**Panchanan Mohanty, Ramesh C. Malik**

*The Book* Alan Watts, 2011-09-28 A revelatory primer on what it means to be human and a mind-opening manual of initiation into the central mystery of existence, by “perhaps the foremost interpreter of Eastern disciplines for the contemporary West (Los Angeles Times). At the root of human conflict is our fundamental misunderstanding of who we are. The illusion that we are isolated beings, unconnected to the rest of the universe, has led us to view the “outside” world with hostility, and has fueled our misuse of technology and our violent and hostile subjugation of the natural world. To help us understand that the self is in fact the root and ground of the universe, Alan Watts provides us with a much-needed answer to the problem of personal identity, distilling and adapting the Hindu philosophy of Vedanta.

**Deep Ecology for the Twenty-First Century** George Sessions, 1995-01-24 Instead of thinking of nature as a resource to be used for human needs, deep ecology argues that the true value of nature is intrinsic. This comprehensive and wide-ranging anthology contains almost 50 articles by the leading writers and thinkers in the field, offering a broad array of perspectives on this important approach to environmentalism.

*The Others* Paul Shepard,1996 Paul Shepard has been one of the most brilliant and original thinkers in the field of human evolution and ecology for more than forty years. His thought-provoking ideas on the role of animals in human thought, dreams, personal identity, and other psychological and religious contexts have been presented in a series of seminal writings, including *Thinking Animals*, *The Tender Carnivore and the Sacred Game*, and now *The Others*, his most eloquent book to date. *The Others* is a fascinating and wide-ranging examination of how diverse cultures have thought about, reacted to, and interacted with animals. Shepard argues that humans evolved watching other animal species, participating in their world, suffering them as parasites, wearing their feathers and skins, and making tools of their bones and antlers. For millennia, we have communicated their significance by dancing, sculpting, performing, imaging, narrating, and thinking them. The human species cannot be fully itself without these others. Shepard considers animals as others in a world where otherness of all kinds is in danger, and in which otherness is essential to the discovery of the true self. We must understand what to make of our encounters with animals, because as we prosper they vanish, and ultimately our prosperity may amount to nothing without them.
