Powers of Attorney in Australia and New Zealand Berna Collier, Shannon Lindsay, 1992 From a review in the Australian Law Journal: This book is a delightful surprise, for within its bare title the authors have covered the law concerning powers of attorney on both sides of the Tasman. The text is written in a clear and lucid fashion. It is well laid out, and provides in convenient form the texts of the relevant legislation applying throughout Australia and in New Zealand. It provides an accurate summary of the law as applying at the end of 1992. The index is unusually comprehensive, and the coverage of this area of law is thoroughly professional. It should prove to be a most useful text for practitioners in areas of company law, probate, and family law who will appreciate the specimen forms and clauses offered. It is so wide in its potential utility that (given its sensible price) it should be on every solicitor's bookshelf.

The Boundaries of Australian Property Law Hossein Esmaeili,Brendan Grigg,2016-09-22 The Boundaries of Australian Property Law offers a unique perspective on real property law in Australia. As the overwhelming majority of land interests in Australia now fall under the Torrens title system, this book's particular focus on the development and operation of the Torrens system in Australia is both timely and welcome. Addressing the prescribed Priestly 11 requirements for a property law subject in Australia, this informative and academically rigorous book includes carefully selected statutory material and case law from all Australian jurisdictions, as well as the United Kingdom. The general law system is also discussed and referred to where necessary, to give context and depth to the analysis of real property law. Written by prominent real property law academics from law schools around Australia, and edited by Hossein Esmaeili and Brendan Grigg, this text is a modern and much-needed addition to real property law literature.

Australian Property Law Michael Nancarrow,Penny Carruthers,Steven White,Christopher Boge,Dominic Cudmore,Astrid Di Carlo,2022-09-30 Australian Property Law: Principles to Practice is an engaging introduction to property law in Australia. Covering substantive law and procedural matters, this textbook presents the law of personal and real property in a contemporary light. Australian Property Law details how property law practice is transformed by technology and provides insights into contemporary challenges and risks. Taking a thematic approach, the text covers possession of goods and land, land tenure, estates and future interests, property registration systems, Indigenous land rights and native title, social housing, Crown land and ethics. Complex concepts are contextualised by linking case law and legislation to practical applications. Each chapter is supported by digital tools including case and legislation boxes with links to the full source online, links to useful online resources, multiple-choice questions, review questions and longer narrative problems. Australian Property Law provides an essential introduction to the principles and practice of property law in an ever-changing technological environment.

Caveats Against Dealings in Australia and New Zealand Shannon Lindsay,1995 This work has been written by a practitioner for the benefit of practitioners.The two introductory chapters deal with broad general principles and conceptual issues such as what is a caveat? and what is a caveatable interest? but the bulk of the book is taken up by an encyclopaedic analysis of all of the reported Australian and New Zealand cases touching upon caveats. Essentially this book is intended to function as a road map for practitioners to the reported cases, guiding them to cases involving similar facts, and breaking the issues up in a way that matches the practical problems with which they must deal.Chapters which follow on from the general

introductory chapters: list all the recognised categories of situations where there is a caveatable interest deal with defects in the drafting of caveats describe the procedures available to a registered proprietor or other interested person for freeing the title from the caveat analyse the criteria for a successful action for compensation for wrongful lodgement of a caveat explain the role of caveats in determining equitable priorities There is also a brief chapter dealing with the assessment of stamp duty on caveats.
