House of Faith House of Cards Eric N. Davis, 2010-05-21 Concise. Vivid. Honest. - Dan Barker, critically acclaimed author of 'Godless' and 'Losing Faith in Faith' Brutally honest, insightful, and compelling storytelling. - Lyndon Lamborn, author of 'Standing for Something More' When a young couple searched for clues connecting them to a famous ancestor, their journey led them on a path they never expected - converting to Mormonism. House of Faith House of Cards tells the turbulent life story of their son, Eric, including all the typical Mormon experiences, and some extraordinary episodes no Mormon will ever encounter. He participated with family members in his first secret temple ritual - normally reserved for adults - at the age of four, only to be excluded from a similar ceremony, involving his family, thirteen years later. In 1857, a company of 120 immigrants set out from a small Arkansas town, toward California. In a tragic twist of fate, they never reached their destination. While encamped in southern Utah, local Mormons and Paiute Indians launched an ambush, brutally slaughtering the group, in what became known as the Mountain Meadows massacre. 125 years later, Eric would be raised as a Mormon in the same Arkansas community where this wagon train initially departed. There, he learned just how much some people still despised that faith. While training for and serving a church mission in Canada, in the mid-1990s, Eric shared a room and became acquainted with a fellow missionary named Mark Hacking. Less than a decade later, when the disappearance and murder of Hacking's wife became highly publicized, several international media outlets approached Eric, searching for any juicy detail of the man's troubled past. These stories are just the tip of the iceberg.

**A House of Cards** Jacqueline White, 2011-07-25 Massachusetts, 1969. When Tracy Burrows leaves Bakersfield, Alabama, to attend university at the prestigious Radcliffe College in Cambridge, Massachusetts, it was with the intention of making it to Harvard Law by keeping her head in the books and without causing any waves. Little did she realize how impossible this might be Tracy finds herself in the midst of the Student Movement, on one of the most active college campuses in the country. As a young, black woman, sitting out isn't an option, especially when she casually begins to date Kurt, a white, affluent, law student with his own ties to the South. Tracy is startled to discover that she's revolutionary without even trying. As Kurt and Tracy's relationship grows more serious, a secret from Kurt's past threatens everything that Tracy is working toward. Questions arise about race, relationships, and Tracy's own growing social consciousness. As she struggles with how much she's willing to give up to achieve her goals, Tracy realizes that the biggest lessons in life are the ones learned outside

of the classroom. Brilliantly capturing the tumultuous spirit of the late 1960s, *A House of Cards* explores the gambles often taken when it comes to love.

**The Monetary House of Cards** Henrik Zeberg, 2025-10-31 For more than a decade, central banks have engineered the greatest financial bubble in history. By driving interest rates to the floor and unleashing unprecedented liquidity, they built an Everything Bubble spanning stocks, housing, bonds, and crypto an edifice of excess now standing on shaky ground. In this book, Henrik Zeberg introduces his Zeberg Business Cycle Model, a real-time framework that cuts through the noise of conventional forecasting. The model shows that we are standing at a historic peak in both markets and the global economy just before the cycle turns down. Through vivid historical parallels from Tulip Mania to the Dot-Com boom combined with hard data and cycle analysis, Zeberg demonstrates why the current euphoria is destined to end the same way: in collapse. *The Monetary House of Cards* is both a warning and a guide: a roadmap for understanding how the bubble was built, why it will burst, and how investors and citizens can prepare for the turmoil ahead.

**Tarot: Temple of Paper, House of Cards** Carlos Escobel, 2019-07-28 *Tarot: Temple of Paper, House of Cards* breaks new ground in the study of the Tarot. The primary goal of this book is not to provide a user manual or card interpretation guide. Nor is it an argument for any one school of thought in regards to the cards, their origin or intended use. Instead, the purpose is to help beginners and adepts alike appreciate the never yet ever changing Tarot in a genuinely new way. The thought exercise that creates this lens through which to understand the heart of the art includes techniques for internalizing the cards, their combinations and overlooked complexities in an immersive manner. These do not compete with prevalent methods but only enhance them. The Tarot is different things to different people. It has survived, and thrived through more than six hundred years of use because of its elastic evolution. This book encapsulates what it was and what it is while still adding to the methods available for its users. Additionally, new research is offered that is sure to surprise even those already well-read on the subject. And speaking of that subject, the practice of Tarot is fascinating on multiple levels including the historic, artistic, folkloric, psychological and spiritual. All of those and more are touched on in a work meant to revitalize not the Tarot itself, but the ways in which we can better understand and make use of it.

**House of Cards** Tom Raabe, 2001 Gambling's increasing acceptance as an "innocent pastime" has taken a devastating toll. *House of Cards* takes an unflinching look at the industry that profits from the desperate dreams of its addicts—and ruins families. Offering hope to compulsive gamblers and those who love them, this book shows gamblers how to face their addiction and break free from its grip. Includes foreword by Dr. James Dobson.

House of Cards Colin S. Gray, 1992 If peace breaks out, can arms control be far behind? According to Colin S. Gray, this

sardonic motto describes events of the 1990s just as well as it did those of the 1920s. Gray offers a provocative history of twentieth-century attempts at arms limitation, as he challenges the fundamental assumptions of arms control theory. Arms control has never worked, he concludes, because it never can. Existing approaches to arms control appeal to common sense, but they are logically unsound and inherently impractical, Gray argues, because they fail to take political realities into account. He outlines their inadequacies in what he calls the Arms Control Paradox: the more motivated nations are to fight one another, the less interested they will be in supporting significant arms limitations. Under these conditions, arms control agreements must be, to echo a phrase of George Will's, either impossible or unimportant. Documenting the naval treaties of the 1920s and 1930s and the initiatives to limit strategic nuclear arms from 1969 to the present, Gray seeks to demonstrate that the fortunes of negotiated arms limitation have merely reflected the temperature of international relations, rather than influencing those relations. National security analysts, students and scholars of international relations, and others interested in arms control issues will want to read *House of Cards* and debate its conclusions.

**House of Belief** Kelee Katillac,2000 Within the haven of our homes, we should surround ourselves with things that uplift us. Handmade objects such as quilts, oil paintings, well-written novels, and embroidered pillows-expressions of our own creativity and that of others-can feed our souls. *House of Belief* is a unique take on interior design, a vividly illustrated and lavishly photographed how-to guide that assumes no special design talent on the part of the reader, just a strong desire to express individuality. Kelee Katillac encourages us to use the tools we have at hand to create home environments that express ourselves rather than the whims and dictates of the interior design industry.
