Women Warriors and Wartime Spies of China Louise Edwards, 2016-03-29 In this compelling new study, Louise Edwards explores the lives of some of China's most famous women warriors and wartime spies through history. Focusing on key figures including Hua Mulan, Zheng Pingru and Liu Hulan, this book examines the ways in which these extraordinary women have been commemorated through a range of cultural mediums including film, theatre, museums and textbooks. Whether perceived as heroes or anti-heroes, Edwards shows that both the popular and official presentation of these women and their accomplishments has evolved in line with China's shifting political values and circumstances over the past one hundred years. Written in a lively and accessible style with illustrations throughout, this book sheds new light on the relationship between gender and militarisation and the ways that women have been exploited to glamorise war both historically in the past and in China today.

Girl Warriors Svenja Hohenstein, 2019-06-07 Quest narratives are as old as Western culture. In stories like *The Odyssey*, *The Lord of the Rings*, *Star Wars* and *Harry Potter*, men set out on journeys, fight battles and become heroes. Women traditionally feature in such stories as damsels in need of rescue or as the prizes at the end of heroic quests. These narratives perpetuate predominant gender roles by casting men as active and women as passive. Focusing on stories in which popular teenage heroines--Buffy Summers, Katniss Everdeen and Disney's Princess Merida--embark on daring journeys, this book explores what happens when traditional gender roles and narrative patterns are subverted. The author examines representations of these characters across various media--film, television, novels, posters, merchandise, fan fiction and fan art, and online memes--that model concepts of heroism and girlhood inspired by feminist ideas.

*Old Norse Images of Women* Jenny Jochens, 1996 Working from the Poetic Edda, the Prose Edda, and Old Norse prose narratives and laws, Jenny Jochens argues for an underlying cultural continuum of a pagan pantheon and a set of heroic figures shared by the Germanic tribes in Europe, Britain, Scandinavia, and Iceland from A.D. 500 to 1500. *Old Norse Images of Women* explores the female half of this legacy, which involves images both divine and human. In a society marked by sharp gender divisions, women were frequently portrayed as one of four conventional types. The warrior woman was exemplified by the valkyrie, shieldmaiden, or maiden king. The wise woman was a prophetess or sorceress. The avenger is best seen in Gudrun, whose focus of revenge shifted from husband to brothers. Last, there were the whetters or inciters, who appear both

in the Continental setting as Brynhildr and as ubiquitous figures in medieval Icelandic literature, ranging from Norwegian queens to humble milkmaids.

Seen and Unseen: Visual Cultures of Imperialism ,2017-10-02 Seen and Unseen teases out and explores how visual mediums construct visual cultures that often create limited perspectives of certain issues and groups. This volume focuses in particular on the representation of Islam and Muslims. It deals with fixed and stereotypical visual representations and explores alternative and challenging visual representations that reconstruct and dismantle existing belief systems. It approaches the topic from a vantage point of diverse multiple perspectives. Covering issues from Brunei, Iran, Egypt, and England and cyberspace, the essays in this volume examine the visual cultures of how Islam and Muslims are understood, misunderstood, misrepresented, or even embraced visually. Scholars in this volume draw on historical paintings, books and their covers, photography, and news to demonstrate the diversity and sometimes contradictory visual cultures that construct and adhere meaning to how Islam and Muslim people are seen. Contributors: Hoda Afshar, Jared Ahmed, Syed Farid Alatas, Sanaz Fotouhi, Christiane Gruber, Layla Hendow, Raihana M.M., Bruno Starrs and Esmaeil Zeiny.

**Intersections of Gender, Religion and Ethnicity in the Middle Ages** C. Beattie,K. Fenton,2010-11-24 This collection of essays focuses attention on how medieval gender intersects with other categories of difference, particularly religion and ethnicity. It treats the period c.800-1500, with a particular focus on the era of the Gregorian reform movement, the First Crusade, and its linked attacks on Jews at home.

**Writing the Woman Artist** Suzanne Whitmore Jones,1991 Writing the Woman Artist is a collection of essays that explore the ways women writers portray women painters, sculptors, writers, and performers.

*The Science Education of American Girls* Kim Tolley,2014-04-08 The Science Education of American Girls provides a comparative analysis of the science education of adolescent boys and girls, and analyzes the evolution of girls' scientific interests from the antebellum era through the twentieth century. Kim Tolley expands the understanding of the structural and cultural obstacles that emerged to transform what, in the early nineteenth century, was regarded as a girl's subject. As the form and content of pre-college science education developed, Tolley argues, direct competition between the sexes increased. Subsequently, the cultural construction of science as a male subject limited access and opportunity for girls.

**Writing Women's Communities** Cynthia G. Franklin,1997-10-15 Beginning in the 1980s, a number of popular and influential anthologies organized around themes of shared identity—Nice Jewish Girls, This Bridge Called My Back, Home Girls, and others—have brought together women's fiction and poetry with journal entries, personal narratives, and transcribed conversations. These groundbreaking multi-genre anthologies, Cynthia G. Franklin demonstrates, have played a

crucial role in shaping current literary studies, in defining cultural and political movements, and in building connections between academic and other communities. Exploring intersections and alliances across the often competing categories of race, class, gender, and sexuality, *Writing Women's Communities* contributes to current public debates about multiculturalism, feminism, identity politics, the academy as a site of political activism, and the relationship between literature and politics.

*"Daughters of Jefferson, Daughters of Bootblacks"* Barbara Hilkert Andolsen, 1986 *Daughters of Jefferson, Daughters of Bootblacks* is a constructive proposal in feminist ethics from a theological perspective. With empathy, Barbara Andolsen reveals the moral vulnerability of the woman's movement from its early manifestations in suffrage campaigns to the contemporary feminist theologies of Mary Daly, Elizabeth Schussler Fiorenza, and Rosemary Ruether. Professor Andolsen suggests ways that the shape of the women's movement might be transformed if greater attention were offered to distinctive black feminist perspectives on such issues as rape, work, male/female solidarity, and beauty. She concludes that feminist theology must stress the integral interrelationship of sexism, racism, and economic exploitation. If the contemporary women's movement is to sustain its efforts to liberate all women from the bonds of oppression and exploitation that restrain them, says Professor Andolsen, it must develop a greater capacity for self-criticism and a deeper recognition of its own moral vulnerability. In particular, it must confront the racism that has been part of its history from the beginning and continues to be implicit in the tendency of contemporary feminist to speak and act as if the experience of white middle class women were the experience of all women. -- Publisher description.

*Maxine Hong Kingston* E. D. Huntley, 2001 Maxine Hong Kingston's first book, *Woman Warrior* gained instant popularity and critical success, winning top national literary awards as well as a place on the best seller list. Readers recognized in *China Men*, a follow up memoir, and *Tripmaster Monkey*, a genre-defying novel, the same beguiling narrative voice and

panoramic prose. This critical study provides an introduction to Kingston's works with in-depth literary analysis of her three long narratives. It helps students understand the important thematic concerns, such as the immigrant acculturation process and the literary innovations such as the talk story narrative mode introduced by Kingston. Taking readers beyond these works, this volume offers a guided tour through the Asian immigrant experience, and the history of Asian American Literature. This study examines the tremendous cross-over appeal of Kingston's works with readers of all ages, genders, ethnic and national backgrounds. Readers are introduced to Maxine Hong Kingston with a fascinating biographical chapter. A literary heritage chapter examines not only how Kingston fits into the Asian American literary tradition, but also how her exuberant books helped shape and redefine this important area of literature. A full chapter is devoted to each work, covering all literary components; plot and narrative construction, character development, symbolism, historical context and themes. An alternate critical approach is also given for each work. An extensive bibliography covers works by and about Kingston.
