

Tafsir Al Ahlam Ibn Sirin

Michael Cooperson, Shawkat M. Toorawa

Dreaming in Christianity and Islam Kelly Bulkeley, Kate Adams, Patricia M Davis, 2009-10-21 Throughout history to the present day, religion has ideologically fueled wars, conquests, and persecutions. Christianity and Islam, the world's largest and geopolitically powerful faiths, are often positioned as mortal enemies locked in an apocalyptic clash of civilizations. Rarely are similarities addressed. *Dreaming in Christianity and Islam*, the first book to explore dreaming in these religions through original essays, fills this void. The editors reach a plateau by focusing on how studying dreams reveals new aspects of social and political reality. International scholars document the impact of dreams on sacred texts, mystical experiences, therapeutic practices, and doctrinal controversies.

Tafsir al-Ahlam lil Imam Abl Bakr ibn Sirin Abl Mahrus, Omar Bin Mahrus, 2008

Islāmic Counselling and Psychotherapy G. Hussein Rassool, 2024-10-08 *Islāmic Counselling and Psychotherapy: An Introduction to Theory and Practice* provides foundation-level knowledge of and perspective on the fundamental principles and practices of counselling and psychotherapy from an Islāmic perspective. This groundbreaking practical framework incorporates Islāmic spirituality, religion, and cultural contexts into the therapeutic process. It makes the case that authentic Islāmic spirituality, based on submission to God, forms the cornerstone of good mental health. The book's foundation focuses on the therapist's role and ethical considerations specific to Islāmic psychotherapy. It explores the integration of Qur'ānic teachings and hādīths and delves into dream interpretation and the clinical applications of the Siraat Al-Islāmic psychotherapy practice model. This thoroughly revised new edition also highlights advances and developments in scholarship and evidence-based practices and introduces postmodern psychotherapy approaches like narrative and hope therapy. This text provides a clear understanding of the nature, scope, and process of Islāmic psychotherapy for Islāmic practitioners or clinicians working with Muslim clients.

The Dream in Islam Iain R. Edgar, 2011-05-01 The war in the Middle East is marked by a lack of cultural knowledge on the part of the western forces, and this book deals with another, widely ignored element of Islam—the role of dreams in everyday life. The practice of using night dreams to make important life decisions can be traced to Middle Eastern dream traditions and practices that preceded the emergence of Islam. In this study, the author explores some key aspects of Islamic dream theory and interpretation as well as the role and significance of night dreams for contemporary Muslims. In his

analysis of the Islamic debates surrounding the role of “true” dreams in historical and contemporary Islamic prophecy, the author specifically addresses the significance of Al-Qaeda and Taliban dream practices and ideology. Dreams of “heaven,” for example, are often instrumental in determining Jihadist suicidal action, and “heavenly” dreams are also evidenced within other contemporary human conflicts such as Israel-Palestine and Kosovo-Serbia. By exploring patterns of dreams within this context, a cross-cultural, psychological, and experiential understanding of the role and significance of such contemporary critical political and personal imagery can be achieved.

Living with Djinns Barbara Drieskens, 2008 The djinn is an invisible spirit with a will of its own that may lurk at the bottom of your teacup or seep through your pores to possess you. Djinns have long been an explanation for illness and misfortune or an excuse for unconventional behavior. Barbara Drieskens investigates possession, manifestations, and concepts of person and space. She also explores the importance of storytelling in Egyptian society and recounts first-hand experiences of djinns in this unique ethnographic study. Barbara Drieskens is a researcher at the Institut Français du Proche-Orient in Beirut, Lebanon.

This book deals with specific methods for inducing prophetic or veridical dreams, because this book has a purpose: the experimental achievement of non-ordinary consciousness through autonomous openings (Initiations) to the world of the imagination
