**The Black Panther Party and Transformative Pedagogy** Omari L. Dyson, 2013-11-14 The Black Panther Party and Transformative Pedagogy: Place-Based Education in Philadelphia, by Omari L. Dyson, is the first scholarly text to detail the social relief efforts of the Philadelphia, Pennsylvania Branch of the Black Panther Party. Through a postcolonial lens, this story captures the lived resistances, highlights the socio-historical context, and examines the discourse of former members of the Black Panther Party and local residents of Philadelphia from 1968-1974. Overall, this book provides insight from a multiplicity of sources to better capture the identity(-ies) and complexity of the organization. Not only does this text resolve a dearth in the literature that highlights the multiple facets of the Black Panther Party (especially at the local level), but it serves as a template on effective strategies for researchers, educators, and policymakers to implement on their quest for social and educational transformation.

**The Impact of Police Killings on the Family and Community of Youth Victims** Rafael Outland, Thomas Noel Jr., 2025-12-15 This work highlights survivors' voices in the exploration of police violence and homicide in the United States. Making vital connections between U.S. colonialism, structured and deputized violence, history of policing, and armed resistance by grassroots movements, the authors expand readers' understanding of the purpose of U.S. policing. Responding to data that showed that in 2016 and 2017, more than 135 children and teens lost their lives to police violence, the author team traveled to multiple locations across the United States to sit with, learn from, and capture survivors' stories and experiences. Utilizing in-depth and public interviews, the book presents breathtaking, honest, and heart-wrenching narratives surrounding the impact of youth killed by police on the family, community, and activists. This book makes important connections between colonialism, the history of police corruption, and police killings of marginalized groups. Survivors' narratives provide important, nuanced information surrounding the impact of youth killed by police, often with impunity, on friends, family, and loved ones of the victims. Synthesizing these stories with an overview of the state of policing in the United States, this scholarship extends recommendations and strategies for organizers, activists, students, and scholars to redefine public safety, as well as police power and accountability, in Black, Brown, Indigenous, and poor communities.
