Économie, Sociologie et Histoire du monde contemporain. L'essentiel en 10 thèmes et 20 questions - Nouveaux programmes Gabriel Leconte,2021-05-25 Cet ouvrage présente une synthèse du cours d'Économie Sociologie et Histoire du monde contemporain (ESH), matière qui peut désormais être choisie par l'ensemble des classes préparatoires économiques et commerciales en voie générale (ECG). Il s'articule autour des 10 principaux thèmes du nouveau programme et de 20 questions essentielles pour appréhender les enjeux qui alimentent l'essentiel des sujets proposés aux concours. Sont également mis en évidence dans le texte les mots-clés que l'on peut classer en 3 catégories : les notions et mécanismes à maîtriser, les auteurs, classiques ou contemporains, à connaître, les dates de l'histoire économique à mémoriser. Chaque thème s'ouvre par une large sélection des sujets d'annales (écrit et oral), de manière à se projeter plus facilement dans l'anticipation des problématiques à venir, ainsi que par les plans des questions choisies.

Thinking with Demons Stuart Clark,1999 This is a work of fundamental importance for our understanding of the intellectual and cultural history of early modern Europe. Stuart Clark offers a new interpretation of the witchcraft beliefs of

European intellectuals based on their publications in the field of demonology, and shows how these beliefs fitted rationally with many other views current in Europe between the fifteenth and eighteenth centuries. Professor Clark is the first to explore the appeal of demonology to early modern intellectuals by looking at the books they published on the subject during this period. After examining the linguistic foundations of their writings, the author shows how the writers' ideas about witchcraft (and about magic) complemented their other intellectual commitments--in particular, their conceptions of nature, history, religion, and politics. The result is much more than a history of demonology. It is a survey of wider intellectual and ideological purposes, and underlines just how far the nature of rationality is dependent on its historical context.

Les thèmes du rêve dans la littérature romantique: France, Angleterre, Allemagne Jacques Bousquet, 1964

Thèmes et variations Lucie Hotte, Johanne Melançon, 2005 Durant les années 1970 et 1980, la création littéraire en Ontario française connaît une vitalité sans précédent: les écrivains sont de plus en plus nombreux, les troupes théâtrales se multiplient, des maisons d'édition voient le jour. Il n'est pas étonnant, dès lors, de voir la critique lui emboîter le pas au cours des années 1990. Si, au départ, les chercheurs se consacraient à mettre en place des outils de recherche bibliographiques, anthologies, histoires, ils étudient à présent les œuvres pour elles-mêmes. Les dix-sept textes réunis dans *-Thèmes et Variations-* s'inscrivent dans cette tradition. Ils ont comme point d'origine le colloque éponyme tenu à Hearst (Ontario) en avril-mai 2004. Le colloque s'était donné comme objectif de cerner de plus près l'évolution de la littérature de l'Ontario française et la nature des œuvres, ce que les chercheurs ont fait, tantôt en repérant des thèmes récurrents dans un ensemble d'œuvres l'espace, l'identité, l'amour, l'écriture ou encore en analysant les textes d'un écrivain afin d'en dégager les principaux thèmes. Les articles réunis dans *-Thèmes et Variations-* portent sur plusieurs auteurs: Patrice Desbiens, Jean Marc Dalpe, Michel Ouellette, Daniel Poliquin, Maurice Henrie, Pierre Karch, Hedi Bouraoui, Melchior Mbonimpa, Alain Bernard Marchand et Agnes Whitfield.

Les thèmes du Radeau de la Méduse de Théodore Géricault étudiés à travers leur récurrence dans l'œuvre du peintre, et dans l'art et la littérature du XIXe siècle Norbert-Bertrand Barbe, 2001 Analyste comparatiste et iconologique des thèmes du Radeau de la Méduse, dans la même perspective que celle d'Erwin Panofsky. Une remise en cause totale de l'interprétation classique (Michelet) des œuvres de Géricault peut être entreprise et Géricault peut apparaître comme un apologiste de la Nation et comme un peintre néo-davidien.

Les genres de travers Henri Scepi,2008 Les genres ont longtemps été perçus comme des catégories classificatoires fortement dépendantes d'un principes hiérarchiques. Si, à certaines époques, le discours sur les genres et la théorie qui en découlait ont pu s'articuler sur des valeurs d'ordre et des normes réputées intangibles parce que fondées en raison, la réalité des pratiques et des œuvres littéraires est tout autre. De l'Antiquité à la période contemporaine, l'expérience des genres a en effet suscité des déplacements et des transformations qui ont non seulement contribué à redéfinir l'usage et l'approche des formes littéraires en termes de dynamique ou d'interaction, mais aussi conduit à repenser la notion même de généricité. Le propos de ce volume collectif est de cerner, sans exclusive théorique ou réduction arbitraire aux problématiques de la modernité , les opérations esthétiques, herméneutiques ou cognitives qu'implique une lecture transversale des genres et de la généricité. Le genre de travers fonde ainsi la transgénéricité comme mode d'intelligibilité privilégié des œuvres littéraires et traversée réflexive de la littérature.
