**Correctional Institutions** Robert Melvin Carter, Daniel Glaser, Leslie T. Wilkins, 1977 This second edition of readings on correctional and penal institutions answers admirably the present need of the campus community for a general, all-purpose text, and that of the correctional practitioner and administrator for an up-to-date review of the literature of the field. For the nonprofessional, interested citizen the anthology provides a general portrait of these institutions, seen in both theoretical and practical perspectives...Not only does this edition present an historical review of correctional and penal institutions and examine the current state of achievement, but it serves a particular need in pointing to the requirements of the future...--Foreword.

Corrections in America Harry E. Allen, Clifford E. Simonsen, 2001 For junior/senior-level courses in Introduction to Corrections, Institutional Corrections, Community Based Corrections, Social Control, Crime and Punishment, and Criminology. Contemporary in look and feel, this leading text in corrections for over the past quarter of a century continues to explore the cutting edge of the field. It focuses on how today's correctional subsystems function within the larger criminal justice system, and introduces students to the vast field of corrections and its impact on contemporary society. Addressing more topics in more detail than other texts of its kind, it covers everything from historical precedents to the very latest programs and practices carefully balancing current and past research, grand and applied theory, and practical and predictive examples and issues. Its clarity and well-designed learning features continue to make it a favorite with students, and its superior organization and pedagogical tools makes it easy for instructors to adapt to any type of course.

**Corrections** Richard P. Seiter, 2005 Presenting an overview of the entire correctional process, this book provides readers with a practical understanding of today's operations of corrections. It includes correctional history and theory; yet concentrates on what we do in corrections, why we do it--and what challenges face contemporary correctional staff and administrators. Unique integration of the author's practical experience with the theories and policies for correctional agencies, demonstrates both the realities and reasons in carrying out correctional practices at the local, state, and federal levels. A five-part organization covers theories of crime, how society responded to crime prior to the 18th Century, the various elements of the correctional process operation, perspectives regarding various categories of correctional clients, and

the challenges facing corrections now and in the future. For individuals and taxpayers interested in today's criminal justice system, and an understanding of how programs operate and how much they cost.

**Issues in Corrections** Carly M. Hilinski-Rosick,John P. Walsh,2016-12-15 Since the 1970s, the corrections system has experienced exponential growth. Over the past four decades, the number of inmates held in US prisons and jails has quadrupled. This massive growth is associated with a number of different issues and challenges within prisons and jails, including overcrowding; gang activity and misconduct; a shift away from rehabilitation and programming; expanded use of

solitary confinement; inmates' human rights; criticisms of health care; and massive, publicly funded budgets. Many states now spend more on corrections than on higher education. This book explores these issues in depth. It takes current topics in institutional corrections and explores the main issues surrounding each. Themes include institutional corrections, prison behavior (including gangs and misconduct), solitary confinement, prison programming, and rehabilitation.
