as a means of survival, sometimes aligning with our intuition to help us determine what or who is going to be helpful or harmful. But we must be careful here. Our mind is equipped to handle countless sensations and thoughts, and due to this, we sometimes get so bogged down by this demanding, busy world that we take the easy way out and make a judgment based solely on superficial knowledge, without any deeper reflection or analysis. The world is fast-paced, and although our mind does well to keep up, it needs to be able to consciously recognize that our health, both individual and as human beings, is dependent on the strive to understand oneself and the other with empathy and compassion. COVID-19 has shed a new spotlight on the increasing mental health crisis that is facing our world, and I believe that one of the main causes is careless thinking that leads to quick assumptions, to save oneself the time of research and contemplation. Don't let others think for you. Yes, respect those with the authority to offer professional opinions, but don't be a follower, be a student and learn from every experience. When your health seems to suffer, don't assume the worst. When someone comes at you the wrong way, don't write them off as a heartless soul. When you have a tough interaction with someone representing another community, don't assume that everyone else is like that. Instead, look for the best in yourself, others, and the community. There is the power behind the phrase “Love thy neighbor”. When we treat every person that we come across as our neighbor, we break down the prideful barriers that ABOUT DALLAS MCCLAIN Born in the USA, Dallas is a passionate reader of theological and personal development books. I think too often we, as biohackers focus more on the physical side of things, which is, of course, important but does not truly define what it means to be human. The human person is a compositum of both mind and body. Spiritual and Corporeal substance. When biohacking ourselves, let's remember to start with the intention of acting out of love for thyself, of thy neighbor, and of thy community. There will always be disagreements between people, but when we see the other person as our neighbor, as another one of us, so to speak, we offer respect and extinguish any hatred and sinful intentions from the relationship, thus creating a peaceful, happier, and more vibrant environment to foster a healthy mind that's prepared for whatever the onerous world throws at it.

The Influential Mind Tali Sharot, 2017-09-19 A cutting-edge, research-based inquiry into how we influence those around us and how understanding the brain can help us change minds for the better. In *The Influential Mind*, neuroscientist Tali Sharot takes us on a thrilling exploration of the nature of influence. We all have a duty to affect others—from the classroom to the boardroom to social media. But how skilled are we at this role, and can we become better? It turns out that many of our instincts—from relying on facts and figures to shape opinions, to insisting others are wrong or attempting to exert control—are ineffective, because they are incompatible with how people's minds operate. Sharot shows us how to avoid these pitfalls, and how an attempt to change beliefs and actions is successful when it is well-matched with the core elements that govern the human brain. Sharot reveals the critical role of emotion in influence, the weakness of data and the power of curiosity. Relying on the latest research in neuroscience, behavioral economics and psychology, the book provides fascinating insight into the complex power of influence, good and bad. Praise for *The Influential Mind* Winner of the 2018 British Psychological Society Book Award Selected as a Best Book of 2017 by Forbes, The Times (UK), The Huffington Post, Bloomberg, Greater Good Magazine, Inc., Stanford Business School, and more Sharot . . . covers the topic more fully and more authoritatively in a book whose title gives appropriately equal billing to thought, behavior and neurons. . . . Her book is a witty survey of techniques to influence and guide human behavior. — The New York Times Book Review This timely, intriguing book explains why it's so difficult to shift the attitudes and actions of others—and what we can do about it. —Adam Grant, New York Times–bestselling author of *Originals* and *Give and Take*

The Bulletproof Diet Dave Asprey, 2014-12-02 In his midtwenties, Dave Asprey was a successful Silicon Valley multimillionaire. He also weighed 300 pounds, despite the fact that he was doing what doctors recommended: eating 1,800 calories a day and working out 90 minutes a day, six times a week. When his excess fat started causing brain fog and food cravings sapped his energy and willpower, Asprey turned to the same hacking techniques that made his fortune to hack his own biology, investing more than \$300,000 and 15 years to uncover what was hindering his energy, performance, appearance, and happiness. From private brain EEG facilities to remote monasteries in Tibet, through radioactive brain scans, blood chemistry work, nervous system testing, and more, he explored traditional and alternative technologies to reach his physical and mental prime. The result? *The Bulletproof Diet*, an anti-inflammatory program for hunger-free, rapid weight loss and peak performance. *The Bulletproof Diet* will challenge--and change--the way you think about weight loss and wellness. You will skip breakfast, stop counting calories, eat high levels of healthy saturated fat, work out and sleep less, and add smart supplements. In doing so, you'll gain energy, build lean muscle, and watch the pounds melt off. By ditching traditional diet thinking, Asprey went from being overweight and sick in his twenties to maintaining a 100-pound weight loss,

increasing his IQ, and feeling better than ever in his forties. The Bulletproof Diet is your blueprint to a better life.

Smarter Not Harder Dave Asprey, 2023-02-28 World-renowned biohacker and bestselling author Dave Asprey reveals how to maximize your well-being with the minimum effort, by taking control of your body's operating system. If you want to lose weight, boost your energy, or sharpen your mind, there are shelves of books offering myriad styles of advice. If you want to build up your strength and cardio fitness, there are plenty of gyms and trainers ready to offer you their guidance. What all of these resources have in common is they offer you a bad deal: a lot of effort for a little payoff. Dave Asprey has found a better way. In *Smarter Not Harder*, the proven master of biohacking exposes the surprising secrets of your body's operating system, or its "MeatOS." That system is naturally designed to be lazy, which is why sweaty exercise routines and rigid diets produce such limited effects. Dave shows us how to hack the MeatOS and make it do what we want it to do, turning it from obstacle into ally. The key to achieving optimum wellness, he reveals, isn't about doing more, it's about doing less—exercising and eating smarter, not harder, and making the body's built-in laziness work for you. *Smarter Not Harder* is not a diet nor a fitness plan. It is a system of targeted biohacks aimed at upgrading your metabolic, neurological, and epigenetic systems. Packed with practical, accessible information on better eating; smart workouts that give you more strength and energy in less time; and strategic therapies to reduce stress and boost resilience—*Smarter Not Harder* will show you how to achieve lasting health in less time.
