H.P. Lovecraft, Steven Philip Jones

The Alchemist H.P. Lovecraft, 2021-01-08 The story is recounted by the protagonist, Count Antoine de C, in the first person. Hundreds of years ago, Antoine's noble ancestor was responsible for the death of a dark wizard, Michel Mauvais. The wizard's son, Charles le Sorcier, swore revenge on not only him but all his descendants, cursing them to die on reaching the age of 32. The protagonist recounts how his ancestors all died in some mysterious way around the age of 32. The line has dwindled and the castle has been left to fall into disrepair, tower by tower. Finally, Antoine is the only one left, with one poor servant, Pierre, who raised him, and a tiny section of the castle with a single tower is still usable. Antoine has reached adulthood, and his 32nd year is approaching. His servant eventually dies, leaving him completely alone, and he begins exploring the ruined parts of the castle. He finds a trapdoor in one of the oldest parts. Below, he discovers a passage with a locked door at the end. Just as he turns to leave, he hears a noise behind him and sees that the door is open and someone is standing in it. The man attempts to kill him but Antoine kills him first. His dying words reveal that he is none other than Charles, who actually managed to successfully fabricate the elixir of life, enabling him to personally fulfill the curse generation after generation.

Henri was 32 years old that night, and no male descendant has lived to see age 33. Now, the last Count de Chabrilane is about to turn 32. This chilling Lovecraft tale is adapted by award winning comic writer Steven Philip Jones. H.P. Lovecraft is considered one of America's most innovative and popular American horror writers. The master of the weird tale during the first decades of the 20th Century until his premature death in 1937, Lovecraft's distinctive style and canon of work has influenced many authors. Jones takes the classic tale and while remaining true to the source, brings it into the modern age which can sometimes make the horror even more terrifying. This tale is illustrated by Octavio Cariello who has worked on DC's Green Lantern, Deathstroke, and Black Lightning comic book series. A Caliber Comics release.

THE WORLDS OF H.P. LOVECRAFT : THE LURKING FEAR [COMIC BOOK]. Howard Phillips Lovecraft,1997

The Alchemist Steven Philip Jones,200?

The Alchemist H. P. Lovecraft,2014-12-13 The Alchemist is a short story by H. P. Lovecraft, written in 1908, when Lovecraft was 17 or 18, and first published in the November 1916 issue of the United Amateur. Howard Phillips Lovecraft (August 20, 1890 - March 15, 1937) - known as H.P. Lovecraft - was an American author who achieved posthumous fame through his influential works of horror fiction. Virtually unknown and only published in pulp magazines before he died in poverty, he is now regarded as one of the most significant 20th-century authors in his genre. Lovecraft was born in Providence, Rhode Island, where he spent most of his life. His father was confined to a mental institution when Lovecraft was three years old. His grandfather, a wealthy businessman, enjoyed storytelling and was an early influence. Intellectually precocious but sensitive, Lovecraft began composing rudimentary horror tales by the age of eight, but suffered from overwhelming feelings of anxiety. He encountered problems with classmates in school, and was kept at home by his highly strung and overbearing mother for illnesses that may have been psychosomatic. In high school, Lovecraft was able to better connect with his peers and form friendships. He also involved neighborhood children in elaborate make-believe projects, only regretfully ceasing the activity at seventeen years old. Despite leaving school in 1908 without graduating - he found mathematics particularly difficult - Lovecraft had developed a formidable knowledge of his favored subjects, such as history, linguistics, chemistry, and astronomy. Although he seems to have had some social life, attending meetings of a club for local young men, Lovecraft, in early adulthood, was established in a reclusive 'nightbird' lifestyle without occupation or pursuit of romantic adventures. In 1913 his conduct of a long running controversy in the letters page of a story magazine led to his being invited to participate in an amateur journalism association. Encouraged, he started circulating his stories; he was 31 at the time of his first publication in a professional magazine. Lovecraft contracted a marriage to an older woman he had met at an association conference. By age 34, he was a regular contributor to newly founded Weird Tales magazine; he turned down an offer of the editorship. Lovecraft returned to Providence from New York in 1926, and over the next nine months he produced some of his most celebrated tales including The Call of Cthulhu, canonical to the Cthulhu Mythos. Never able to support himself from earnings as author and editor, Lovecraft saw commercial success increasingly elude him in this latter period, partly because he lacked the confidence and drive to promote himself. He subsisted in progressively straitened circumstances in his last years; an inheritance was completely spent by the time he died at the age of 46.

The Alchemist, the Original Short Story H.p. Lovecraft,2015-01-03 High up, crowning the grassy summit of a swelling mount whose sides are wooded near the base with the gnarled trees of the primeval forest stands the old chateau of my ancestors. For centuries its lofty battlements have frowned down upon the wild and rugged countryside about, serving as a home and stronghold for the proud house whose honored line is older even than the moss-grown castle walls.

The Alchemist's Notebook Byron Craft,2014-01-14 This e-book version is an enhanced version of the printed book in

that it offers several illustrations in color. Still Thinking in 3 Dimensions? There are no hiding places..... Faren, a shell-shocked Vietnam vet, and his wife, Janet, inherit an old country estate in Germany around the time that Faren's company transfers him to the same area. The two soon discover that the coincidence is really too good to be true. Their home rests near a timeworn door into the earth that is poised to open, exposing all to a horde of four-dimensional beings. Soon the line between our reality and that other space-time will be blurred forever, leaving mankind to be consumed by shrill, shrieking terror. Only one man has the slimmest chance to save our planet and, even though he has no place to hide, he prefers to run. In the style of H.P. Lovecraft, Byron Craft brings the Cthulhu mythos and the dreaded Necronomicon back to life with *The Alchemist's Notebook* leading the reader through a terrifying Lovecraftian web of mystery, horror and apocalyptic doom.

The Alchemist, Dagon, and Ex Oblivione H. P. Lovecraft, 2008-10 Howard Phillips Lovecraft (1890-1937) was an American author of horror, fantasy, and science fiction, known then simply as weird fiction. His major inspiration and invention was cosmic horror: the idea that life is incomprehensible to human minds and that the universe is fundamentally alien. Those who genuinely reason, like his protagonists, gamble with sanity. He has developed a cult following for his Cthulhu Mythos, a series of loosely interconnected fictions featuring a pantheon of human-nullifying entities, as well as the Necronomicon, a fictional grimoire of magical rites and forbidden lore. His works were deeply pessimistic and cynical, challenging the values of Enlightenment, Romanticism, and Christian humanism. Lovecraft's protagonists usually achieve the mirror-opposite of traditional gnosis and mysticism by momentarily glimpsing the horror of ultimate reality. Although Lovecraft's readership was limited during his life, his reputation has grown over the decades, and he is now commonly regarded as one of the most influential horror writers of the 20th century, exerting widespread and indirect influence, and frequently compared to Edgar Allan Poe.
