The Globalization of Supermax Prisons Jeffrey Ian Ross, 2013-02-10 “Supermax” prisons, conceived by the United States in the early 1980s, are typically reserved for convicted political criminals such as terrorists and spies and for other inmates who are considered to pose a serious ongoing threat to the wider community, to the security of correctional institutions, or to the safety of other inmates. Prisoners are usually restricted to their cells for up to twenty-three hours a day and typically have minimal contact with other inmates and correctional staff. Not only does the Federal Bureau of Prisons operate one of these facilities, but almost every state has either a supermax wing or stand-alone supermax prison. The Globalization of Supermax Prisons examines why nine advanced industrialized countries have adopted the supermax prototype, paying particular attention to the economic, social, and political processes that have affected each state. Featuring essays that look at the U.S.-run prisons of Abu Ghraib and Guantanamo, this collection seeks to determine if the American model is the basis for the establishment of these facilities and considers such issues as the support or opposition to the building of a supermax and why opposition efforts failed; the allegation of human rights abuses within these prisons; and the extent to which the decision to build a supermax was influenced by developments in the United States. Additionally, contributors address such domestic matters as the role of crime rates, media sensationalism, and terrorism in each country’s decision to build a supermax prison.

**Towards Human Rights Compliance in Australian Prisons** Anita Mackay, 2020-11-11 Imprisoned people have always been vulnerable and in need of human rights protections. The slow but steady growth in the protection of imprisoned people’s rights over recent decades in Australia has mostly come from incremental change to prison legislation and common law principles. A radical influence is about to disrupt this slow change. Australian prisons and other closed environments will soon be subject to international inspections by the United Nations Subcommittee on the Prevention of Torture (SPT). This is because the Australian Government ratified the Optional Protocol to the Convention Against Torture and other Cruel, Inhuman or Degrading Treatment or Punishment (OPCAT) in December 2017. Australia’s international human rights law obligations as they apply to prisons are complex and stem from multiple Treaties. This book distils these obligations into five prerequisites for compliance, consistent with the preventive focus of the OPCAT. They are: reduce reliance on imprisonment align domestic legislation with Australia’s international human rights law obligations shift the focus of imprisonment to the

goal of rehabilitation and restoration support prison staff to treat imprisoned people in a human rights-consistent manner ensure decent physical conditions in all prisons. Attention to each of these five areas will help all levels of Australian government and prison managers take the steps required to move towards compliance. Human-rights led prison reform is necessary both to improve the lives of imprisoned people and for Australia to achieve compliance with the international human rights legal obligations to which it has voluntarily committed itself.

Medicine and Society, New Perspectives in Continental Philosophy Darian Meacham, 2015-05-22 This volume addresses some of the most prominent questions in contemporary bioethics and philosophy of medicine: 'liberal' eugenics, enhancement, the normal and the pathological, the classification of mental illness, the relation between genetics, disease and the political sphere, the experience of illness and disability, and the sense of the subject of bioethical inquiry itself. All of these issues are addressed from a "continental" perspective, drawing on a rich tradition of inquiry into these questions in the fields of phenomenology, philosophical hermeneutics, French epistemology, critical theory and post-structuralism. At the same time, the contributions engage with the Anglo-American debate, resulting in a fruitful and constructive conversation that not only shows the depth and breadth of continental perspectives in bioethics and medicine, but also opens new avenues of discussion and exploration. For decades European philosophers have offered important insights into the relation between the practices of medicine, the concept of illness, and society more broadly understood. These interventions have generally striven to be both historically nuanced and accessible to non-experts. From Georges Canguilhem's seminal *The Normal and the Pathological*, Michel Foucault's lectures on madness, sexuality, and biopolitics, Hans Jonas's deeply thoughtful essays on the right to die, life extension, and ethics in a technological age, Hans-Georg Gadamer's lectures on *The Enigma of Health*, and more recently Jürgen Habermas's carefully nuanced interventions on the question of liberal eugenics, these thinkers have sought to engage the wider public as much as their fellow philosophers on questions of paramount importance to current bioethical and social-political debate. The essays contained here continue this tradition of engagement and accessibility. In the best practices of European philosophy, the contributions in this volume aim to engage with and stimulate a broad spectrum of readers, not just experts. In doing so the volume offers a showcase of the richness and rigor of continental perspectives on medicine and society.

**The Violence of Incarceration** Phil Scraton, Jude McCulloch, 2023-04-21 Conceived in the immediate aftermath of the humiliations and killings of prisoners in Afghanistan and Iraq, of the suicides and hunger strikes at Guantanamo Bay and of the disappearances of detainees through extraordinary rendition, this book explores the connections between these shameful events and the inhumanity and degradation of domestic prisons within the 'allied' states, including the USA, Canada, Australia, the UK and Ireland. The central theme is that the revelations of extreme brutality perpetrated by allied soldiers represent the inevitable end-product of domestic incarceration predicated on the use of extreme violence including lethal

force. Exposing as fiction the claim to the political moral high ground made by western liberal democracies is critical because such claims animate and legitimate global actions such as the 'war on terror' and the indefinite detention of tens of thousands of people by the United States which accompanies it. The myth of moral virtue works to hide, silence, minimize and deny the brutal continuing history of violence and incarceration both within western countries and undertaken on behalf of western states beyond their national borders.

**Incarceration Nations** Baz Dreisinger, 2016-02-09 Baz Dreisinger travels behind bars in nine countries to rethink the state of justice in a global context Beginning in Africa and ending in Europe, Incarceration Nations is a first-person odyssey through the prison systems of the world. Professor, journalist, and founder of the Prison-to-College-Pipeline, Dreisinger looks into the human stories of incarcerated men and women and those who imprison them, creating a jarring, poignant view of a world to which most are denied access, and a rethinking of one of America's most far-reaching global exports: the modern prison complex. From serving as a restorative justice facilitator in a notorious South African prison and working with genocide survivors in Rwanda, to launching a creative writing class in an overcrowded Ugandan prison and coordinating a drama workshop for women prisoners in Thailand, Dreisinger examines the world behind bars with equal parts empathy and intellect. She journeys to Jamaica to visit a prison music program, to Singapore to learn about approaches to prisoner reentry, to Australia to grapple with the bottom line of private prisons, to a federal supermax in Brazil to confront the horrors of solitary confinement, and finally to the so-called model prisons of Norway. Incarceration Nations concludes with climactic lessons about the past, present, and future of justice.

The U.S. Federal Prison System Mary Bosworth, 2002 Despite the fact that 160,000 people are locked up in our federal correctional facilities, practical information about the federal prison system remains difficult to locate. While some information may be found scattered on the Internet, in directions given at court, or through shared personal experience, there is no single source available that is a collection of all available information. The U.S. Federal Prison System is the first comprehensive book to include official prison policies, first-person accounts from prisoners, and information about each federal facility. Now published in paperback, The U.S. Federal Prison System is perfect for classroom use as it interweaves the academic study of incarceration with a survey of government reports on prison policy. Organized into two parts, this book is an accessible text on the current U.S. federal prison system. Part I is an introduction to federal prison facilities, including

key statistics and views from the inside provided by inmates of federal prisons. Part II is a look at the Federal Bureau of Prisons policies on various matters such as discipline, education, visits, and religious practices. Key Features A thorough overview of both prison policies and the federal facilities themselves with photos of selected prisons Part II consistently organizes historical background information followed by an account of current policies-with specific federal rules and regulations governing the policies to conclude each topical discussion Appendix A is the first comprehensive listing of every Federal prison in the U.S., complete with facility details and service information Commentary from prisoners-first-person accounts take the reader behind the walls The U.S. Federal Prison System is an ideal text for students studying corrections and penology in Criminal Justice, Criminology, Law, Social Work, Psychology, and Sociology. This book is also an excellent resource for families of inmates, researchers, and the general public.
