**La epopeya del sentido:** Rafael Rojas, 2022-01-18 La Revolución mexicana fue un estallido simultáneo y diacrónico de movimientos políticos y armados que reflejaron la heterogeneidad social y regional del país entre 1910 y 1940. La lucha contra el antiguo régimen porfirista rápidamente dio paso a una pugna por la hegemonía de la gesta, conflicto que transitó de la guerra civil a la construcción del Estado posrevolucionario. A través de diversos documentos —programas y planes políticos, los debates de la Convención de Aguascalientes y los que derivaron en la Constitución de Querétaro, discusiones legislativas, revistas, periódicos, correspondencia, memorias, novelas, poemas y ensayos—, este libro estudia el choque de nociones y conceptos sobre la Revolución que acompañó a aquel proceso. Junto con la lucha armada y política, tuvo lugar una “epopeya del sentido” que enfrentó a los grupos revolucionarios en un campo de batalla paralelo: el de la semántica de los tiempos históricos.

Monuments of Progress Claudia Agostoni, 2003 A social and cultural history of public health in Mexico during the late 1800s and early 1900s. The book offers a fresh take on the history of medicine and public health by shifting away from the history of epidemic disease and heroic accounts of medical men and toward looking at public health in a broader social framework. It shows how new public health policies were instrumental in the 'modernisation' of Mexico. Adds to a small, but fast-growing body of literature, on the history of public health in Latin America and other developing areas of the world.
