Leading for Instructional Improvement Stephen Fink, Anneke Markholt, 2011-02-17 Leading for Instructional Improvement Educational experts agree that quality teaching is the single most important factor in improving educational outcomes for all students. Teaching is a highly sophisticated and complex endeavor requiring deep expertise on the part of teachers and school leaders. This book shows how teacher, school, and district leaders can cultivate the expertise of teachers to deliver high quality instruction for all students. Leading for Instructional Improvement captures the nationally acclaimed work conducted by the Center for Educational Leadership at the University of Washington in its effort to improve the quality of teaching and leadership in schools across the country. The book provides extensive practical guidance grounded in theory and research, along with powerful stories and examples from classrooms, schools, and districts. Many of the tools, protocols, and frameworks contained in this book can be accessed electronically by visiting the Center for Educational Leadership website at www.k-12leadership.org. Praise for Leading for Instructional Improvement This book offers insights that are invaluable to educators who seek to enhance teacher effectiveness now. The ideas presented are practical and applicable to schools in a variety of settings. PEDRO A. NOGUERA, Ph.D., Peter L. Agnew Professor of Education, Steinhardt School of Culture, Education and Development and executive director, Metropolitan Center for Urban Education A deep and thoughtful look at how the issue of expertise is cultivated. Seizing upon their Center's research-based instructional framework, the authors provide important insights and tools. DR. BEVERLY HALL, superintendent, Atlanta Public Schools In this age of intense focus on how we evaluate teachers, we have to remember that any evaluation is only as good as the evaluator. This extremely useful book provides an excellent roadmap for how principals can become more effective in the most important aspect of their work, instructional leadership. JERRY D. WEAST, Ed.D., superintendent of schools, Montgomery County Public Schools, Maryland Fink and Markholt offer practitioners a guide to effective teaching. Leading for Instructional Improvement asks us to heed the lessons within and support the kind of teacher education that will improve student achievement for today's schools and those of tomorrow. BARNETT BERRY, president, Center for Teaching Quality

Dead Women Talking Brian Norman, 2012-11-15 Brian Norman uncovers a curious phenomenon in American literature: dead women who nonetheless talk. These characters appear in works by such classic American writers as Poe, Dickinson, and Faulkner as well as in more recent works by Alice Walker, Toni Morrison, Tony Kushner, and others. These figures are

also emerging in contemporary culture, from the film and best-selling novel *The Lovely Bones* to the hit television drama *Desperate Housewives*. *Dead Women Talking* demonstrates that the dead, especially women, have been speaking out in American literature since well before it was fashionable. Norman argues that they voice concerns that a community may wish to consign to the past, raising questions about gender, violence, sexuality, class, racial injustice, and national identity. When these women insert themselves into the story, they do not enter precisely as ghosts but rather as something potentially more disrupting: posthumous citizens. The community must ask itself whether it can or should recognize such a character as one of its own. The prospect of posthumous citizenship bears important implications for debates over the legal rights of the dead, social histories of burial customs and famous cadavers, and the political theory of citizenship and social death. -- Leonard Cassuto, author of *Hard-Boiled Sentimentality: The Secret History of American Crime Stories*

Embodied Narration Heike Hartung, 2018-08-07 Do liminal embodied experiences such as illness, death and dying affect literary form? In recent years, the concept of embodiment has been theorized from various perspectives. Gender studies have been concerned with the cultural implications of embodiment, arguing to move away from viewing the body as a prediscursive phenomenon to regarding it as an acculturated body. Age studies have extended this view to the embodied experience of ageing, while drawing attention to the ways in which the ageing body, through its materiality and plasticity, restricts the possibilities of (de)constructing subjectivity. These current debates on embodiment find a strong counterpart in literary representation. The contributions to this anthology investigate how and to what extent physical borderline experiences affect literary form.

The Lovely Bones Alice Sebold, 2002-08-07 My name was Salmon, like the fish; first name, Susie. I was fourteen when I was murdered on December 6, 1973. So begins the story of Susie Salmon, who is adjusting to her new home in heaven, a place that is not at all what she expected, even as she is watching life on earth continue without her -- her friends trading rumors about her disappearance, her killer trying to cover his tracks, her grief-stricken family unraveling. Out of unspeakable tragedy and loss, *The Lovely Bones* succeeds, miraculously, in building a tale filled with hope, humor, suspense, even joy.

Directory of World Cinema: Scotland Bob Nowlan, Zach Finch, 2015-05-29 Scotland, its people and its history have long been a source of considerable fascination and inspiration for filmmakers, film scholars and film audiences worldwide. A significant number of critically acclaimed films made in the last twenty-five years have ignited passionate conversations and debates about Scottish national cinema. Its historical, industrial and cultural complexities and contradictions have made it all the more a focus of attention and interest for both popular audiences and scholarly critics. *Directory of World Cinema: Scotland* provides an introduction to many of Scottish cinema's most important and influential themes and issues, films and filmmakers, while adding to the ongoing discussion concerning how to make sense of Scotland's cinematic traditions and

contributions. Chapters on filmmakers range from Murray Grigor to Ken Loach, and Gaelic filmmaking, radical and engaged cinema, production, finance and documentary are just a few of the topics explored. Film reviews range from popular box office hits such as *Braveheart*, and *Trainspotting* to lesser known but equally engaging independent and lower budget productions, such as *Shell and Orphans*. This book is both a stimulating and accessible resource for a wide range of readers interested in Scottish film.

A/AS Level English Language and Literature for AQA Student Book Marcello Giovanelli, Andrea Macrae, Felicity Titjen, Ian Cushing, 2015-07-09 A new series of bespoke, full-coverage resources developed for the 2015 A Level English qualifications. Endorsed for the AQA A/AS Level English Language and Literature specification for first teaching from 2015, this print Student Book offers stretch opportunities for the more able and additional scaffolding for those who need it. Providing full coverage of the specification, the unique three-part structure bridges the gap between GCSE and A Level and develops students' understanding of descriptive linguistics and literary and non-literary stylistics, together with support for the revised coursework component and new textual intervention task. An enhanced digital edition and free Teacher's Resource are also available.

The New Yale Book of Quotations Fred R. Shapiro, 2021-08-31 A revised, enlarged, and updated edition of this authoritative and entertaining reference book—named the #2 essential home library reference book by the *Wall Street Journal* “Shapiro does original research, earning [this] volume a place on the quotation shelf next to Bartlett's and Oxford's.”—William Safire, *New York Times Magazine* (on the original edition) “The most accurate, thorough, and up-to-date quotation book ever compiled.”—Bryan A. Garner, *Los Angeles Review of Books* Updated to include more than a thousand new quotations, this reader-friendly volume contains over twelve thousand famous quotations, arranged alphabetically by author and sourced from literature, history, popular culture, sports, digital culture, science, politics, law, the social sciences, and all other aspects of human activity. Contemporaries added to this edition include Beyoncé, Sandra Cisneros, James Comey, Drake, Louise Glück, LeBron James, Brett Kavanaugh, Lady Gaga, Lin-Manuel Miranda, Barack Obama, John Oliver, Nancy Pelosi, Vladimir Putin, Bernie Sanders, Donald Trump, and David Foster Wallace. The volume also reflects path-

breaking recent research resulting in the updating of quotations from the first edition with more accurate wording or attribution. It has also incorporated noncontemporary quotations that have become relevant to the present day. In addition, The New Yale Book of Quotations reveals the striking fact that women originated many familiar quotations, yet their roles have been forgotten and their verbal inventions have often been credited to prominent men instead. This book's quotations, annotations, extensive cross-references, and large keyword index will satisfy both the reader who seeks specific information and the curious browser who appreciates an amble through entertaining pages.
