Manual de antropología filosófica Jacinto Choza, 1988 Este libro ha generado una pequeña historia que le pertenece. En la década de los 80 habían hecho su aparición los grandes descubrimientos científicos y habían tenido lugar los grandes acontecimientos socioculturales que había que tener en cuenta para formular una concepción del hombre a la altura de su tiempo adecuada al siglo XXI. Desde hace algunos años, la web de Academia.edu me informa cada semana de que de los

trabajos que figuran en mi página el más consultado y descargado ha sido el Manual de antropología filosófica, con más de 8.000 visitas. El Manual constituye una síntesis que mantiene amplia vigencia porque permite ubicar en un intento general de orientación los fenómenos que pueden percibirse en la segunda década del siglo XXI. Por eso no ha dejado de utilizarse, de citarse y de prestar un servicio de orientación general.
