MANAGERIAL ECONOMICS DATTA, DEBABRATA, 2017-04-01 Managerial Economics, also known as business economics or Applied Microeconomics, helps in dealing with business decisions and management units effectively. This book discusses the theories and applications of Managerial Economics with the help of its various quantitative techniques like operations research, mathematical programming, game theory for strategic decisions, and other computational methods. Divided into 8 sections and 24 chapters, the book shows how conveniently one can find a solution to the business problems, such as Risk analysis, Production analysis, Pricing, Budgeting, Sales promotion and so on with Managerial Economics tools. Section I analyses the economic behaviour of the consumers; Section II discusses producers' behaviour and issues related to the production; Sections III, IV and V talk about markets and firms and their types. The concluding Sections VI, VII and VIII delve on the application part of Economics in human resource management, finance, marketing and strategy. The chapters are well-supported with the cases, figures and important facts. The book is equipped with pedagogical aids in the form of Summary, Glossary, Important Terms, Numerical Problems and Multiple Choice Questions. Intended for the postgraduate students of Management, the book will be equally beneficial for the practising Managers.

Principles of Corporate Finance Haim Levy, 1998 Principles of Corporate Finance is a thorough, modern treatment of corporate finance. Written by a well known, widely-published researcher, it offers a clear, accessible presentation of key tools and concepts combined with the business applications students need to understand corporate financial theory. It is unique in bridging between theory and application through a learning-by-doing, problem-solving approach. The text makes heavy use of real-world examples, mini-cases, and a rich selection of problem material. This practical, applied approach helps students appreciate the role of the Chief Financial Officer (CFO) and emphasizes capital markets innovations that substantially affect the CFO's job.

Practical Investment Management Robert A. Strong, 2001 This text is intended for students studying investments for the first time and assumes that the student is familiar with basic finance concepts. Very practical and applied, it is

comprehensive enough for those who plan to become CFAs, but remains user-friendly due to its clarity of explanation and its pedagogy.

Investment Robert C. Radcliffe,1994 This fourth edition takes an applied approach with coverage of efficient, practical, and strategic asset allocation. It continues to focus on asset allocation with software support by considering the very relevant decisions that investors must make.

Financial Institutions, Investments, and Management Herbert B. Mayo,2001 A well-written, well-illustrated survey of the field of finance covering the three major components of the discipline: financial institutions, investments, and financial management. The text is designed for the beginning student with minimal or no background in finance or related topics. Relevant economic and accounting concepts are either reviewed or treated as if the student has no prior exposure. The text is paperback represents a great value as it is less expensive than competitors.
