

# Le Lingue E Il Linguaggio Pdf

**Barbara Schlücker**

**The Linguistic Typology of Templates** Jeff Good, 2016-03-11 This book represents the first comprehensive examination of templatic constructions - namely, linguistic structures involving unexpected linear stipulation - in both morphology and syntax from a typological perspective. It provides a state-of-the-art overview of the previous literature, develops a new typology for categorizing templatic constructions across grammatical domains, and examines their cross-linguistic variation by employing cutting-edge computational methods. It will be of interest to descriptive linguists seeking to gain a better sense of the diversity of the world's templatic constructions, theoretical linguists developing restrictive models of possible templates, and typologists interested in the attested range of patterns of linear stipulation and the application of new kinds of multivariate methods to cross-linguistic data. The new typological framework is illustrated in detail via a number of case studies involving languages of Africa, Europe, Asia, and the Americas, and numerous other templatic constructions are also considered over the course of the book.

*From Sounds to Structures* Roberto Petrosino, Pietro Cerrone, Harry van der Hulst, 2018-09-10 The term 'Maya', in Indian traditions, refers to our sensory perception of the world and, as such, to a superficial reality (or 'un-reality') that we must look beyond to find the inner reality of things. Applied to the study of language, we perceive sounds, a superficial reality, and then we seek structures, the underlying reality in what we call phonology, morphology, and syntax. This volume starts with an introduction by the editors, which shows how the various papers contained in the volume reflect the spectrum of research interests of Andrea Calabrese, as well as his influence on the work of colleagues and his students. Contributors, united in their search for the abstract structures that underlie the appearances of languages include linguists such as Adriana Belletti, Paola Benincà, Jonathan Bobaljik, Guglielmo Cinque, David Embick, Mirko Grimaldi, Harry van der Hulst, Michael Kenstowicz, Maria Rita Manzini, Andrew Nevins, Elizabeth Pyatt, Luigi Rizzi, Leonardo Savoia, Laura Vanelli, Bert Vaux, Susi Wurmbrand, as well as a few junior researchers including Mariachiara Berizzi, Giuliano Bocci, Stefano Canalis, Silvio Cruschina, Irina Monich, Beata Moskal, Diego Pescarini, Joseph Perry, Roberto Petrosino, and Kobey Schwayder.

*Edinburgh Handbook of Evaluative Morphology* Nicola Grandi, 2015-06-03 With examples drawn from over 200 world languages, this ground-breaking volume presents a state-of-the-art overview of evaluative morphology.

**Complex Lexical Units** Barbara Schlücker, 2019-01-14 Die neue Reihe des Instituts für Deutsche Sprache bietet eine

Plattform für Forschungen, in denen Aspekte des Deutschen sprachvergleichend untersucht und mit Blick auf ihre sprachtypologische Relevanz interpretiert werden. Veröffentlicht werden Monographien und Sammelbände aus den Bereichen Grammatik (Phonologie, Graphematik, Morphologie, Syntax, Semantik), Lexik, Pragmatik, Zweitspracherwerb, Mehrsprachigkeit und Sprachkontakt. Die Arbeiten sind gleichzeitig innovative Beiträge zur Beschreibung der einschlägigen Phänomene und zur Theoriebildung in den genannten Bereichen. Die Publikationssprachen sind Deutsch und Englisch. Die Manuskripte unterliegen einem Begutachtungsverfahren (peer review). Die Reihe wird im Auftrag des Instituts für Deutsche Sprache herausgegeben von • Prof. Dr. Eva Breindl (Professorin für Germanistische Linguistik mit Schwerpunkt Deutsch als Fremdsprache an der Universität Erlangen-Nürnberg) • Dr. Lutz Gunkel (Wissenschaftlicher Angestellter in der Abteilung Grammatik des IDS Mannheim)

The Pragmatics of Political Discourse Anita Fetzer, 2013-01-29 The volume promotes a pragmatic perspective to the analysis of political discourse as multilayered mediated discourse. The chapters cross the disciplinary and methodological boundaries of speech act theory, social positioning theory, and argumentation theory and rhetorics. They address the strategic use of address terms and irony, the form and function of questions, and the expression of certainty in the contexts of parliamentary discourse, interview, talkshow, phone-in programme and motion of support across different discourse domains. Different cultural contexts are represented, including Africa, the Middle East, different parts of Europe and the United States.

*Certainty-uncertainty - and the Attitudinal Space in Between* Sibilla Cantarini, Werner Abraham, Elisabeth Leiss, 2014-11-15 The selected papers of this volume cover five main topics, namely 'Certainty: The conceptual differential'; '(Un)Certainty as attitudinality'; 'Dialogical exchange and speech acts'; 'Onomasiology'; and 'Applications in exegesis and religious discourse'. By examining the general theme of the communication of certainty and uncertainty from different scientific fields, theoretical approaches and perspectives, this compendium of state-of-the-art research papers provides both an interdisciplinary comparison of the latest investigations, methods and findings, and new advances and theoretical insights with a common focus on human communication.

**Cross-disciplinary Issues in Compounding** Sergio Scalise, Irene Vogel, 2010 The study of compounds is currently at the center of attention in many areas of both theoretical and applied linguistics. This volume brings together contributions by experts involved in a wide range of such areas, based on a large number of diverse languages spoken and signed. The fact that compound constructions are at the interface of the various components of language – morphology, syntax, phonology, and semantics – makes them ideal testing grounds for models of grammatical architecture, as seen in a number of these chapters. The breadth and depth of the coverage of topics, as well as the unified bibliography, make this volume a basic reference source for those interested in current theoretical as well as experimental approaches to compounding, and thus to

theoretical linguists as well as psycholinguists and researchers in related fields of cognitive science.

**L'italiano sul palcoscenico** Nicola De Blasi, Pietro Trifone, 2019

L'italiano nella società della comunicazione Giuseppe Antonelli, 2007 Nell'odierno villaggio globale, fatto di parola, immagine, suono, evoluzione tecnologica, che ne è dell'italiano? Quali sono le strategie linguistiche che la comunicazione multimediale adotta nel parlato e nello scritto? Il volume si sofferma sugli usi dell'italiano che nel periodo recente hanno conosciuto la loro prima diffusione (attraverso Internet e la telefonia cellulare) o un significativo rinnovamento (come la lingua dei politici nella cosiddetta seconda Repubblica). Ma gli spunti sono molteplici: dal cybertesto dei videogiochi alla lingua ipermedia della nuova narrativa, dal gergo giovanile a quello aziendale, dalla lingua della pubblicità a quella dei fumetti e della fiction televisiva. Un frastagliato panorama dell'italiano contemporaneo, che l'autore delinea senza trascurare il confronto tra i fenomeni attuali e la storia (anche remota) della nostra lingua.
