The Origin Of The Work Of Art

Georges Perrot,Charles Chipiez

Heidegger and the Work of Art History Amanda Boetzkes,2017-07-05 Heidegger and the Work of Art History explores the impact and future possibilities of Heidegger?s philosophy for art history and visual culture in the twenty-first century. Scholars from the fields of art history, visual and material studies, design, philosophy, aesthetics and new media pursue diverse lines of thinking that have departed from Heidegger?s work in order to foster compelling new accounts of works of art and their historicity. This collected book of essays also shows how studies in the history and theory of the visual enrich our understanding of Heidegger?s philosophy. In addition to examining the philosopher's lively collaborations with art historians, and how his longstanding engagement with the visual arts influenced his conceptualization of history, the essays in this volume consider the ontological and ethical implications of our encounters with works of art, the visual techniques that form worlds, how to think about ?things? beyond human-centred relationships, the moods, dispositions, and politics of art?s history, and the terms by which we might rethink aesthetic judgment and the interpretation of the visible world, from the early modern period to the present day.

Heidegger, Aristotle and the Work of Art Mark Sinclair,2006-12-01 This book finds Heidegger's Aristotle interpretation integral to his idea of leading metaphysics back to its own presuppositions, and his reflection on art as necessitating a revision of this interpretation. It argues that this tracing is vital to engaging with the historical significance of his thinking, and with modern metaphysics and aesthetics.

The Art of Art History Donald Preziosi,2009 This anthology is a guide to understanding art history through critical reading of the field's most innovative and influential texts, focusing on the past two centuries.

PREHISTORIC ART; OR THE ORIGIN OF ART AS MANIFESTED IN THE WORKS OF PREHISTORIC MAN THOMAS WILSON,1898

Dwelling Poetically Haim Gordon,2021-10-01 This book philosophically discusses the educational challenges of dwelling poetically, which, according to Martin Heidegger, means learning from great poems how to live a worthy life and relate authentically to beings and to Being. The gifts of great poetry are carefully described and concrete approaches are presented that the educator can adopt.
