

Thirteenth Tribe By Arthur Koestler

Robert Blumstock

The Thirteenth Tribe Arthur Koestler, 1976 The Khazars (Turkish: Hazarlar) were a semi-nomadic Turkic people who created one of the largest states of medieval Eurasia, Khazaria, with its capital at Atil. Astride one of the major arteries of commerce between northern Europe and southwestern Asia, Khazaria commanded the western marches of the Silk Road and played a key commercial role as a crossroad between China, the Middle East, and Europe.--Wikipedia.

The Making of Modern Jewish Identity Motti Inbari, 2019-05-30 This volume explores the processes that led several modern Jewish leaders - rabbis, politicians, and intellectuals - to make radical changes to their ideology regarding Zionism, Socialism, and Orthodoxy. Comparing their ideological change to acts of conversion, the study examines the philosophical, sociological, and psychological path of the leaders' transformation. The individuals examined are novelist Arthur Koestler, who transformed from a devout Communist to an anti-Communist crusader following the atrocities of the Stalin regime; Norman Podhoretz, editor of Commentary magazine, who moved from the New Left to neoconservative, disillusioned by US liberal politics; Yissachar Shlomo Teichtel, who transformed from an ultra-Orthodox anti-Zionist Hungarian rabbi to messianic Religious-Zionist due to the events of the Holocaust; Ruth Ben-David, who converted to Judaism after the Second World War in France because of her sympathy with Zionism, eventually becoming a radical anti-Israeli advocate; Haim Herman Cohn, Israeli Supreme Court justice, who grew up as a non-Zionist Orthodox Jew in Germany, later renouncing his belief in God due to the events of the Holocaust; and Avraham (Avrum) Burg, prominent centrist Israeli politician who served as the Speaker of the Knesset and head of the Jewish Agency, who later became a post-Zionist. Comparing aspects of modern politics to religion, the book will be of interest to researchers in a broad range of areas including modern Jewish studies, sociology of religion, and political science.

The Invention of the Jewish People Shlomo Sand, 2010-06-14 A historical tour de force, *The Invention of the Jewish People* offers a groundbreaking account of Jewish and Israeli history. Exploding the myth that there was a forced Jewish exile in the

first century at the hands of the Romans, Israeli historian Shlomo Sand argues that most modern Jews descend from converts, whose native lands were scattered across the Middle East and Eastern Europe. In this iconoclastic work, which spent nineteen weeks on the Israeli bestseller list and won the coveted Aujourd'hui Award in France, Sand provides the intellectual foundations for a new vision of Israel's future.

The Hijacking of Christianity Harry Charles, Ed.S.,2024-02-23 *The Hijacking of Christianity* is a whirlwind of exposing secrets that have been hidden for centuries. We begin with the origin of Christianity. We give you the religious world of Christianity as a jigsaw puzzle with all the hidden truths as pieces of the puzzle scattered around the world in secret places. The writer places you, the reader, as participants. As you read this book, you will be able to literally see the puzzle come together. We uncover who created Christianity, where the cross came from, who gave us all the holidays we currently celebrate, and who was Jesus Christ-how he was invented and what his real name is. We expose why his real name was hidden from the world for centuries. We reveal how and why the scriptures of the original Bible and characters were changed and why. This book provides proof through research, the Bible, DNA, geography, science, and writings of different scholars; this book shows how deceptions, cover-ups, distortions, and the whitewashing of biblical characters, icons, the Messiah, and God himself were changed.

Catastrophe David Keys,2000-10-02 It was a catastrophe without precedent in recorded history: for months on end, starting in A.D. 535, a strange, dusky haze robbed much of the earth of normal sunlight. Crops failed in Asia and the Middle East as global weather patterns radically altered. Bubonic plague, exploding out of Africa, wiped out entire populations in Europe. Flood and drought brought ancient cultures to the brink of collapse. In a matter of decades, the old order died and a new world—essentially the modern world as we know it today—began to emerge. In this fascinating, groundbreaking, totally accessible book, archaeological journalist David Keys dramatically reconstructs the global chain of revolutions that began in the catastrophe of A.D. 535, then offers a definitive explanation of how and why this cataclysm occurred on that momentous day centuries ago. The Roman Empire, the greatest power in Europe and the Middle East for centuries, lost half its territory in the century following the catastrophe. During the exact same period, the ancient southern Chinese state, weakened by economic turmoil, succumbed to invaders from the north, and a single unified China was born. Meanwhile, as restless tribes swept down from the central Asian steppes, a new religion known as Islam spread through the Middle East. As Keys demonstrates with compelling originality and authoritative research, these were not isolated upheavals but linked events arising from the same cause and rippling around the world like an enormous tidal wave. Keys's narrative circles the globe as he identifies the eerie fallout from the months of darkness: unprecedented drought in Central America, a strange yellow dust drifting like snow over eastern Asia, prolonged famine, and the hideous pandemic of the bubonic plague. With a superb command of ancient literatures and historical records, Keys makes hitherto unrecognized connections between the wasteland

that overspread the British countryside and the fall of the great pyramid-building Teotihuacan civilization in Mexico, between a little-known Jewish empire in Eastern Europe and the rise of the Japanese nation-state, between storms in France and pestilence in Ireland. In the book's final chapters, Keys delves into the mystery at the heart of this global catastrophe: Why did it happen? The answer, at once surprising and definitive, holds chilling implications for our own precarious geopolitical future. Wide-ranging in its scholarship, written with flair and passion, filled with original insights, Catastrophe is a superb synthesis of history, science, and cultural interpretation.

You're Too Late David I. Jackson, 2023-04-04 You will accept the growth expected of you if you are to really be a true believer in the MESSIAH. There are going to be times you're going to have to feel like you're being stretched to the breaking point. You can call it toughing it out to see what becomes of your new understanding. That's why I like to think about being anchored in the LORD.

The God Dilemma V. C. Thomas, 2009-08 Today's modern technology and scientific knowledge contradicts all religious dogma created in ancient times by ignorant and superstitious people who had just learned to write. Modern science can test the strength of one's faith and it can make him a skeptic, causing him to discard the religious beliefs of his family for generations past. Deep religious experiences (or self-induced delusions) can be explained by physical, psychological, biological and medical sciences today. Evil or Sin is the result of social and mental conditions and can be corrected with education and medication today and without the help of an imaginary God. To quote Mark Twain Faith is to believe in what you know for sure is not true. The GOD Dilemma is an unscientific investigation to justify believing in religion today and in particular the Christian faith. It argues that scientific and logical discussions about religion and the existence of God are futile; however, we cannot stop thinking about it. Humans are (maybe) born with a faith in God's existence and with a conscience that tells them which is morally and ethically right and which is not. Author Thomas used to believe in religion, God, and Christianity through his teenage years, but even if he learned to ignore it during his 50 adult years, he never consciously discarded his Christian faith. He now shares his investigations and attempts to believe in Jesus Christ once again, despite today's knowledge of the universe and evolution and by ignoring the sanctimonious behavior of fundamentalist US Christians. In the international scene, Thomas believes that the US wars since WWII cannot be justified by the life and the teachings of Jesus Christ. There is an underlying moral claim by fundamentalist Christian Americans that its actions are justified by Jesus and Christianity. The new phenomenon called Christian Zionism which requires the removal of Palestinians from their homeland to create and expand Israel to enable the second coming of Christ, categorically contradicts the teachings of Jesus in the four Gospels. Zionism is based on the Old Testament Bible (OTB) and Revelations in the New Testament both of which are scientifically ridiculous. The OTB is also historically questionable (about a God interacting with his only chosen people in Middle East) and morally criminal (God sponsored and assisted armed robbery and genocide to

create Israel ancient and modern) by today's legal and ethical standards. Why has the life and teachings of Jesus Christ not produced universal love and non-violence among Christians? Why are American Christians the most active supporters of (or not speaking out against) the wars, bombing and destruction by the USA since WWII? Are Ashkenazi European Jews really the descendants of Semitic slaves from Egypt? What were the reasons for anti-Semitism and the Holocaust in Christian Europe of the past? Why is the European Union and the US punishing the Palestinians for the Holocaust crimes in Europe? Can God's orders in the Bible be legally used by the United Nations to recreate Israel again in the 20th century after 3000 years by getting rid of Palestinians? The book seeks to inform and provoke critical thinking of the readers through this investigation into religion and God and, in particular, the violent, intolerant and self-righteous behavior of Christians for centuries past and even in today's enlightened age using the source of the Christian religion the Bible.

Religion vs. Truth Frank Times Ifeanyichukwu, 2011-02-24

The African Origin of Modern Judaism José V. Malcioln, 1996 This book has a two-fold purpose; to demonstrate to Black and White Hebrews and Jews their undeniable kinship and to encourage a better relationship among Israelites through understanding of that kinship. In this seminal work, Dr. Malcioln attempts to answer the fundamental question of the relationship between Africa and the Hebrews or Jews. This historical study will show the contributions made before and after certain periods of Jewish dispersion from Africa.

The Routledge Encyclopedia of Jewish Writers of the Twentieth Century Sorrel Kerbel, 2004-11-23 Now available in paperback for the first time, Jewish Writers of the Twentieth Century is both a comprehensive reference resource and a springboard for further study. This volume: examines canonical Jewish writers, less well-known authors of Yiddish and Hebrew, and emerging Israeli writers includes entries on figures as diverse as Marcel Proust, Franz Kafka, Tristan Tzara, Eugene Ionesco, Harold Pinter, Tom Stoppard, Arthur Miller, Saul Bellow, Nadine Gordimer, and Woody Allen contains introductory essays on Jewish-American writing, Holocaust literature and memoirs, Yiddish writing, and Anglo-Jewish literature provides a chronology of twentieth-century Jewish writers. Compiled by expert contributors, this book contains over 330 entries on individual authors, each consisting of a biography, a list of selected publications, a scholarly essay on their work and suggestions for further reading.

The Enemy of My Enemy George Michael, 2006 In the violent world of radical extremists, the enemy of my enemy is my friend. This study reveals how that precept plays out in the unexpected bonding between militant Islam and the extreme right in America and Europe. It provides an insightful and sane look at the possibilities for collaboration between these groups.

Beyond Art: A Third Culture Peter Weibel, 2005-05-17 A new theory of culture presented with a new method achieved by comparing closely the art and science in 20th century Austria and Hungary. Major achievements that have influenced the

world like psychoanalysis, abstract art, quantum physics, Gestalt psychology, formal languages, vision theories, and the game theory etc. originated from these countries, and influence the world still today as a result of exile nurtured in the US. A source book with numerous photographs, images and diagrams, it opens up a nearly infinite horizon of knowledge that helps one to understand what is going on in today's worlds of art and science.
