**Beyond the Boardroom** Dr. Piali Haldar, Dr. Brijlal Malik, 2025-06-19 The book *Beyond the Boardroom: Practical Management Cases in Indian Context* is a timely and valuable contribution to the field of management education and practice in India. As management education is continuously evolving in a competitive environment, there is a growing need for resources that go beyond theoretical frameworks and provide real-world insights into decision-making, problem-solving, and leadership. This edited volume responds to that need by offering a comprehensive collection of 100 carefully selected and well-structured case studies drawn from the Indian business environment. By blending theory with practice, the book bridges the gap between classroom learning and the complex realities faced by managers and organisations in diverse industries. At its core, the book recognises the importance of contextualising management knowledge. Much of management literature, historically, has been dominated by Western perspectives and examples. While global theories provide a strong foundation, management students and practitioners in India often struggle to connect them with the unique socio-cultural, economic, political, and legal environment of Indian businesses. It examines how Indian companies, both large corporations and emerging start-ups, navigate challenges and opportunities while responding to the local environment. Such an approach not only enhances the relevance of management education in India but also encourages learners to appreciate the nuances of decision-making in emerging economies. The case studies cover a wide spectrum of management disciplines, ensuring that readers gain a holistic perspective. In the area of Marketing, the book spans both traditional marketing practices and digital marketing strategies, reflecting the transformation Indian businesses are undergoing in reaching consumers. In the field of Human Resource Management (HRM), the book explores cases on talent acquisition, workforce diversity, performance appraisal, and employee engagement. The Finance section includes case studies that shed light on capital structuring, investment decisions, risk management, and financial planning within Indian businesses. Strategic Management and Policy form another significant focus of the book. The cases under this domain explore mergers and acquisitions in the Indian corporate sector, the impact of globalization on domestic firms, and the strategies adopted by organisations to remain competitive in highly dynamic markets. The General Management and Operations section deals with the day-to-day challenges that managers encounter. Cases in this area cover topics such as supply chain disruptions, quality management, lean operations, project management, and customer relationship management. One of the strengths of this book is its

interdisciplinary nature. By offering cases that cut across multiple functions, it highlights the interconnectedness of business decisions. Through these interlinkages, the book encourages readers to adopt a holistic mindset and view management problems not in isolation but as part of an integrated system. For educators, the book serves as an invaluable teaching aid. The case method of learning, which has long been recognised as an effective pedagogical tool, allows students to engage actively with real scenarios, debate alternative courses of action, and develop problem-solving skills. With 100 diverse cases, instructors have ample material to design course modules, assign group discussions, and encourage applied research. The richness and variety of cases ensure that the book can be used across undergraduate, postgraduate, and executive education programs. For students, the book provides an opportunity to sharpen analytical, decision-making, and leadership skills. By situating cases within the Indian business environment, it fosters a sense of relevance and relatability. Students not only learn theoretical concepts but also witness how those concepts manifest in real organisations. This prepares them to become managers who can adapt theory to practice with confidence. In conclusion, *Beyond the Boardroom: Practical Management Cases in Indian Context* is more than just a collection of case studies; it is a comprehensive learning resource that reflects the vibrancy and complexity of Indian business. By covering all major management disciplines—Marketing, Digital Marketing, HR, Finance, Strategic Management, General Management, and Operations—the book provides a 360-degree view of organisational challenges. For academicians, students, and practitioners alike, this book is an essential companion in the journey of bridging theory and practice in management education.

**Enhanced Enterprise Risk Management** John Sidwell, Peter Hlavnicka, 2022-11-22 The performance and survival of a business in a global economy depends on understanding and managing the risks—external and those embedded within its operations. It is vital to identify and prioritize significant risks and detect the weakest points. Adding other elements to an essential ERM program, such as PESTEL and Porter's 5 forces, treatment plans, scorecards, the three lines of defense (3LoD) components, and process improvements (six sigma, 8D, etc.) significantly increases the ERM success rate. The authors outline a comprehensive strategy to designing and implementing a robust and successful ERM program – and not just successful in implementation but also yielding enormous returns for the organizations that implemented this enhanced ERM program.

**Market Analysis of Red Bull based on the countries Germany, Switzerland and Austria** Julia Teigeler,Ann-Katrin Hahne,2014-05-27 Seminar paper from the year 2014 in the subject Business economics - Offline Marketing and Online Marketing, grade: 2,0, University of Applied Sciences Essen, language: English, abstract: In this assignment named „Market Analysis of Red Bull based on the countries Germany, Switzerland and Austria“ the goal is to analyse the market of Red Bull with its competitors, customers and market position. Red Bull is a company and brand founded in 1987 with its slogan “Red Bull gives you wiiings”. The company launched by Dietrich Mateschitz sold more than 35 billion cans until now and is available in more than 165 countries. The brand is well known because of the large amount of athletes in sports and extreme sports sector they are supporting. They are having their own sport events and additionally teams in such different sectors like e.g. football, formula 1 or flying. The biggest event they were supporting in the last years was the jump up from stratosphere of Felix Baumgartner. Red Bull had also had some problems in the past not only with new out coming competitors. But in some countries are legal requirements to enter the market and health concerns are producing negative publicity because they were warning customers that the drink can harm healthiness. Other points which are influencing the market position are that the price is very high and the competitive prices compared are much cheaper. Positive points to mention are that Red Bull helps it's customers to overlap working much hours and to support them doing diet or sports more effective. Another important point is that the company is always using newest technology. The disadvantage is that there are many competitors with cheaper prices and Red Bull itself has a small product portfolio (only six different drinks). All in all it can be said, that they are the market leader with a big growth in other countries and are seen as unique by the consumers. They have an attractive image and they are offering not only a drink but an experience. This is what creates their unique

selling proposition in a way with a clear brand personality combined with an emotional binding and a high public interest. Their positioning in the market is very high levelled what is caused by the “old” but also “modern” slogan, that’s a high premium drink and not linked to a specific activity. But to bear in mind is that it would become more difficult to hold the market leadership and justify premium pricing as well as their production methods.

**International Marketing Report: Fritz Kola** Tim Buse, 2012-03-28 Master's Thesis from the year 2011 in the subject Communications - Public Relations, Advertising, Marketing, Social Media, grade: A, Webster Graduate School London, language: English, abstract: The Fritz-Kola GmbH is a German enterprise founded in 2003 by Lorenz Hampl and Mirco Wolf Wiegert, two students from Hamburg. The original idea behind the product was to create a cola drink that tastes different from the products of Coca-Cola or Pepsi, being less sweet with more caffeine. Focussing on the distribution through restaurants, cafés, bars and clubs, the brand became popular among the targeted group of young individualists and party-goers. It is due to that popularity, which also was supported by the trend of supporting regional brands, that Fritz-Kola’s revenues were increasing by two over three years in a row. In 2006, the company launched other beverages like lemonades and a ‘morning-cola’ that has the taste of coffee and caramel. By 2010, the company’s revenue was €2.7 million. The internationalization of its products is an on-going process. Today, Fritz-Kola is available in Germany, Poland, The Netherlands, Austria, Switzerland, Spain and Belgium. Fritz Kola is also available in the UK, but only in one restaurant, which is a German restaurant importing the product from Germany. The corporate objectives of Fritz-Kola GmbH are not to become a market leader in the segment of soft drinks, but to provide a considerable alternative to the big players like Coca-Cola and PepsiCo. For that reason, the company strives to create a diversified product portfolio under the brand name Fritz-Kola, consisting of cola lemonades.

**Apple marketing audit and new service product plan** Sherry King, 2014-03-07 Seminar paper from the year 2011 in the subject Business economics - Offline Marketing and Online Marketing, grade: A, King`s College London, language: English, abstract: This place is responsible for designing, developing and sells technological products which include phones, pcs and applications. Its best-known hardware products: Mac PCs, iPods, iPhones, iPads and Apple TVs. Its customer application includes the OS X and iOS operating-system, iTunes, safari web browser, and the iLife and iWork creativity and productivity packages. Apple was established by Steve Jobs, Steve Wozniak, and Ronald Whyne on Apr 1, 1976 to develop and sell pcs. It was incorporated as Apple computers Inc. on Jan 3, 1977, and was relabelled as Apple Inc. on Jan 9, 2007 to reflect its shifted focus towards technology. (Apple, n.d.) Apple is the second-largest technology organization by revenue after Samsung Electronic devices, and the third-largest cell phone maker after Samsung and Htc. Fortune magazine named Apple the most popular organization in the United States in 2008, and in the world from 2008 to 2012. On Sept 30, 2013, Apple organization exceeded Coca-Cola to become the most valuable brand in the Omnicom Group's Best Global Brands

report. The organization has also received the critique for its contractors' labour methods and also for Apple's own environmental and business methods. (Apple, n.d.) Apple is known for its creative genius and cutting edge work in the field of technology. Apple provides state of the art products which makes it very difficult for its customers to switch over other brands. Highly personalized and smooth functioning products. Since last decade, Apple has launched revolutionary products which have changed the way technology industry functions. Apple has revolutionized smartphone market with iPhone, music players market with different versions of iPods, amazing Mac series and iTunes.
