The Important Books Joseph Stanton,2005-08-18 The Important Books takes a look at some of the most significant and talked about authors, illustrators, and titles in the genre, including Maurice Sendak, Margaret Wise Brown, William Joyce, and Chris Van Allsburg. While focusing on those books that are distinguished by some degree of originality in both word and image, the author points out that the importance of picture books is not primarily pedagogical--they are not intended to serve as dumbed down versions of young adult or adult novels--and the audience for these great books is not solely children. Because the children's picture book is designed to provide the context for an intimate transaction involving the imaginations of both parent and child, there is a social value to the form that lends a special poignancy to the pleasure it provides.

Chris Van Allsburg Jill C. Wheeler,2005-01-01 Traces the childhood, education, and career of children's literature author and illustrator Chris Van Allsburg.

**Becoming Bilingual Readers** Bobbie Kabuto,2021-11-29 Building on Bobbie Kabuto's groundbreaking 2010 book *Becoming Biliterate*, this book explores how identity impacts the development of bilingual readers and how reading practices are mediated by family and community contexts. Highlighting bilingual readers from Spanish, Greek, Japanese, and English language backgrounds, Kabuto offers an in-depth, interdisciplinary analysis of these readers' behaviors and identities through the original approach of Biographic Biliteracy Profiles. The Profiles serve as a culturally relevant assessment tool for developing meaningful narratives and can reveal how bilingual readers make sense of texts in the context of their home and school environments. An ideal approach for unpacking the complexity of bilingual reading behaviors and how they change across time, the Profiles allow readers to explore what a bilingual reader's identity means to becoming biliterate; the roles of

code-switching and translanguaging; the influences of readers' families and communities; and how they all interact and shape readers' identities, behaviors, and meaning-making. Offering practical applications on observing and documenting bilingual readers, this book is an invaluable resource for scholars and students in courses on bilingualism, L2/ESL reading, and multilingualism.

Literacy for the 21st Century Gail Tompkins,Rod Campbell,David Green,Carol Smith,2014-08-01 Literacy for the 21st Century, 2e, gives students the strategies and ability to teach literacy effectively in Australian classrooms. Linking the theory and research to classroom practice, and with a greater emphasis on the use of digital literacies, students will gain a practical understanding of teaching reading and writing.

Cultivating a Child's Imagination Through Gardening Rosanne Blass,Nancy A. Jurenka,1996-11-15 Lead children to literacy and learning along the garden path with books and activities designed to spark interest and imagination. Each of these 45 lessons focuses on a specific book about gardening and offers related activities-such as reading, writing, poetry, word play, music, dancing, and dramatics-to enhance creativity and build literacy skills. In addition, this resource lists more books to read with each lesson and concludes with an annotated bibliography of focus books. A great companion to Beyond the Bean Seed. Grades K-6.

*Once Upon a Crime* Wanda Cassidy,Ruth Yates,2005-01-01 Did Goldilocks wilfully trespass and destroy the property of the three bears? What crime did the wolf commit against the three little pigs, and is the wolf obligated to repair the pigs' homes? Was Peter Pan guilty of kidnapping? In *Once Upon a Crime*, students use familiar stories to experience what it is like to investigate a crime scene, uncover important facts, weave together an argument supported with evidence and witnesses, and present their findings in a trial that simulates a court hearing. They also learn about other ways of resolving conflict, such as mediation, negotiation, and restorative justice processes. Through these activities, children engage in critical thinking, hone their literacy skills, and learn about the role law plays in their lives and their rights and responsibilities as citizens. This book offers step-by-step instructions for conducting mock trials based on fairy tales and other multicultural stories. Five complete trial scripts are included for classroom use. Also included are ideas for adapting contemporary stories into civil and criminal trials, and mediation and negotiation activities. *Once Upon a Crime* complements the authors' previous book, *Let's Talk About Law in Elementary School*, which helps teachers integrate law-related ideas and pedagogical approaches into social studies, language arts, and science.

*Theme Play* Gary Zingher,2006-06-30 Out of his years of experience in working with children, Zingher identifies some of the powerful and evocative themes of childhood, and explores why these touch children so deeply. He encourages professionals who work with children in school, camp, club and library settings to consider using these themes to develop thoughtful and creative programs and units of study. Included are recommended books and videos that illustrate each theme,

questions for discussion, possible starting points (readalouds, stories to be told, sensory experiences, interesting objects etc), follow-up activities, and examples of fully described and developed thematic journeys. In this time of standards and accountability, this book reminds us of the joy of teaching and learning, and the power of the imagination.

Early Literacy Instruction John A. Smith,Sylvia Read,2005 This introductory K-3 literacy instruction text details authentic classroom practice by authors who have recently taught in primary and elementary classrooms. Organized around a comprehensive reading and writing instructional framework, the text balances the authors' rich classroom experiences with a theoretical perspective. The authors also share a wealth of practical teaching strategies, authentic student artifacts, and real teaching examples.
