The first section covers cultivation and each environmental factor's contribution to the indoor gardener's success, with an emphasis on organic methods. It includes secrets to customizing lighting, temperature, air circulation, nutrients and supplements. Gardening methods, from sprouting seeds to harvesting and curing are described with quality and flavor in mind. The 15 Ounce Pound Joseph R. Pietri, 2014-06-01 In the United States, cannabis is currently illegal, but this book investigates how big pharmaceutical companies are looking at an end-game of legality—controlled by them. It examines how the Amsterdam scene has been transformed; how home growers have been manipulated into using inferior techniques; and how companies, with help from the Drug Enforcement Agency (DEA) and big pharma, are patenting cannabis strains for control and profit. The leadership of the cannabis industry want to legalize marijuana with taxation and regulation, but the pharmaceutical industry cannot take over medical cannabis without first shutting down the scene today. The book predicts that legalized production will be tightly controlled by major players, using the IRS and DEA as a means of removing other growers. Regulation will also control the amount of tetrahydrocannabinol (THC) in each marijuana cigarette, forcing stronger cannabis to be available to medical patients by prescription only. A black market will still exist, so people will still go to jail, and the drug war will go on. With history and explosive, behind-the-scenes looks at big pharma collusion, this book is both an exposé and an in-depth look at the arc of freedom and probable control through use of pharmaceutical patents for marijuana.

Big Weed Christian Hageseth,Joseph D'Agnes,2015-04-21 Big Weed presents an inside look at the legal marijuana industry and the huge economy it's creating—from the founder of Green Man Cannabis, one of the fastest-growing marijuana producers in the country. Marijuana legalization is the hottest story in the US today. More than 20 states have authorized sales in some form; Denver has more legal marijuana dispensaries than Starbucks franchises. We are witnessing the dawn of a new industry. And like the early days of gourmet coffee chains, the rules and players are being established on the fly. Christian Hageseth is the face of the revolution-an entrepreneur and father of three who worked in the white-collar professional world for 20 years before opening his first dispensary. The Founder and Chairman of Green Man Cannabis, the fastest-growing legalized marijuana company in the country, he's the perfect tour guide through the wild frontier, where police hardly know what laws to enforce, or parents what to tell their kids. He paints a colorful picture not only of how he got into the business, but of the big interests that are eager to do the same-namely Philip Morris, Monsanto and a who's who of Big Pharma. He predicts a future where the marijuana market splits in two: the high-end, artisanal market, supplied by individual growers and small farms, and the mass market, covered by the cigarette giants and anyone bold enough to compete with them. Much like beer and coffee, your brand of weed will be just one more reflection of your lifestyle. It's an entrepreneur's dream, and Hageseth invites us along in Big Weed as he pitches skeptical investors, negotiates a shaggy cast of colleagues, and builds the biggest business he can.
