La Ciencia Política en Colombia, la construcción de una comunidad académica Javier Duque Daza, 2015-01-15 Este libro aborda un escenario como es el presente en el que el pasado juega un papel relevante. También es una evidencia de la consolidación de una disciplina, la Ciencia Política, en Colombia. Siempre se ha dicho, con acierto, que un área del saber alcanza su madurez, o en términos del autor, la institucionalización disciplinar -autonomización y diferenciación-, cuando además tiene capacidad de autorreflexión, de pensarse y evaluarse así misma. Javier Duque lleva a cabo esa laboriosa tarea y plantea un fructífero diálogo entre la disciplina que lentamente va floreciendo en Colombia, al unísono de lo que ocurre en América Latina, con las tradiciones más asentadas de Europa y de Estados Unidos. Su perspectiva ecléctica en la metodología de la historia de la ciencia le lleva a ahondar minuciosamente en los cimientos que con timidez se van asentando a partir de 1968 en la maraña que construye el marxismo y una posición ciertamente reactiva al empirismo y a la cuantificación de lo político.

*International Handbook on Adolescent Health and Development* Andrew L. Cherry, Valentina Baltag, Mary E. Dillon, 2016-11-21 This comprehensive reference uses an ecological perspective to sort out the complex mix of biological, psychological, social, and other factors influencing adolescent health as well as shaping professional responses to the needs of adolescents. Describing critical concerns at the global level and innovative strategies from selected countries, the book urges readers to develop and support practices and policies to enhance optimal youth development. Expert coverage centers on key areas: the global state of adolescent health and development, adolescent health issues and public health answers, making health systems more responsive to youth, and improving school health services. And bedrock themes such as social determinants of health, young people's right to health care, and health and gender disparities are discussed throughout these chapters. Included among the topics: • The epidemiology of adolescent health • Adolescent sexual health and sexuality education • Restorative justice and the mental wellbeing of adolescents • Critical issues in adolescent nutrition: needs and recommendations • Towards an adolescent competent workforce • Pairing children with health services: the changing role of

school health services in the 21st century The International Handbook on Adolescent Health and Development is essential to medical schools, public schools, and college libraries; teaching faculty; graduate and post-graduate students in public health, medicine, social work, other behavioral sciences and health disciplines (e.g., nursing, allied health); as well as practitioners interested in better orienting their services to the health needs of adolescents.

Contreras,Álvaro Bracamonte Sierra,2013-09-10 Un análisis innovador de un tema muy poco estudiado: el desarrollo de la industria aeroespacial mexicana, una industria que, por tratarse de una compleja red de interacciones que reúne diferentes modalidades y acuerdos de colaboración entre actores económicos y gubernamentales, se debe examinar no sólo en su evolución, estructura y organización productivas, sino también en su dinámica de localización de actividades, en su relación con los gobiernos estatal y federal, y en el papel determinante que juega su integración a la economía internacional.
