Systemic Dramaturgy Michael Mark Chemers, Mike Sell, 2022-11-17 In this handbook for working theatrically with technology, authors Michael Mark Chemers and Mike Sell discuss in depth the application of the critical skills cultivated by dramaturgs to extra-theatrical endeavors, including games, multi-platform performance, and installations--

*The Cultural Leadership Handbook* Robert Hewison, John Holden, 2016-03-16 Leadership has never been more important to the cultural industries. The arts, together with museums and heritage sites, play a vital part in keeping economies going, and, more importantly, in making life worth living. People in the sector face a constant challenge to find support for their organizations and to promote the value of culture. Leadership and management skills are needed to meet the mission of creative arts and cultural organizations, and to generate the income that underpins success. The problem is, where can you learn these essential skills? The Cultural Leadership Handbook written by Robert Hewison and John Holden, both prime movers in pioneering cultural leadership programmes, defines the specific challenges in the cultural sector and enables arts leaders to move from 'just' administration to becoming cultural entrepreneurs, turning good ideas into good business. This book is intended for anyone with a professional or academic interest anywhere in the cultural sector, anywhere in the world. It will give you the edge, enabling you to show creative leadership at any level in a cultural organization, regardless of whether your particular interest is the performing arts, museums and art galleries, heritage, publishing, films, broadcasting or new media.

**Setting Up Community Health and Development Programmes in Low and Middle Income Settings** Ted Lankester, Nathan J. Grills, 2019 Over half the world's rural population, and many in urban slums, have minimal access to health services. This book describes how to set up new, and develop existing, community-based health care for, by and with, the community.

*Artistic Citizenship* Mary Schmidt Campbell, Randy Martin, 2006-06-21 This volume identifies the question of artistic citizenship to explore civic identity. Featuring contributions from experts in the field, this book is indispensable to anyone involved in arts education or the creation of public policy for the arts.

**Tracing Invisible Lines** David Prescott-Steed, 2019-02-28 TRACING INVISIBLE LINES is a critical autoethnographic text built around Gregory Ulmer's concept of the "Mystory." Dedicated to the enhancement of imagination and innovation in

a digital-media saturated society, Ulmer's Mystory is a creative research method that draws narratives from three domains of discourse (personal, professional, popular). Analysing these domains means generating fresh insight into the deep-seated emblems that drive the creative disposition, or "invariant principle," of the practice-led researcher. Here, the mystoriographical approach has mobilized an exploration of the interrelations between self and society, between memory and imagination, as well as between industry-driven design-arts education and experimental sound-art practice (prioritizing the sonic, the perambulatory, careering). As a result, the Mystory fosters critical awareness of the socio-cultural instruments of creative inspiration and perspiration. Reflexive in intent and experimental in approach, David Prescott-Steed's hybrid writing style moves freely between art historical, biographical and autobiographical, academic and speculative moods. This book's emphasis on an electronic, investigative sound-based practice finds it treading new ground between the sonic arts and the field of electracy; through its addition of sound and music to the genre, this book extends the scope of studies into Ulmer's work beyond English literature and the ocularcentric arts, offering a new handbook for sonic conceptual art practice.
