The Gospel according to John John Peter Lange,2007-05-01 Presented here, in paperback for the first time, is John Peter Lange's Theologischhomiletisches Bibelwerk. Intended to help preachers prepare sermons the commentary series is essentially biblical and evangelical catholic. This 19th century commentary has served as a standard reference for more than a century. Many early reviewers regarded Schaff's edition with his additional material as superior to the original. It has proven to be a complete and useful Commentary and continues to prove especially valuable to ministers. It contains critical annotations of the text and its translation, and a threefold commentary, exegetical, doctrinal, and homiletical. Under these three heads the text is viewed from every aspect.

Troubled Minds Arne S. Steinforth,2009 Every society has its own definition of a normal and an abnormal human condition. For persons living with mental disorders, these concepts have a tremendous impact. This study investigates how the abnormal mind is culturally defined in Malaŵi, South-Eastern Africa. Based on anthropological techniques such as interviews, participant observation, and archive research, it explores the different social dimensions of mental disorder - e.g. its reflection in traditional dance rituals, in behavioural rules during pregnancy, or in the healing ministry of independent churches. It demonstrates how local explanations of mental disorder - be it witchcraft, an angry ancestor, or the will of God - determine the social acceptance of an affected person's condition. Recent processes of cultural change, however, strengthen the pluralism of Malaŵian religious landscape, opening the local debate to an ever wider range of interpretations.

Benjamin Franklin, Genius of Kites, Flights and Voting Rights Seymour Stanton Block,2015-01-27 This unconventional biography of Benjamin Franklin, the great American Renaissance man, explores examples of Franklin's diverse genius and accomplishments in different fields. Among the topics explored are Franklin's views on women's issues, such as disapproving of impractical hoopskirts, supporting their education, and suggesting insurance for widows and spinsters. It describes his love of a good hoax, contributions to ballooning while an ambassador in France, experiments with the famous kite, and advances in heating houses. His work with money is also covered, including methods of printing money to confuse counterfeiters, a revolutionary way of making a print of a real leaf, and his updated portrait on the present \$100 bill. Franklin's role as head of a commission to examine (and debunk) mesmerism is addressed. No stranger to controversy, Franklin headed the first successful attempt to unify the colonies to create a country. This work shows that Franklin is more responsible than any other for the founding of the United States--and also that he was a leading cause of the French Revolution, providing the French with an example of a successful rebellion, lessons on how to shift power from the king, and

ideas about erecting a constitutional government (in addition, he weakened the French royal treasury by extracting loans and gifts to support America).
