The United Nations Kirsten Nakjavani Bookmiller,2008 Founded at the end of World War II in 1945, the United Nations was created to maintain international peace and security, develop friendly relations among nations on equal terms, and encourage international cooperation in solving intractable human problems.

Race and Gender in Modern Western Warfare David Ulbrich,Bobby A. Wintermute,2018-12-03 This book fills a gap in the historiographical and theoretical fields of race, gender, and war. In brief, Race and Gender in Modern Western Warfare (RGMWW) offers an introduction into how cultural constructions of identity are transformed by war and how they in turn influence the nature of military institutions and conflicts. Focusing on the modern West, this project begins by introducing the contours of race and gender theories as they have evolved and how they are employed by historians, anthropologists, sociologists, and other scholars. The project then mixes chronological narrative with analysis and historiography as it takes the reader through a series of case studies, ranging from the early nineteenth century to the Global War of Terror. The purpose throughout is not merely to create a list of so-called great moments in race and gender, but to create a meta-landscape in which readers can learn to identify for themselves the disjunctures, flaws, and critical synergies in the traditional memory and history of a largely monochrome and male-exclusive military experience. The final chapter considers the current challenges that Western societies, particularly the United States, face in imposing social diversity and tolerance on statist military structures in a climates of sometimes vitriolic public debate. RGMWW represents our effort to blend race, gender, and military war, to problematize these intersections, and then provide some answers to those problems.

**Global Leadership Initiatives for Conflict Resolution and Peacebuilding** Campbell, Andrew H.,2018-03-23 One global leadership challenge is managing the complexity of the political and economic climate of a society. As the global environment changes, it is essential for global leaders to adapt and develop flexible strategies for resolving conflicts and achieving peace. Global Leadership Initiatives for Conflict Resolution and Peacebuilding provides emerging research on a leader's role in the international, national, and nongovernmental organization within post-conflict resolution and peaceful leadership. While highlighting topics, such as civil society organizations, leadership education, and social reconstruction, this book explores leadership theories and practice models to conceptualize the intersection of leadership within conflict management and resolution. This book is an important resource for leaders, scholar-practitioners, educators, and

researchers seeking current research on the strategic and diplomatic methods of a peaceful global organization.

**Child Soldiers in the Western Imagination** David M Rosen, 2015-10-12 When we hear the term “child soldiers,” most Americans imagine innocent victims roped into bloody conflicts in distant war-torn lands like Sudan and Sierra Leone. Yet our own history is filled with examples of children involved in warfare—from adolescent prisoner of war Andrew Jackson to Civil War drummer boys—who were once viewed as symbols of national pride rather than signs of human degradation. In this daring new study, anthropologist David M. Rosen investigates why our cultural perception of the child soldier has changed so radically over the past two centuries. *Child Soldiers in the Western Imagination* reveals how Western conceptions of childhood as a uniquely vulnerable and innocent state are a relatively recent invention. Furthermore, Rosen offers an illuminating history of how human rights organizations drew upon these sentiments to create the very term “child soldier,” which they presented as the embodiment of war’s human cost. Filled with shocking historical accounts and facts—and revealing the reasons why one cannot spell “infantry” without “infant”—*Child Soldiers in the Western Imagination* seeks to shake us out of our pervasive historical amnesia. It challenges us to stop looking at child soldiers through a biased set of idealized assumptions about childhood, so that we can better address the realities of adolescents and pre-adolescents in combat. Presenting informative facts while examining fictional representations of the child soldier in popular culture, this book is both eye-opening and thought-provoking.

**Addressing Special Educational Needs and Disability in the Curriculum: History** Richard Harris, Ian Luff, 2017-04-11 The SEND Code of Practice (2015) has reinforced the requirement that all teachers must meet the needs of all learners. This topical book provides practical, tried and tested strategies and resources that will support teachers in making history lessons accessible and exciting for all pupils, including those with special needs. The authors draw on a wealth of experience to share their understanding of special educational needs and disabilities and show how the history teacher can reduce or remove any barriers to learning. Offering strategies that are specific to the context of history teaching, this fully revised edition will enable teachers to: Make history education accessible and engaging to pupils of all abilities Create an inclusive classroom environment that responds to the emotional needs of the class and nurtures a culture of learning Develop inclusive practical demonstration and role play techniques to aid conceptual understanding Set assessment objectives Deploy in-class support effectively An invaluable tool for continuing professional development, this text will be essential for teachers (and their teaching assistants) seeking guidance specific to teaching history to all pupils, regardless of their individual needs. This book will also be of interest to SENDCOs, senior management teams and ITT providers. In addition to practical activities and supporting material contained in the book, there are also free online resources for readers to download and use in the preparation of successful, inclusive lessons for all pupils.

**On Politicking** Ralph Pettman, 2025-05-03 This book is unusual in that, although it asks a familiar question, it provides

an unfamiliar answer. What's more, it's the most coherent and comprehensive answer possible. Most people say politics is about how societies organise their affairs, or about different kinds of government, or about who rules and why. The problem is that though they aren't wrong, they're only partly right. Social order, government and rule are all important, but they're part of a bigger picture. Politics is about much, much more. In short, it's about politicking, which is a fundamental form of behavior that involves a number of very specific practices. These include coercion, persuasion, reconciliation, exploitation, indoctrination, ratiocination, marginalization, and preemption. This is how people try to get their own way, either as individuals or in groups. It goes on all the time, too, within and between individuals, and at all other social levels, like families, bands, tribes, gangs, clubs, clans, offices, institutions, professions, companies, cities, provinces, countries, and religions. Most of this story never gets told, which is why this book was written. It has considerable theoretical significance, and a wide range of practical examples are provided throughout to illustrate the case it makes.

*All Quiet on the Western Front* Erich Maria Remarque, 1994 This World War I novel is a German author's attempt to tell of a generation of men who, even though they may have escaped its shells, were destroyed by the war. It is narrated through the eyes of an unknown soldier in the trenches of Flanders.

**Grahame Clark and His Legacy** Arkadiusz Marciniak, John M. Coles, 2010 Grahame Clark was a major figure in European archaeology for over 50 years, and pioneered work in prehistoric economies and ecology, in science-based archaeology and in a world view of ancient societies. A variety of authorities assess these major contributions and provide discussions about Clark's own colleagues and contemporaries.

**Majority-minority Relations** John E. Farley, 2005 For sophomore/junior level courses in Majority-Minority Relations or Race and Ethnic Relations in departments of sociology and ethnic studies and for college and university courses on diversity. This topically organized text is designed to develop students' understanding of the principles and processes that shape the patterns of relations between racial, ethnic, and other groups in society. Organized by topic, this book provides a more integrated look at the social forces that affect different racial groups.

Archaeology, Conservation and the City Caroline A. Sandes, 2010 This volume looks at archaeological conservation in an urban context, looking at why sites have been historically (since WWII) selected for conservation, focusing in particular on fragmentary sites rather than major monuments.
