**ISLAM: THE GREAT EXPOSÉ** Mkoma Yi,1900 Muslims boast to all and sundry that they are the followers of the true religion of Abraham, but beneath the lofty claim are Muslim scholars, leaders and apologists' presumptuous efforts to conceal the religion's thriving pagan bedrock. In an attempt to bridge over the vast chasm between paganism and monotheism, Islam, through unsubstantiated links to Ishmael, audaciously placed Abraham, Hagar and Ishmael in Mecca and then attributed Abrahamic legends to pagan beliefs, practices and rituals. Moreover, Mohammed, the prophet of Islam, was unashamedly presented as a monotheist in the midst of pagan Mecca, despite irrefutable evidence that proves he was habitual pagan. Similarly, brazen attempts to morph the pagan god, Allah, into the God of the Bible were made but, to all intents and purposes, in vain. This book delves into the lofty claims of Islam and dispels common misconceptions about the religion. Through meticulous analysis of Islamic scriptures, the book presents evidence to support its assertions. It also examines the uncensored history of the religion to expose its obscure beginnings, shortcomings, subsequent cover-ups, and outright deceptions. Additionally, Islamic scriptures have been successfully linked to the contemporary issues of the religion's violent coercion, jihadism, terrorism, intolerance, misogyny, antisemitism and supremacism. Intended for truth-seekers, this book is the ultimate handbook for anyone in pursuit of knowledge and truths. It stands as the first of its kind, providing a nuanced analysis of the unsanitized scriptures of Islam, ultimately revealing that it is far from what it claims to be. By following the evidence of Islam's rise, readers will undoubtedly uncover the thriving Arab pagan foundation upon which the religion was built.

**Imams and Emirs** Fuad Ishaq Khuri, 2014-07-01 In this classic, comprehensive study of Islamic sects in the contemporary Arab world, Khuri focuses on the Sunni, Shi'a, Alawis, Druze, Ibadis, Zaidis, Yazidis and the Maronites (who, although Christian, are included because they share certain distinguishing features). His placements of these groups on a single comparative scale was unprecedented. Khuri argues that conflicts among Muslims arise from the struggle between two opposing forces: religious, doctrinaire authorities (imams) and leaders who derive their authority from power and coercion (emirs). He discusses the role of dogma but also, uniquely, the critical factors that differentiate sects from religious communities and religions from sects. Following a thorough review of the structural characteristics of individual sects, Khuri addresses issues of religious change, dealing with the interplay between religions, states and nationalism. Here he explores the contradictions between modern state structures and the Islamic umma, showing how some religious concepts had begun to take on nationalistic meanings.

**The Interpretation of The Meaning of The Holy Quran Volume 16 - Surah Al-An'am verse 91 to 165** Nasoha Bin Saabin, I have written many books and articles on various topics but since 2013, I have devoted myself fully in writing the interpretation of the Holy Quran in English and with the grace of Allah, I have completed the whole Quran on 29th October 2020 with 84 books. I believe there is a great need in the whole world for the correct interpretation of the Holy Quran to be written in English. Currently, there is a great misunderstanding about Islam among Muslims and non-Muslims globally. The misunderstanding of the meaning of the Holy Quran among Muslims will lead to the wrong practice of Islam which leads to the wrong actions of Muslims. The wrong actions of Muslims will lead to misunderstandings about Islam among Muslims and non-Muslims. The wrong actions of the Muslims have led to many miseries and wars among Muslims. The wrong actions of Muslims have also led to many wars and clashes between Muslims and non-Muslims. In order to avoid miseries, wars and clashes from taking place between the whole mankind in the whole world, the whole mankind in the whole world need to

understand the true teaching of Islam. There is no other way for the whole mankind to understand the true teaching of Islam unless the whole mankind is able to read and understand the correct interpretation of the Holy Quran. The whole mankind is only able to read and understand the correct interpretation of the Holy Quran when it is written in the universal language of the world (English). For this very reason I have written the interpretation of the Holy Quran in English. Prof. Nasoha Bin Saabin

*Islam in Post-communist Eastern Europe* Egdūnas Račius,2020-05-18 In *Islam in Post-communist Eastern Europe: Between Churchification and Securitization* Egdūnas Račius reveals how not only the governance of religions but also practical politics in post-communist Eastern Europe are permeated by the strategies of churchification and securitization of Islam. Though most Muslims and the majority of researchers of Islam hold to the view that there may not be church in Islam, material evidence suggests that the representative Muslim religious organizations in many Eastern European countries have been effectively turned into ecclesiastical-bureaucratic institutions akin to nothing less than 'national Muslim Churches'. As such, these 'national Muslim Churches' themselves take an active part in securitization, advanced by both non-Muslim political and social actors, of certain forms of Islamic religiosity.
