Neoclassical Music in America R. James Tobin, 2014-07-02 From the 1920s to the 1950s, neoclassicism was one of the dominant movements in American music. Today this music is largely in eclipse, mostly absent in performance and even from accounts of music history, in spite of—and initially because of—its adherence to an expanded tonality. No previous book has focused on the nature and scope of this musical tradition. *Neoclassical Music in America: Voices of Clarity and Restraint* makes clear what neoclassicism was, how it emerged in America, and what happened to it. Music reviewer and scholar, R. James Tobin argues that efforts to define musical neoclassicism as a style largely fail because of the stylistic diversity of the music that fall within its scope. However, neoclassicists as different from one another as the influential Igor Stravinsky and Paul Hindemith did have a classical aesthetic in common, the basic characteristics of which extend to other neoclassicists. This study focuses, in particular, on a group of interrelated neoclassical American composers who came to full maturity in the 1940s. These included Harvard professor Walter Piston, who had studied in France in the 1920s; Harold Shapero, the most traditional of the group; Irving Fine and Arthur Berger, his colleagues at Brandeis; Lukas Foss, later an experimentalist composer whose origins lay in neoclassicism of the 1940s; Alexei Haieff, and Ingolf Dahl, both close associates of Stravinsky; and others. Tobin surveys the careers of these figures, drawing especially on early reviews of performances before offering his own critical assessment of individual works. Adventurous collectors of recordings, performing musicians, concert and broadcasting programmers, as well as music and cultural historians and those interested in musical aesthetics, will find much of interest here. Dates of composition, approximate duration of individual works, and discographies add to the work's reference value.

The Music of Stravinsky Pieter C. van den Toorn, 2023-05-12 The most celebrated of Western composers in the twentieth century, Igor Stravinsky may have been the greatest as well. Stretching across forty or so years, the essays in this volume address the dynamics of Igor Stravinsky's music from a variety of analytical, critical, and aesthetic angles. Underscored are the features of melody, harmony, rhythm, and form that would remain consistently a part of Stravinsky's oeuvre regardless of the changes in orientation from the Russian period to the neoclassical and the early serial. The Rite of Spring (1913), Les Noces (1917-23), the Symphony of Psalms (1930), and the Symphony in Three Movements (1945) are discussed in detail, as are many of the circumstances attending their conception. Other concerns include the composer's formalist aesthetics and the strict performing style he pursued as an interpreter and conductor of his music.

Gerardo Diego's Creation Myth of Music Judith Stallings-Ward, 2020-01-29 Since its publication nearly eight decades ago, the consensus among scholars about *Fábula de Equis y Zeda*, by the Spanish poet Gerardo Diego (1896-1987) remains unchanged: *Fábula* is an enigmatic avant-garde curiosity. It seems to rob the reader of the reason necessary to interpret it, even as it lures him or her ineluctably to the task; nevertheless, the present study makes the case that this work is, in fact, not inaccessible, and that what the anhelante arquitecto, intended with his masterpiece was a creation myth that explains the evolution of music in his day. This monograph unlocks the fullness of the poem's meaning sourced in music's mythical consciousness and expressed in a poetic idiom that replicates aesthetic concepts and cubist strategies of form embraced by the neoclassical composers Bartok, Falla, Ravel, and Stravinsky.

Music--patterns and Style Richard DeLone,1971 In the traditional musical curriculum there has been a separation between courses in music theory and music literature and history. In this book, the materials, structure, and literature of music are dealt with in tandem, rather than as discrete subjects. The text is designed to provide the basis for a year's program which will give the student a grasp of basic musical materials and formal structures, and of some of their manifestations in music literature in various periods of history. Although most emphasis is placed on materials, particularly as a point of departure, the importance of establishing connections between musical materials and the structural and other aspects of music literature of different stylistic periods is paramount throughout the book.
