A Dream of Red Mansions (2012 Edition - EPUB) Asiapac Editorial,2018-10-17 Named as one of the Four Main Classical Novels of China, A Dream of Red Mansions is the only novel to address the role of women in China's history. The tragic romance, set in the powerful Jia clan, has captivated readers for centuries. Jia Baoyu and Lin Daiyu are the protagonists of this story. An effeminate young man, Baoyu grew up in the company of the women in the Jia clan and does not fit into the traditional archetype of a strong, masculine patriarch. Though seemingly weak and fragile, Daiyu, Baoyu's cousin, embodies an unyielding independent streak in her attempt to find her place in the Rong Mansion. Despite their differences, these two characters find comfort and love in each other, united by their inability to fit into the expectations of feudal China. Framing their story are the other members of the household: Wang Xifeng, Baoyu's manipulative cousin-in-law; Baochai, another cousin of Baoyu's who is destined to marry him; and Jia Zheng, Baoyu's strict father. Witness the ways of an aristocratic family that takes their luxuries for granted, and find out that life in the Red Mansions is nothing more than an unsustainable dream!

The Dream of the Red Chamber Cao Xueqin,2023-12-16 The Dream of the Red Chamber, an exquisite masterpiece by Cao Xueqin, delves deep into the lives of the Jia family, weaving a rich tapestry of love, ambition, and the inevitable decay of aristocracy in 18th-century China. The novel is notable for its intricate character development and vivid prose, employing an allegorical literary style that reflects the complexities of human emotions and societal dynamics. Framed within the context of a declining feudal system, the narrative simultaneously serves as a critique of Confucian values and explores themes of fate, illusion, and the transient nature of life, rendering it a cornerstone of Chinese literature. Cao Xueqin, a descendant of a once-wealthy family, experienced the profound loss of status and wealth, which catalyzed his writing. Born into a life of privilege that shrank into poverty, his personal experiences of familial disintegration and the fleeting nature of happiness manifest vividly throughout the novel. His rich cultural background and keen observations of the society around him provide a poignant authenticity to the lives of his characters, making their struggles both universal and timeless. The Dream of the Red Chamber is not just a novel; it is an invitation to explore the intricacies of human relationships and societal norms. Readers seeking to immerse themselves in a world of beauty, tragedy, and introspection will find this work both enlightening and profoundly moving. It stands as a testament to the human condition, making it essential reading for anyone interested in

literary depth and historical significance.

History of Literature in the Qing Dynasty Li Shi, The book is the volume of "History of Literature in the Qing Dynasty" among a series of books of "Deep into China Histories". The earliest known written records of the history of China date from as early as 1250 BC, from the Shang dynasty (c. 1600-1046 BC) and the Bamboo Annals (296 BC) describe a Xia dynasty (c. 2070-1600 BC) before the Shang, but no writing is known from the period The Shang ruled in the Yellow River valley, which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations, and is regarded as one of the cradles of civilization. The Zhou dynasty (1046-256 BC) supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC, and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature and philosophy first developed during those troubled times. In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death, and was supplanted by the longer-lived Han dynasty (206 BC - 220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men, well-versed in calligraphy, history, literature, and philosophy, were carefully selected through difficult government examinations. China's last dynasty was the Qing (1644-1912), which was replaced by the Republic of China in 1912, and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace, and periods of war and failed statehood - the most recent being the Chinese Civil War (1927-1949). China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled

parts or all of China; in some eras control stretched as far as Xinjiang and Tibet, as at present. Traditional culture, and influences from other parts of Asia and the Western world (carried by waves of immigration, cultural assimilation, expansion, and foreign contact), form the basis of the modern culture of China.
