Sei passeggiate nei boschi narrativi Umberto Eco, 2012-05-07 I sei interventi tenuti da Eco nel 1992-93 in occasione delle Norton Lectures – che si svolgono ogni anno alla Harvard University – hanno una leggerezza affabulatoria insolita alla teoria. Questo dipende senza dubbio dal fatto che Eco sapeva di rivolgersi a un pubblico vasto e vario, ma in questa particolare scelta espressiva possiamo forse cogliere anche la sua volontà di affrontare la riflessione sulla narrativa partendo proprio dall'esperienza del lettore. Svariando da Omero a Spillane, da Cappuccetto Rosso a Nerval, Eco indaga aspettative e modalità con cui leggiamo i romanzi, procedendo in modo errabondo, come una serie di passeggiate appunto. Ma passeggiare per i boschi romanzeschi espone a sconcertanti scoperte: c'è davvero qualcosa in comune tra Manzoni e Agatha Christie, tra Molly Bloom e Milady? Soprattutto ciò che Eco ci mostra è quanto il romanzo – non a caso definito “il fratello carnale della Storia” – si intrecci con la vita e la vita con il romanzo.

The Art of Translation in Light of Bakhtin's Re-accentuation Slav Gratchev, Margarita Marinova, 2022-10-06 Although Mikhail Bakhtin's study of the novel does not focus in any systematic way on the role that translation plays in the processes of novelistic creation and dissemination, when he does broach the topic he grants translation a disproportionately significant role in the emergence and constitution of literature. The contributors to this volume, from the US, Hong Kong, Finland, Japan, Spain, Italy, Bangladesh, and Belgium, bring their own polyphonic experiences with the theory and practice of translation to the discussion of Bakhtin's ideas about this topic, in order to illuminate their relevance to translation studies today. Broadly stated, the essays examine the art of translation as an exercise in a cultural re-accentuation (a transferal of the original text and its characters to the novel soil of a different language and culture, which inevitably leads to the proliferation of multivalent meanings), and to explore the various re-accentuation devices employed over the span of the last 100 years in translating modern texts from one language to another. Through its contributors, *The Art of Translation in Light of Bakhtin's Re-accentuation* brings together different cultural contexts and disciplines (such as literature, literary theory, the visual arts, pedagogy, translation studies, and philosophy) to demonstrate the continued international relevance of Bakhtin's ideas to the study of creative practices, broadly understood.

Kazaaam! Splat! Ploof! Gordana Crnkovic, 2003-10-01 Observing European debates about EuroDisney, McDonald's,

Hollywood films and television programs, and other vehicles of alleged 'Americanization,' one might imagine that Europe was in serious risk of losing its distinct cultural identity in the melting pot of American pop culture. The loaded charge of 'kitsch' is a central aspect of the debate, with Disney stories, for example, branded as simplified travesties of authentic European folk tales. But the relationship between European and American popular cultures is vastly more complex. Reciprocal and interactive, it is a relationship in which the European-American partnership (for example, in cinematic ventures) has become quite common. And again, artifacts which have a certain meaning and reception in America may have a completely different meaning and reception in Europe; in effect behaving as different artifacts altogether. And finally, as this book shows, American cultural influences have penetrated not only the popular realms of European television, fashions, fast food, and rock music, but also such domains as youth organizations, literature, UFO culture, and religious faith.

Western Japaneseness: Intercultural Translations of Japan in Western Media Frank Jacob, Bruno Surace, 2021-03-02 Our images of non-Western cultures are often based on stereotypes that are replicated over the years. These stereotypes often appear in popular media and are responsible for a pre-set image of otherness. The present book investigates these processes and the media representation of otherness, especially as an artificial construct based on stereotypes and their repetition, in the case of Japan. 'Western Japaneseness' thereby illustrates how the Western image of Japan in popular media is rather a construct that, in a way, replicated itself, instead of a more serious encounter with a foreign and different cultural context. This book will be of great value to students and academics who hold interest in media studies, Japanese studies, and cultural studies. It will also appeal to a broader audience with interests in Japan more generally.

The Cambridge Companion to the Italian Novel Peter Bondanella, Andrea Ciccarelli, 2003-07-31 The Cambridge Companion to the Italian Novel provides a broad ranging introduction to the major trends in the development of the Italian novel from its early modern origin to the contemporary era. Contributions cover a wide range of topics including the theory of the novel in Italy, the historical novel, realism, modernism, postmodernism, neorealism, and film and the novel. The contributors are distinguished scholars from the United Kingdom, the United States, Italy, and Australia. Novelists examined include some of the most influential and important of the twentieth century inside and outside Italy: Luigi Pirandello, Primo Levi, Umberto Eco and Italo Calvino. This is a unique examination of the Italian Novel, and will prove invaluable to students and specialists alike. Readers will gain a keen sense of the vitality of the Italian novel throughout its history and a clear picture of the debates and criticism that have surrounded its development.

Gaily-Coloured Creatures Mirella Napodano, 2016-02-24 The book focuses on philosophical research on children, explaining how their main interests, curiosity, discoveries, creativity, wonder, surprises are basic factors and essential requisites to build their philosophical knowledge. The book documents a large number of experimental sessions

accomplished since 1996 in Italian primary schools by Mirella Napodano, who designed new methods for philosophical learning and training with children. Her didactic method is based on peer education through cooperative dialogue and it is made of three modules: A) The speculative way: Alice in wonderland; B) The way of identity: Alice through the mirror; C) The way of friendship: I care. The book contains a selection of literary pieces, fairy tales, stories, classic myths, Jewish midrash. They are recommended for their philosophical significance, but teachers are free to choose topics and contents of their sessions according to their preferences and pupils interests.

Saints and Signs Massimo Leone,2010 Catholic saints are also signs. Through the saints, the Catholic Church communicates certain models of spirituality. After the Reformation, saints became the media through which the Catholic Church represented and promoted a renewal of the Catholic faith in Europe and in its colonies. Saints and Signs analyzes hagiographies, paintings, and other texts representing the sanctity of Ignatius of Loyola, Philip Neri, Francis Xavier, and Therese of Avila, in order to answer the following question: How did these words and images influence the Catholic spirituality at the beginning of modernity?
