A New Era of Philanthropy Dimple Abichandani, 2025-04-29 “A must-read for anyone in philanthropy, particularly those who question whether and how philanthropic resources can address the current, complex challenges our world faces.” —Nick Tedesco, president and chief executive officer of the National Center for Family Philanthropy A blueprint for how wealth can be transformed into a more just and sustainable future in times of rapid change and crisis. On the cusp of the greatest wealth transfer in history—with \$84 trillion dollars moving between generations in the next 20 years—this book explores how philanthropy can be transformative, and transformed. Can philanthropy be an anti-racist, feminist, relational, and joyful expression of solidarity? This book argues that it not only can be—for the future we seek, and for philanthropy to achieve its greatest impact, it must be. Nationally recognized philanthropic leader Dimple Abichandani revolutionizes the precepts of modern philanthropy. Offering 10 provocative practice shifts, A New Era of Philanthropy engages readers with fresh answers to the question of how philanthropy can meet this high-stakes moment—from reimagining governance to aligning investments to crisis funding and beyond. Abichandani highlights paradigm shifts that model the way forward, moving beyond critique into real transformation, with relatable stories about funders who are forging a new era of philanthropy. A New Era of Philanthropy picks up where key books like Decolonizing Wealth and Winners Take All leave off, offering a guide for donors, foundations, and non-profit leaders navigating philanthropy in urgent times. Mindfulness and Its Discontents David Forbes, 2019-05-14T00:00:00Z Mindfulness, a way to alleviate suffering by realizing the impermanence of the self and our interdependence with others, has been severed from its Buddhist roots. In the late-stage-capitalist, neoliberal, solipsistic West, it becomes McMindfulness, a practice that instead shores up the privatized

self, and is corporatized and repackaged as a strategy to cope with our stressful society through an emphasis on self-responsibility and self-promotion. Rather than a way to promote human development and social justice, McMindfulness covertly reinforces neoliberalism and capitalism, the very self-promoting systems that worsen our suffering. In *Mindfulness and Its Discontents*, David Forbes provides an integral framework for a critical, social, moral mindfulness that both challenges unmindful practices and ideas and provides a way forward. He analyzes how education curricula across North America employ mindfulness: to help students learn to succeed in a neoliberal society by enhancing the ego through emphasizing individualistic skills and the self-regulation of anger and stress. Forbes argues that mindfulness educators instead should uncover and resist the sources of stress and distress that stem from an inequitable, racist, individualistic, market-based (neoliberal) society and shows how school mindfulness programs can help bring about one that is more transformative, compassionate and just.
