Quote Me the Book of All New Quotes Joseph Julius Bonkowski, Jr.,2009-07 Born 8-30-58 in Cleveland Ohio, graduated from Lincoln-West high school in 1977 (Honor Roll), and was on the chess and track team, and started working for the city of Cleveland water dept. in 1977 and retired in 2007. I write short stories, slogans, saying, philosophy, songs, and comedy, restore paintings and comic books, and I can invent almost anything technical. I jog and it seems like I don't age; do to mixing a Fountain of youth type concoction when I was 20 years old. My parents are Joseph and Dorothy Bonkowski. I wrote The secrets of mind reading revealed (Howell Press), and Casablanca 2 (Unpublished), the Theory of Relativity 2, which expands on Einstein's Theory of Relativity (Only 200 copies printed.) My future plans are to keep on writing, and start a career in comedy. I still have thousands of unpublished quotes and saying, and if this book sells well I will write a second book lord willing.

Lovers of Wisdom Daniel Kolak, 2001 This is the most exciting and comprehensive text with integrated readings for introducing students to philosophy. It presents the big picture with all the right details. The central idea is to embed the best excerpts from the most important writings of the most important philosophers into one seamless, coherent adventure story in such a way that the reader takes part in the process of discovery. Instead of reading about philosophy, readers acquire philosophical insights into themselves and the world by acquiring a knowledge of philosophical ideas presented in their original contexts. Organized both historically and topically, the book can be used either chronologically or by topics, and to facilitate this for instructors it contains two separate tables of contents. The book covers all the major philosophers from the pre-Socratics to twentieth-century philosophy with a scope wide enough to embrace all schools and traditions—from the analytic and continental to non-western. This approach enables readers to understand the connection between many different ways of looking at ourselves and the world, to obtain a broad and multi-perspectival vision of all the best that philosophy has had to offer, by building philosophical bridges across national, cultural, religious, historical, and scholarly borders.
