**The Typical Testimony to the Messiah: Or The Analogy of the Scriptures in Relation to Typical Persons** Micaiah Hill, 1862

*The Palgrave Handbook of Sound Design and Music in Screen Media* Liz Greene, Danijela Kulezic-Wilson, 2016-12-14 This book bridges the existing gap between film sound and film music studies by bringing together scholars from both disciplines who challenge the constraints of their subject areas by thinking about integrated approaches to the soundtrack. As the boundaries between scoring and sound design in contemporary cinema have become increasingly blurred, both film music and film sound studies have responded by expanding their range of topics and the scope of their analysis beyond those traditionally addressed. The running theme of the book is the disintegration of boundaries, which permeates discussions about industry, labour, technology, aesthetics and audiovisual spectatorship. The collaborative nature of screen media is addressed not only in scholarly chapters but also through interviews with key practitioners that include sound recordists, sound designers, composers, orchestrators and music supervisors who honed their skills on films, TV programmes, video games, commercials and music videos.

*Hearing Eyes, Seeing Ears* K.J. Donnelly, 2025-01-22 This book approaches music in audiovisual culture as a complex merged signal rather than as a simple 'addition' to the images of film. The audiovisual is central to modern culture, with screens and speakers (including headphones) dominating communication, leisure and drama. While this book mostly addresses film, it also deals with sister media such as television and video games, registering that there is a 'common core' of synchronized image and sound at the heart of these different but related media. The traditions of sound and what Michel Chion calls 'audiovision' (1994), including principles of accompaniment and industrial processes from film, have been retained and developed in other media. This book engages with the rich history, and varied genres, different traditions and variant strategies of audiovisual culture. However, it also points to and emphasizes the 'common core' of flat moving images and synchronized sound and music which marks a dominant in electronic media culture (what might be called 'screen and speaker/diaphragm culture'). Addressing music as both diegetic and non-diegetic, as both songs and score, the analyses presented in this book aim to attend the precise interaction between music and other elements of audiovisual culture as

defining overall configurations. While many writings about music in audiovisual culture focus on 'what it communicates', its processes are more complicated and can form a crucial semi-conscious (or perhaps unconscious) background. While music's effect might be far from simple and unified, part of screen music's startling effect comes from its unity with the image. Cross-modal 'crosstalk' between sound and image forms a whole new signal of its own. Each chapter marks a case study making for a varied collection that embraces rich history and different traditions, as well as the distinct aesthetic boldness of different genres and formats.

*Biblical Reception*, 5 J. Cheryl Exum, David J. A. Clines, Diane Apostolos-Cappadona, 2018-06-28 In this guest-edited issue of *Biblical Reception*, edited by Diane Apostolos-Cappadona, contributors examine the reception of the bible in art. Most of the contributions focus on biblical women, or on encounters with women in the bible. The volume is roughly chronological in structure, beginning with two pieces on Eve, one of which compares representations of Eve with those of the Virgin Mary, the other which considers how Eve is presented in Islamic texts and images. Following a contribution on Esther and Sarah the volume moves on to consider New Testament texts, with notable focus on women at the peripheries of society (the woman with the hemorrhage in Mark's gospel and the woman of Samaria). Attention is also paid to representations of Mary Magdalene and of Judith and Salome. The volume concludes with a piece on apocalyptic imagery and the woman clothed with the sun of Revelation 12. Featuring over 50 high quality color images, this volume provides scholarship of the highest level on biblical art.

Rethinking Occupied Ireland Jessica Scarlata, 2014-02-11 Imprisonment is a central trope of Irish nationalism, often deployed to portray the injustice of an Ireland occupied by foreign rule. Irish nationalism celebrates people jailed for resistance to British forces. While such a celebratory history resists colonialist images of Irish brutality, it also generates nationalist amnesia and nostalgia. *Rethinking Occupied Ireland* takes this history as its point of departure, arguing that the potent visual language generated to represent national heroes facilitates a narrow conceptualization of "occupation" and "resistance." Irish cinema has long offered a double critique—against both colonialist and nationalist historiography. Through a study of incarceration in film, Scarlata critiques state-of-emergency discourses and reveals the global relevance of Irish history to questions of terrorism, security, and sexual and gender transgression in an ever-lengthening list of crimes against the nation. The films included in this book, ranging from 1980 to 2010, explore Irish history from the perspective of those marginalized within or ejected from Irish and British national narratives, providing an ideal occasion to interrogate the

legacy of colonialism and post/anticolonial nationalism. Examining Ireland's past in relation to its present, these films become a mode of postcolonial historiography, and, Scarlata argues, they are an important component in the reevaluation of what constitutes political cinema and political resistance.
