Sisters of the Yam bell hooks, 2014-10-03 In *Sisters of the Yam*, bell hooks reflects on the ways in which the emotional health of black women has been and continues to be impacted by sexism and racism. Desiring to create a context where black females could both work on their individual efforts for self-actualization while remaining connected to a larger world of collective struggle, hooks articulates the link between self-recovery and political resistance. Both an expression of the joy of self-healing and the need to be ever vigilant in the struggle for equality, *Sisters of the Yam* continues to speak to the experience of black womanhood.

Redefining the Political Alex J. The Grammar of Causation and Interpersonal Manipulation Masayoshi Shibatani, 2002-05-31 This volume presents fifteen original papers dealing with various aspects of causative constructions ranging from morphology to semantics with emphasis on language data from Central and South America. Informed by a better understanding of how different constructions are

positioned both synchronically (e.g., on a semantic map) and diachronically (e.g., through grammaticalization processes), the volume affords a comprehensive up-to-date perspective on the perennial issues in the grammar of causation such as the distribution of competing causative morphemes, the meaning distinctions among them, and the overall form-meaning correlation. Morphosyntactic interactions of causatives with other phenomena such as incorporation and applicativization receive focused attention as such basic issues as the semantic distinction between direct and indirect causation and the typology of causative constructions.

Understanding Rituals Daniel de Coppet,2002-11-01 Understanding Rituals explores how ritual can be understood within the framework of contemporary social anthropology, and shows that ritual is now one of the most fertile fields of anthropological research. The contributors demonstrate how rituals create and maintain - or transform - a society's cultural identity and social relations. By examining specific rituals from various theoretical viewpoints, they reveal the ultimate and contradictory values to which each society as a whole is attached.

Contemporary Perspectives on Rhetoric Sonja K. Foss,Karen A. Foss,Robert Trapp,2002 Thorough in scope and highly accessible, this volume introduces the reader to the thinkers who have exerted a profound influence on contemporary rhetorical theory. The brief biographical sketches locate the theorists in time and place, showing how life experiences influenced perspectives on rhetorical thought. The concise explanations of complex concepts are clear and provide readers with a solid foundation for reading the major works of these scholars. The critical commentary is carefully chosen to place the theories within a broader rhetorical context. Each chapter ends with a complete bibliography of works by the theorists. Previous editions have been praised as indispensable; the Third Edition is equally essential.

The Heart of the Pearl Shell James F. Weiner,2022-08-19 For the Foi people who live on the edge of the central highlands of Papua New Guinea, the flow of pearl shells is the heart of their social life. The pearl shell is the exchange item that mediates the creation of their most important sexual and social roles. *The Heart of the Pearl Shell* analyzes a number of myths of the Foi people, elegantly bringing together significant ethnographic materials in a way that has important implications for the development of social theory in anthropology and in Melanesian studies. Scholars of semiotic-symbolic anthropology and of comparative religion will also share the author's interest in the meaning and role of mythology in Foi culture. Instead of relying on orthodox methods of Freudian or structuralist interpretation, James Weiner assumes there is a dialectical relationship between the images of Foi myth and the images of the Foi's social world. He demonstrates how each set of these images is dependent upon the other for its creation. This innovative study locates Foi social meaning in the re-creation and attempted solution of the moral dilemmas that are crystallized in mythology and other poetic usages. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1988.

Women of Value, Men of Renown Annette B. Weiner,1976 This study of women, men, and exchanges of wealth in the Trobriand Islands, Papua New Guinea, makes an interesting comparison with the work of pioneer ethnographer Bronislaw Malinowski, who conducted his seminal research there between 1915 and 1918. While Malinowski and others have focused on men, dismissing women's work as unimportant, Weiner shows that women play a vital role in Trobriand society.
