**Disruptive Women of Literature** Eleanore Gardner, 2024-07-08 *Disruptive Women of Literature: Rooting for the Antiheroine* critically examines the representation of the literary antiheroine in contemporary Gothic and crime-thriller novels and traces her emergence from the deviant women of Greek mythology and Shakespeare to the twenty-first century. It explores how the antiheroine shifts dependent on genre, time period, and format, demonstrating that she is capable of both challenging and reaffirming problematic ideologies surrounding women, power, violence, sexuality, and motherhood. Eleanore Gardner argues that the antiheroine is almost always defined by her experience of a patriarchal trauma and must therefore navigate her identity differently and more complexly than her antihero counterpart. The author examines a broad range of texts to understand the antiheroine's fluidity, her liminal and abject existence, and what these suggest about cultural anxieties surrounding transgressive women.

The Fury Alex Michaelides,2024-01-16 **\*\*THE INSTANT NEW YORK TIMES BESTSELLER\*\*** “Alex Michaelides hits the trifecta with his third novel, *The Fury*. The highly original story presents the reader with the king of all unreliable narrators, enough twists and turns to power two novels, and a host of characters that bleed right on the page. ” —David Baldacci A masterfully paced thriller about a reclusive ex-movie star and her famous friends whose spontaneous trip to a private Greek island is upended by a murder — from the #1 New York Times bestselling author of *The Silent Patient* This is a tale of murder. Or maybe that’s not quite true. At its heart, it’s a love story, isn’t it? Lana Farrar is a reclusive ex-movie star and one of the most famous women in the world. Every year, she invites her closest friends to escape the English weather and spend Easter on her idyllic private Greek island. I tell you this because you may think you know this story. You probably read about it at the time — it caused a real stir in the tabloids, if you remember. It had all the necessary ingredients for a press sensation: a celebrity; a private island cut off by the wind...and a murder. We found ourselves trapped there overnight. Our old friendships concealed hatred and a desire for revenge. What followed was a game of cat and mouse — a battle of wits, full of twists and turns, building to an unforgettable climax. The night ended in violence and death, as one of us was found murdered. But who am I? My name is Elliot Chase, and I’m going to tell you a story unlike any you’ve ever heard.

*Oral Rehabilitation for Compromised and Elderly Patients* Alexandre Mersel,2018-11-29 This book is designed to help dentists in general practice to improve the results of prosthetic procedures in medically compromised and elderly patients. In particular, it critically scrutinizes various dogmas that govern practitioners’ approaches yet lack sound scientific support and often have an adverse effect on outcomes. Attention is drawn to straightforward procedures that offer significant clinical benefits and to aspects that are too often neglected, such as the impact of systemic diseases. New light is cast, for example, on the taking of dental impressions, the treatment of malocclusions, the making of jaw relation records, the relationship between denture quality and patient satisfaction, and the use of implant-supported overdentures versus traditional complete prostheses (dentures). As Albert Einstein once said, It is what we think we know that prevents us from learning more.

Readers will find that this book helps them to re-examine taken-for-granted elements of their practice, leading to improved care and patient satisfaction.
